Colorado Alive

Live Colorado Wildlife!

When: Wednesday, July 28th from 7:00pm to 8:00 pm

Where: Louisville City Hall, Council Chambers (749 Main Street)

The Denver Zoo will be visiting with live animals to introduce us to Colorado wildlife and perform hands-on investigations with horns, antlers, skulls, skins and more. We will also explore the interactions of living and nonliving components in Colorado's environments and discover how animals have adapted to living in Colorado's plains, mountains, and cities.
