- If your child cannot make a meeting or the Expo, parents are expected to notify their coach. The coach contact information will be given to each child along with their team assignment.
- Although FIRST LEGO League Jr. will be lots of fun, it is not just free time with LEGOs. Children will need to problem solve, do basic research, and work with other team members to solve an engineering problem. The coaches will guide their teams through the process, but children should be made aware that some school-type work is involved.
- Teams will make a “Show Me” poster and exhibit their work at the Expo.

**Please read the following statements and then sign and date below. Doing so indicates that you understand and will abide by these principles and guidelines.**

I am aware of the time frame and responsibilities involved with my child committing to be a member of a FIRST LEGO League Jr. team at the Louisville Public Library.

I will arrive on time for our team meetings and contact my child’s coach if I am unable to attend a prescheduled team meeting.

I will treat the other children on my team and my coach with respect and consideration. FIRST LEGO League Jr. is about having fun and getting excited about science.

The kids will do all of the research, problem solving and building. Coaches and parents can help them find the answers, but cannot give them the answers or make decisions for them.
