### **Louisville Library Offering TumbleBook Collection for Children Picture Books Come to Life with Animation, Sound, Music, and Narration**

LOUISVILLE, CO – January 25, 2012 – Today's children are engaged in reading and literacy in many formats, and the Louisville Library is helping parents and teachers in their efforts to support early literacy with one of its newest offerings, the TumbleBook Library of electronic books. TumbleBooks, which are licensed titles from children's book publishers, are created by adding animation, sound, music, and narration to existing picture books to make an electronic book. TumbleBooks are available from the Library's website and can be accessed in the Library or remotely for free, 24/7 access.

According to Denise Brooks, Children's Librarian at the Louisville Library, "TumbleBooks are a fun, interactive way to improve a child's reading and comprehension. With its great selection of readers, classics, nonfictions and picture books—available in 3 languages—parents and teachers can find books suitable to any child's reading level. Also, the literacy games and puzzles make reading fun for the whole family."

Visit the Library website to find out more about TumbleBooks, or stop by the Library's Children's Services Department for a hands-on TumbleBooks demonstration.
