Louisville Celebrates Grand Opening of South Street Underpass

Louisville, CO – The City of Louisville will host the grand opening of the South Street Underpass on Saturday, September 16, 2017 at 9:30 am at the South Street Plaza near the intersection of South Street and Front Street in Downtown Louisville. The celebration will kick off with a presentation and ribbon cutting followed by refreshments and family activities. The South Street Underpass is a new pedestrian connection between Historic Downtown Louisville and Downtown East Louisville. Creating a safe and inviting connection under the BNSF Railway tracks, the Underpass builds upon the character of Downtown Louisville, provides a supportive environment for urban revitalization and private investment and accommodates future regional transit plans. The City would like to thank its funding partner, the Louisville Revitalization Commission, and coordination partners, Foundry Builders and H2 Development Services. The Underpass will be open to the public following its grand opening on September 16th.
