

City Council

Special Meeting Agenda

Tuesday, February 12, 2019

City Hall

749 Main Street

7:00 PM

**Note: The time frames assigned to agenda items are estimates for guidance only.
Agenda items may be heard earlier or later than the listed time slot.**

1. **CALL TO ORDER**

- 7:00 – 7:15 PM 2. **PRESENTATION – GREEN BUSINESS PROGRAM**
 - Presentation
 - Public Comments (Please limit to three minutes each)
 - Council Questions & Comments

- 7:15 – 8:15 PM 3. **DISCUSSION/DIRECTION – SELECTION OF A 5-YEAR TRASH, RECYCLING, AND COMPOST HAULER**
 - Staff Presentation
 - Public Comments (Please limit to three minutes each)
 - Council Questions & Comments

- 8:15 – 8:45 PM 4. **DISCUSSION/DIRECTION – LOUISVILLE SPORTS COMPLEX**
 - Staff Presentation
 - Public Comments (Please limit to three minutes each)
 - Council Questions & Comments

- 8:45 – 9:00 PM 5. **ADVANCED AGENDA & IDENTIFICATION OF FUTURE AGENDA ITEMS**

- 9:00 PM 6. **ADJOURN**

Citizen Information

If you wish to speak at the City Council meeting, please fill out a sign-up card and present it to the City Clerk.

Persons with disabilities planning to attend the meeting who need sign language interpretation, assisted listening systems, Braille, taped material, or special transportation, should contact the City Manager's Office at 303 335-4533. A forty-eight-hour notice is requested.

SUBJECT: PRESENTATION – GREEN BUSINESS PROGRAM

DATE: FEBRUARY 12, 2019

PRESENTED BY: KATIE BAUM, SUSTAINABILITY SPECIALIST

SUMMARY:

The City of Louisville and the Louisville Sustainability Advisory Board (LSAB), in conjunction with Boulder County's Partners for a Clean Environment (PACE) and the Louisville Chamber of Commerce, announce Louisville's 2018 Green Business awards.

For the third year of the program, there were 29 applicants that met 2018 program requirements in four categories: energy conservation, water conservation, waste reduction, and transportation alternatives.

The Green Business Recognition Program, funded by the City of Louisville and through collaboration with PACE, provides local businesses with one-on-one assistance to incorporate conservation and sustainable practices into their day-to-day business practices and recognizes those businesses who have achieved marked environmental leadership within the community.

The City of Louisville recognizes businesses for their investments and contributions to the economic vitality of our community and the health of our environment. In 2017, participating businesses and their sustainability efforts helped save 288 mtCO₂, equivalent to 31 homes energy use for an entire year or the amount of carbon sequestered by 339 acres of U.S. forests in one year.

FISCAL IMPACT:

None.

RECOMMENDATION:

N/A

ATTACHMENT(S):

None.

SUBJECT: DISCUSSION/DIRECTION – SELECTION OF 5-YEAR TRASH, RECYCLING, AND COMPOST HAULER

DATE: FEBRUARY 12, 2019

PRESENTED BY: KURT KOWAR, PUBLIC WORKS

SUMMARY:

Staff is requesting direction from City Council to negotiate a Final Contract with a Solid Waste Hauler for renewal of the City's 5-year annually renewable residential single hauler solid waste contract. Three options are as follows:

1. Staff is recommending Republic Services for a 5-year Contract if the City Council would like to implement an embedded Recycling and Compost Pay as You Throw rate structure.
2. Staff is recommending Western Disposal for a 5-year Contract if the City Council would like to maintain an embedded Recycling and a la carte Compost Pay as You Throw rate structure.
3. Direct staff to follow-up regarding any unanswered issues or concerns and return March 5th with updated information for consideration.

Western Disposal and Republic Services both offer qualified teams and competitive services. Detailed analysis of services and various service level pricing is available in the attached presentation.

Option 1 represents a modified Pay as You Throw rate structure to further incentivize recycling and composting, and save money for customers that throw away less trash. This option includes a 96-gallon recycle and compost container in the cost of the trash container unit cost. Based upon significant differences in proposal price, the Selection Committee believes that Republic Services represents the best value for Option 1.

Option 2 represents the City's current Pay as You Throw rate structure, which provides for a 96-gallon recycle in the cost of the trash container unit cost and a la carte pricing for compost containers. Based upon minimal cost differences in the overall RFP pricing, the historical relationship of great service, and the desire to minimize change to the Community while maintaining similar programming, the Selection Committee believes that Western Disposal represents the best value for Option 2.

Detailed analysis of RFP's and pricing are available in the attached presentation.

SUBJECT: SELECTION OF 5 YEAR SOLID WASTE HAULER

DATE: FEBRUARY 12, 2019

PAGE 2 OF 3

Staff received RFP’s from two Proposers on December 20, 2018. The two Proposers were Western Disposal and Republic Services. Bidders responses to Base Bid and Alternate Bid Schedules are as follows:

Bid Tab Overview	Day of Week	Base Price Includes	5 Yr		10 Yr	
			Western	Republic	Western	Republic
3.1.1 Base Bid	Single	Recycle, Compost	Yes	No	Yes	No
3.1.2 Alternate #1	Single	Recycle	Yes	No	Yes	No
3.1.3 Alternate #2	Multiple	Recycle, Compost	No	Yes	No	Yes
3.1.4 Alternate #3	Multiple	Recycle	No	Yes	No	Yes

Staff reviewed RFP’s and several Requests for Information (RFI) were completed with Proposers to ensure clarity in pricing and the intent of proposals. **RFI’s are attached for informational purposes.**

A 5 member Selection Committee (Committee) interviewed Proposers on January 28, 2019. **Questions that were asked of the Proposers are provided as an attachment for informational purposes.** Overall Selection Committee scoring was as follows:

	Points	75	5	5	5	5	5	100
	Contractor	Pricing	Services	RFP	Schedule	Equipment	Interview	Total
Base Bid Embedded Compost	Republic Services	75.0	4.50	5	4	5	5	98.5
	Western Disposal	70.0	4.50	5	5	4	5	93.5
Alternate No Embedded Compost	Republic Services	75.0	4.50	5	4	5	5	98.5
	Western Disposal	74.5	4.50	5	5	4	5	98.0

As shown in the table above, the Committee considered Services, Quality of RFP, Pickup Schedule, Equipment, and Interview Performance. Pricing was weighted using the following equation:

$$\frac{(5 \text{ yr Total Cost Low Bid} \times 75)}{5 \text{ yr Total Cost Evaluated Bid}} = \text{Pricing Score}$$

FISCAL IMPACT:

The Solid Waste Hauling Contract is a pass through cost for the City. The Contract Hauler bills the City and then the City bills the customer on their Utility Bill.

SUBJECT: SELECTION OF 5 YEAR SOLID WASTE HAULER

DATE: FEBRUARY 12, 2019

PAGE 3 OF 3

The program offers several Trash, Recycle, and Compost container mixes. Specific pricing for a container mix is provided in the attached presentation.

Both Proposers requested changes to the Cost Index being considered for the next 5-year contract annual price increases. The City's contract has traditionally utilized the National All Urban Consumers Price Index. Western Disposal has requested utilization of the All Urban Consumers Price Index (Denver Aurora Lakewood). Republic Services has requested utilization of the Water Sewer Trash Index. The City of Lafayette uses this same CPI for their 5-year hauler contract. Further detail on this is provided in the presentation.

Staff is recommending utilization of the CPI for Denver Aurora Lakewood, which is more representative of local economic conditions.

PROGRAM/SUB-PROGRAM IMPACT:

The main objective for the Solid Waste Sub-Program is to enable residents to dispose of their solid waste in a convenient, environmentally responsible, cost effective manner.

RECOMMENDATION:

City Council provide direction on the preferred Pay as You Throw rate structure and provide Staff direction to negotiate a Final Contract with the associated recommended hauler for approval on March 5th, 2019.

No Advantage

5 yr and 10 yr Pricing were Identical

Common Topics

- ❖ Both Proposers have great References regarding ability to do the job.
- ❖ The City will Finalize a Contract with either Hauler that will maintain Emerald Ash Borer Quarantine best practices.
- ❖ Both Proposers have local Customer Service.
- ❖ Both Proposers will supply 500 cy of Compost for City distribution.
- ❖ Both Proposers have extremely safe industry records.
- ❖ Both Proposers will drive a similar amount of miles on Louisville roads.
- ❖ Both Management Teams provided adequate RFP's and Interviewed well.

Western

Pros

Local Boulder County Company

Best Schedule - Thursdays

Known Quantity - City Contract for 10 yrs

Equipment Clean and Serviced

Convenience - All Compost Can Go in Bins

Low Employee Turnover, Long Term Experience

Cons

May Not Bring Same Experience/Depth
as Larger Corporate Company

Equipment Not Brand New

Not the Least Cost 5 yr Contract

Republic

Pros

Could Offer Experience/Depth
of Larger Corporate Company

Brand New Equipment

Significant Cost Savings
for Embedded Option

Offers App for Communications

Local Commerce City Office

Cons

Schedule - Tue - Fri

Unknown Quantity (but great references)

Convenience - Woody Branch Debris
needs to be bundled near bin.

Service Award would represent a Community
change process and will require team effort
for transition with Republic and City staff

Value Added Services

Republic

Annual Curbside 5 Item Bulk Pickup Event

Bi Annual Curbside Leaf & Branch Pickup

5 Complimentary 30 yd Roll Offs per Year

Would offer programs and services
to assist in serving Multi Family Customers
(yet to be identified)

Western

Free Special Event Collection Services for
up to 9 week Street Faire season.

1 Free Residential Waste Composition Study

\$3,000 Credit towards Outreach Services

Louisville Holiday Recycling Center to
Holiday Lights and Gift Wrap

Would work with HOA's to offer Compost
Subscription \$10/month up to 96 gal. if all
members joined.

Re: Solid Waste Hauler RFI's and Interview Questions

Thank for participating in the 2019 Louisville Solid Waste Trash Request For Proposal.

In order to continue to maintain a transparent and fair process Interview Questions and RFI's are being provided to Proposers ahead of the Public City Council Packet for Review.

In regards to interviews, Western was able to answer all questions. Republic answered all questions except for Question #7 which the City did not ask due to running out of time. However, the topic was discussed indirectly in answers to other questions.

Staff has worked with each Proposer regarding some additional clarifications as follows:

Louisville Western RFI #1: Clarification for Exhibit B1 Alternative Proposal

Question:

Provide bid tabs that represents your Exhibit B1 – Alternative Proposal for 3.1.1 and 3.1.2. This will be assumed the same for the 5 yr and 10 yr contracts. If it is different then expand to represent any differences.

Response:

The alternative proposal on page 9 would apply in the situation where customers wish to purchase additional carts for trash, recycle or compost beyond a 96 gallon container. It proposes a flat rate for additional units of any size versus an incremental 32-gallon charge. This alternative plays out the same under both 3.1.1 and 3.1.2. It is the way we handle additional carts in our current contract and we are proposing to hold the price for this service at the current level of \$2.64.

In base bid proposals 3.1.1 and 3.1.2 (increment pricing for additional carts as requested in RFP):

	<u>32G</u>	<u>64G</u>	<u>96G</u>
Additional recycle cart:	\$1.70	\$3.40	\$5.10

Additional compost cart: \$3.82 \$7.64 \$11.46

So if a customer who is a rock-star diverter wanted an additional 96G container for both recycle and compost it would cost an additional \$16.56 (\$5.10 + \$11.46)

Under the alternative proposal, there would be a flat rate for additional containers (any size) of \$2.64/cart.

That same rock-star diverter would pay \$5.28 (\$2.64 x 2)

While it's true that those generating trash above the 96-gallon level would get a "deal" at \$2.64 for an additional trash cart of any size, the fact of the matter is there are only 42 out of more than 5,300 homes subscribing above 96-gallon now. In our assessment this approach is a win for diversion.

Louisville Republic RFI #1:

Question:

Clarification regarding how woody material debris is disposed of. The proposal indicates woody material cannot be placed in compost bins and must be bundled. It then describes that the woody material will be taken to the Erie or Foothills Landfill. It does not verify if woody material is processed and then transferred to A1 Organics or if it is landfilled. Please clarify if woody material is processed and transferred to A1 Organics or if it is landfilled.

Response:

Woody material debris collected at the bi-annual curbside events referenced on Page 13, RFP Sect. 3.2 will be chipped and transported for composting to the A-1 Organics Facility. This process of chipping meets the current Boulder County Quarantine process for removing woody material. Currently, there are limited facilities that will accept woody material in Boulder County. In fact, Western Disposal is the only company that can currently accommodate this material and we have heard this facility may be closing in the near future. From our experience in Lafayette, we have found that a significant majority of woody material collected comes from the two curbside events. We acknowledge that this leaves some material that is collected on a bi-weekly basis without a processing outlet to meet the quarantine requirements and therefore must be landfilled. We are amenable to working with the city and other partners to finding an alternative outlet for this material, but as mentioned, we have found the bi-weekly volume to be limited. We are interested in talking through with you how we work this program with your neighboring community of Lafayette.

Question:

Page 15, Collection Equipment. Paragraphs state that Louisville will be supported by RNG trucks which are above and beyond CNG truck expectations. Then further goes on to state that Republic will be buying new CNG trucks to serve Louisville. Please clarify which type of truck is being provided.

Response:

To clarify the distinction between RNG and CNG; RNG and CNG vehicles are identical. The only difference is the source of the methane used to fuel the natural gas engines. RNG specifically comes from renewable sources generated by the decomposition of organic waste from landfills and digesters. Currently, Republic's Colorado fleet is 70% CNG, 20% of which is specifically fueled from RNG sources. This gives us a total of 22 trucks in the Denver market that are fueled by RNG. As part of our proposal we are committing that the City of Louisville can take credit for using only RNG vehicles to service your residents. RNG is significantly cleaner, 85-100% cleaner, than CNG and provides significant environmental benefits as a result of its renewable nature. As a little background I have included the news article that was published by Waste 360 in 2017 which highlights our commitment to RNG. Republic's national size allows us to access markets for RNG/CNG not typically available to smaller firms. We were excited to again increase our participation in 2018 and continue planning to add more to our portfolio as it becomes available.

Question:

Topic of +/- 5% cart mix changes. Is there a way to arrive at a mathematical average cost of service around the selected bid schedule and negotiate any adjustments in the future to reflect the awarded average cost of service?

Response:

Because our proposed rates are below existing rates, for all sizes of containers, we do not believe customers will want to reevaluate their container sizes. As a result we do not believe that our proposal, by itself, will lead to a request to review of rates.

What we are attempting to address is the potential for actions outside our control that might impact customers desire for container size changes. We really view this request as more of an opportunity for us to come to the City if there is a change in law, municipal taxes or some other unforeseen occurrence that might cause a significant number of customers to consider downsizing cart sizes. For instance, we know that the City currently charges residents \$2.90 per container above the costs charged by the current service provider. If for some reason the City decided to increase its fees, it may cause citizens to consider downsizing their waste container to a significant degree. Clearly, this increase would be outside Republic's control and we are simply asking for the opportunity to come back to the City to discuss the impact and potential relief. We fully anticipate that this would require City approval and oversight. We do not, however, believe that rate changes would be significant even if the City agreed to an increase. For example, we have calculated that if 50% of all the customers within the City downsized their containers, a number which is highly unlikely, the potential impact could be around \$2 per household. If the City agreed to allow us to recover the \$2, residential rates would still be lower than what is currently charged. As mentioned we believe that this downsizing is unlikely given our proposal, we are simply asking for the ability to discuss it with the City.

Question:

Please clarify more specifically what would constitute a 5% cart mix change for each waste stream. I.e Trash, Recycle, Compost. Just trying to get everything ultra clear.

Response:

For purposes of the 5% change in container size that we reference in our proposal and addressed in answer #3 above; our request was limited to only changes to the mix of Trash (MSW) container sizes and was not referencing changes in service or containers for Recycling or Compost. We understand residents change cart sizes up and down for numerous reasons and acknowledged in our proposal that every resident will be allowed 3 free cart exchanges per year. The 5% is referencing a net downsizing change.

Louisville Republic RFI #2:

Question:

During the interviews yesterday the selection committee discussed concerns and options to address how Republic Services could ensure that the Compost Program could maintain Emerald Ash Borer Quarantine Compliance and ensure that no Woody Debris were landfilled which is different than stated in the original proposal and slightly addressed in the Louisville Republic RFI #1.

Please confirm in writing Republic's Commitment to ensuring no Woody Debris will be landfilled and that a process will be developed to maintain compliance while ensuring materials are taken to a Compost Facility and not landfilled.

If you would like to discuss any options/ideas of how that would be accomplished in this response for the record please do so.

Answer:

Hello Kurt,

Thank you for reaching out. To confirm in writing the discussion yesterday in the interview, Republic Services will ensure all woody material we collect as part of the compost(outside of the cart) / special event program will be composted and handled in accordance with existing Emerald Ash Borer quarantine boundaries. No woody material will be landfilled.

Republic Services has some options on the table to accommodate this service. We can take the woody material to our Foothills Landfill which does fall inside the quarantine area. Woody material would be staged onsite and chipped prior to transferring to A-1 Organics facility for composting. This material would be weighed at the A-1 Organics Facility so those tonnages would be added to the total Louisville diversion numbers.

A second option is for Republic Services and the City of Louisville to create some synergies together using the Branch Recycle Site located next to the Louisville Cemetery . The Republic collected woody material could be staged at this location and subsequently follow the same process as above. All material would be chipped prior to leaving the quarantine area as well as weights taken to add to the Louisville diversion numbers.

In addition to the regular bi-weekly compost collection, the two annual curbside leaf and branch events will also have the woody material staged as above after the events. The two annual events we run in Lafayette produced 42 tons of woody material that was taken for composting in 2018. That is over a 3% increase to the 1,336 tons of compost collected in Louisville reported in the RFP. That

tonnage will be added to the current level of compost existing in Louisville **today** which will have positive impacts to the current 19% compost diversion number and assist the city in achieving their 50%

Thank you Kurt. Please don't hesitate to reach out with any additional questions or clarifications. Thanks and have a great evening.

Mark Petrovich

Manager Municipal Services

Louisville Western/Republic RFI #1:

Question:

Consumer Price Index – The City has historically utilized the All Urban Consumers CPI for the National Average to calculate annual increases.

1. Republic has suggested: Water/Sewer/Trash Index (WST)
2. Western has suggested: All Urban Consumers Index for the Denver-Aurora-Lakewood Area.

The City still needs to review each index in detail. Does either Contractor have a strong preference for one of the 3 so that this is a neutral issue or is either Contractor fine with what the City decides regardless of preference?

Response:

Both Contractors have indicated they are willing to utilize the All Urban Consumers Index for the Denver-Aurora-Lakewood Area.

Interview Questions

1. If the team has not indicated so through initial introductions:

Please tell us why you feel you would be a good fit for the City of Louisville for this contract if pricing were considered neutral and not a selection factor?

2. Who are the key staff that will be assigned to this account and their experience level?
3. What is your approach to Customer Service? How do you ensure the quality of your customer service on an ongoing basis?
4. Please briefly touch on the type of equipment you will be utilizing and any advantages or disadvantages of this equipment.
5. How will your team contribute to the City's goals surrounding diversion and sustainability?
6. The City is considering moving from an Ala Carte Curbside Compost service to an embedded Curbside Compost service. In your experience, what are the pros and cons of this new approach?
7. Given your experience, is there a tipping point where curbside compost or recycling is not sustainable due the multiple ways it needs processed, handled, and shipped to reach open markets? Are there other considerations the City could make to boost solid waste sustainability when negotiating this next 5 year contract?
8. Please discuss your approach to complying with the Emerald Ash Borer Quarantine and maintaining our curbside composting program?
9. Are there any aspects of your business strategies that may change over the next 5 yrs that you have not represented in the proposal? New equipment, new technologies, new facilities, elimination of facilities?
10. Please highlight your additional or value added services you've offered to the City in the Proposal.
11. Are there topics the City has not considered and should be aware of when selecting the best Proposer to award this contract too?
12. The City has several large HOA's that are not part of the City's hauling contract. What opportunities are available if you were awarded this contract to help the City work with HOA's that may have a desire to Compost at a reasonable price that aligns with City goals/pricing and could be an ala carte compost service for an HOA?

December 19, 2018

Mr. Kurt Kowar
Director of Public Works
City of Louisville
749 Main Street
Louisville, CO 80027

Dear Kurt,

Thank you for the opportunity to submit this proposal to continue to be the City of Louisville's chosen provider for residential trash, recycle and compost collection services. We have enjoyed our great working relationship over the past nine years and we hope we can continue to help the City with its sustainability and diversion goals.

In addition to price, we hope your proposal evaluation committee will consider the additional benefits that Western brings to the vendor relationship:

- Western Disposal is locally owned and operated and the majority of our employees live in Boulder County. The money that the City of Louisville pays to Western Disposal stays in the local economy.
- The City of Louisville has first-hand experience with the responsiveness and high quality of collection and customer service Western Disposal provides.
- Western Disposal offers a single day of collection for all residents.
- Western Disposal offers the most convenient collection system for food waste, plant waste and branches to meet the State of Colorado's Emerald Ash Borer (EAB) quarantine requirements because we own and operate the only State certified processing site in Boulder County.
- Western brought composting collection service to Louisville nine years ago in our first contract with the City when we were the only proposer to offer curbside compost collection as a value-added service.
- Western Disposal offers no disruption to residences that may occur through a change of service providers.

Thank you again and we look forward to meeting your evaluation committee in the interview process that is to follow.

Sincerely,

Bryce Isaacson
Vice President of Sales and Marketing
Western Disposal Services

3.1 Unit Based Pricing

EXHIBIT A

Price Sheet - 5 Year Contract Term (Annually Renewable)
Residential Collection Services

3.1.1 BASE BID:

Schedule: Trash service on **One Single Day of the Week** with recycling and compost collected in alternating weeks on the same day as trash pickup.

Unit Pricing Base Service:

Price shall include the first bi-weekly **recycling** and **composting** bin of any size up to 96 gallons.

32-Gallon weekly trash with biweekly recycle and compost service \$ 16.66 per month

Unit Pricing Additional Individual Carts only after Base Bid Service:

Additional 32-Gallon increment for weekly trash only bin \$ 9.02 per month

Additional 32-Gallon increment for bi-weekly recyclable only bin \$ 1.70 per month*

Additional 32-Gallon increment for bi-weekly compost only bin \$ 3.82 per month**

Trash or Compost Prepaid sticker per 32-gallon bag \$ 3.54 each

100% Increment per 32-gallon unit increase per service category for 64-Gallon and 96-Gallon bins.

100 % Increment Service Level Matrix	100% Increment Pricing for Trash & Recycle	Composting Bin of Any Size up to 96-gallons	Total Price with Embedded Composting
32-gallon weekly trash with bi-weekly recycling bin of any size up to 96-gallons	\$9.02/month	\$7.64/month	\$16.66/month
64-gallon weekly trash with bi-weekly recycling bin of any size up to 96-gallons	\$18.04/month	\$7.64/month	\$25.68/month
96-gallon weekly trash with bi-weekly recycling bin of any size up to 96-gallons	\$27.06/month	\$7.64/month	\$34.70/month

*Additional 32-gallon increment for bi-weekly recycle bin after subscribing to 96-gallons of embedded recycle service \$ 1.70 per month

**Additional 32-gallon increment for bi-weekly compost bin after subscribing to 96-gallons of embedded compost service \$ 3.82 per month

Additional 100% Increment price for 32-gallons of weekly trash (This trash bin increment price incorporates the embedded recycling cost in order to maintain the integrity of the 100% increment model and as specified in bid requirements) \$ 9.02 per month

3.1.2 ALTERNATE BID ITEM #1:

Schedule: Trash service on **One Single Day of the Week** with recycling and compost collected in alternating weeks on the same day as trash pickup.

Unit Pricing Base Service:

Price shall include the first bi-weekly **recycling** of any size up to 96 gallons.

32-Gallon weekly trash with biweekly recycle service \$ 9.02 per month
 32-Gallon bi-weekly compost service \$ 3.82 per month

Unit Pricing Additional Individual Carts only after Base Bid Service:

Additional 32-Gallon increment for weekly trash only bin \$ 9.02 per month
 Additional 32-Gallon increment for bi-weekly recyclable only bin \$ 1.70 per month*
 Additional 32-Gallon increment for bi-weekly compost only bin \$ 3.82 per month

Trash or Compost Prepaid sticker per 32-gallon bag \$ 3.54 each

100% Increment per 32-gallon unit increase per service category for 64-Gallon and 96-Gallon bins.

100 % Increment Service Level Matrix	100% Increment Pricing for Trash & Recycle	Add for each 32-gallon increment of Compost Service
32-gallon weekly trash with bi-weekly recycling bin of any size up to 96-gallons	\$9.02/month	\$3.82/month
64-gallon weekly trash with bi-weekly recycling bin of any size up to 96-gallons	\$18.04/month	\$3.82/month
96-gallon weekly trash with bi-weekly recycling bin of any size up to 96-gallons	\$27.06/month	\$3.82/month

*Additional 32-gallon increment for bi-weekly recycle bin after subscribing to 96-gallons of embedded recycle service \$ 1.70 per month

Additional 100% Increment price for 32-gallons of weekly trash (This trash bin increment price incorporates the embedded recycling cost in order to maintain the integrity of the 100% increment model and as specified in bid requirements) \$ 9.02 per month

EXHIBIT B1 ALTERNATIVE PROPOSAL

Alternative Proposal for Additional Individual Carts after Base Service (Flat Rate versus Increment Charges)

Under our current contract with Louisville and under the City of Lafayette's single hauler contract, residents may purchase additional carts for trash, recycle or compost after subscribing to 96-gallons of service for each specific material for a flat fee per cart. For example, in our contract with Louisville, if a resident has a 96-gallon recycle and/or a 96-gallon compost cart they may purchase another cart of any size for the material for a flat fee of \$2.64/month additional per cart. We feel this option will strengthen the incentive for diversion rather than charging a 32-gallon increment charge for each material type above the embedded 96-gallon level or a 96-gallon subscription level as requested in this proposal.

For example:

1. Resident wants to add additional recycle volume above the embedded 96-gallon bin size with any of the pricing models, i.e., another 96-gallon bin:
Under our pricing of \$1.70 per 32-gallon increment above the base bid, an additional 96-gallon recycle bin would cost the resident \$5.10 per month versus a \$2.64 flat fee under our optional proposal.
2. Resident wants to add additional compost volume above the embedded 96-gallon bin in 3.1.1 Base Bid, 3/1/2 Alternate Bid Item #1, 5- and 10-year pricing, i.e., another 96-gallon bin:
Under our pricing of \$3.82 per 32-gallon increment above the Base Bid, an additional 96-gallon compost bin would cost the resident \$11.46 per month versus \$2.64 flat fee under our optional proposal.

As you can see with these two examples, there is a significant pricing difference: disincentive with a 32-gallon increment pricing model and much more incentive to recycle or compost more with the flat fee model.

Optional proposal for additional carts after a resident has subscribed to and/or purchased 96-gallons of service for a specific material: **Any size cart: \$2.64/month each**

This is the same charging model for additional carts as our current contract with the City of Louisville.

There are currently only 42 residents in the City of Louisville that subscribe to a trash service level above 96-gallons of service. While these 42 customers may receive a better price for trash service under our optional flat rate than the increment pricing model for additional carts, 5,306 homes have the option of lower costs to add additional cart capacity for recycling and composting than under the increment pricing model.

3.2 ADDITIONAL SERVICES

3.2.1 Western Disposal will provide one bulky item per household/per quarter at no charge. We have included a price list (Exhibit C) for bulky item collection beyond the free quarterly service. A bulky item is a single item such as a chair, sofa, box spring, mattress, loveseat, washer or dryer not a group or pile of items such as a sectional couch or pile of wood, bags of trash, boxes of waste or a group of items tied together. Collection of electronics, tires and CFC appliances is prohibited by State regulation and are therefore excluded from allowable bulky item collection.

3.2.2 Pricing for City Facilities trash, recyclables and compostables service has been provided on Exhibit D.

Western Disposal is the current trash, recycle and compostables collection provider for City facilities. Please note the services list provided by the City in Exhibit D do not exactly match the service levels currently being provided in each of the three material sections.

*There is a one-time delivery charge of \$89.84 for delivery of temporary roll-offs. A roll-off minimum (inactivity fee) of \$89.84 will be assessed if a roll-off container is not hauled within 30 days of delivery, last haul or last assessment date.

3.2.3 Price for collection of 96-gallon trash, recyclable and compostable material for special events has been provided on Exhibits A and B. Western Disposal will provide special event collection services at NO CHARGE for the annual 9-week Louisville Street Faire season. Please see details under section 3.2.6.

3.2.4 As per the RFP Addendum, Western Disposal will provide 500 cubic yards of compost to the City of Louisville at no charge and deliver the bulk material to a City site where City staff will oversee its distribution.

3.2.5 Front door pick-up at no additional charge will be provided for physician-documented physically impaired residents.

3.2.6 Added Value services that will contribute towards the sustainability and diversion goals of the City.

The City of Louisville boasts a solid residential diversion rate – at 47% it is nearly 13% higher than the national average. Nonetheless, the EPA estimates that up to 75% of the American waste stream is recyclable and, as the City is aware, there are opportunities to improve on the current diversion rate.

Residents, business, and City staff can all play a role in reducing material going to the landfill, and information, education and engagement are key to forward progress. Western Disposal has worked County-wide as a valued stakeholder in diversion messaging, communications, education and the collection and reporting of quality data. We are an active member of the RCAB board that meets monthly to discuss how cities, businesses and residents can divert more materials from the landfill and be more sustainable. The City of Louisville is also a member of this Board.

Based on our experience, we propose to provide the following tools and initiatives at no additional cost, which tie into the City's Sustainability Action Plan, to support the City's waste reduction and diversion goals:

Residential:

- **Waste Composition Study:** Western Disposal will conduct one trash composition study over the term of the contract (or 2 studies if a 10-year term is chosen) to identify diversion and education opportunities among the residential population:
 - Western will compile a sample from material collected from two routes designated by the City, thereby incorporating neighborhood diversity into the sample.
 - Trash would be brought back to Western's transfer station where the sample would be drawn, sorted and weighed.
 - The data will reveal a snapshot-in-time diversion rate, as well as specific materials diversion opportunities.
 - Western will present the results in a report to the City Council, the Public Works Director and the Sustainability Advisory Board.
- Western proposes to continue to offer the City of Louisville the \$3,000 added value credit towards diversion initiatives/education services that Western Disposal provides or as a credit against City services.
- **Content creation:** Louisville has a highly educated population who care about the environmental impacts of their waste. By and large, they want to do the right thing. Western Disposal will provide a quarterly blog post, which can be linked or sent as an email blast, on topics of interest in the field such as recycling and composting tips, waste reduction, food waste, upcycling and reuse.
- **Communication:** Louisville residents have the option to opt-in to Western Disposal's informative quarterly electronic newsletter and eminders.
- **Annual flyer:** Program content and rates are important and will be communicated annually through the printed flyer as in years' past. But we believe the annual flyer can be more informative and topical. Western Disposal will meet with the Sustainability Advisory Board annually prior to flyer publication to help improve content or messaging that will be most relevant to achieving that Board's goals.

3.2.6 Added Value services that will contribute towards the sustainability and diversion goals of the City (continued)

- Holiday Recycling Center: Between December 26 and January 15 of each year, Western Disposal will coordinate with Louisville Public Works to locate a Holiday Recycling Center where residents can recycle holiday lights and gift wrap (providing the Boulder County Recycling Center is accepting gift wrap at that time). This material will be collected and hauled at no charge.
- Compost Services: Western will offer subscription compost, at \$10.00/month for any size bin up to 96-gallon or \$5.00 per 32-gallon unite depending on which Base Bid model the City may choose, to Home Owners Associations within the City limits and outside of the City program that are Western Customers. (Must be billed through the City of Louisville program services). This would bring compost services to 577 of the approximately 800 homes outside of the City program. All homes in the respective HOA would be required to subscribe in order for the service to be offered.

Commercial:

- Data: Provide an electronic annual report of Western's commercial collection data (commercial accounts and MFUs with common area collection) including customers, yards, tons and diversion. Permit information sharing with PACE to target and improve Louisville's Green Business Recognition Program.

City Services:

- Street Faire: Annual provision of zero waste event services (containers for trash, recycle and compostables) for the 9-week period of the Louisville Street Faire season at no charge.
- Material Audits: Conduct an annual 30-day fullness audit of trash containers to assure right sizing of services and identify diversion opportunities and a one-day visual audit of all recycle and compost containers to identify potential contamination issues.
 - Western Disposal would provide targeted information and education to specific locations based on findings.
- Waste Composition Study: Conduct one trash composition study over the term of the contract (2 studies if a 10-year term is chosen) to identify diversion and education opportunities:
 - Western would deploy a dedicated collection truck on a designated day to collect trash from all City facility locations on Exhibit D. Trash would be brought back to Western's transfer station where a sample would be drawn, sorted and weighed.
 - The data would reveal a snapshot-in-time diversion rate specific to the City, as well as materials diversion opportunities.
 - Western would present the results in a report to the City Council as well as to the Sustainability Advisory Board and City staff as appropriate.

3.3 RECYCLABLE AND COMPOSTABLE MATERIALS

Recyclable Materials: Western Disposal collects all single-stream recyclables that are accepted and approved by the Boulder County Recycling Center (BCRC), every other week, on the same day of the week as trash (Thursdays).

Recycle guidelines are mailed to all new Louisville customers when they start service, are available to be downloaded from our website, are included on a decal underneath the lid of each resident's single-stream collection cart and will also be mailed upon request.

Compostable Materials: Western Disposal offers the most convenient delivery of residential curbside compostables collection in Boulder County. Western Disposal owns and operates Boulder County's only State certified processing facility for compliance with the Emerald Ash Borer (EAB) quarantine standards. See attached WD Exhibit 1.

With our collection program branches, food waste and other plant materials can all be mixed and collected together because they are ground to EAB standards as required before they are transported out of Boulder County to A-1 Organics in Keensburg for composting.

Because of this unique, turn-key process, there is no need for residents to separate woody waste from other organic material and no need for separate collection of branches. Our system promotes higher diversion through the convenience of combining materials and bi-weekly collection of all compostable materials.

Compost is collected every other week, on the same day as trash.

Compost guidelines are mailed to all new Louisville customers when they start service, are available to be downloaded from our website, are included on a decal underneath the lid of each resident's compostables collection cart and will also be mailed upon request.

If recycle and/or compost guidelines change, new recycle and compost guidelines will be sent to the City of Louisville for posting on their website. If provided an email list, Western Disposal can send as an email blast. These guidelines will also be mailed to residents upon request.

COMPOSTING

303-444-2037 www.WesternDisposal.com

The Way to a Better Environment

All compostables must fit in the cart

YES. YES. YES.

YES. YES. YES.

Wash carts periodically or use compostable bags to prevent odor and keep animals away.

FOOD SCRAPS

- Fruit and vegetable scraps
- Meat and bones
- Coffee grounds and filters, teabags
- Dairy products and eggs
- Spoiled food

Place food scraps in compostable bags (made from plant starches) to help keep your cart clean. Compostable bags are available at Western Disposal and other local retailers.

PAPER

- Wet shredded paper (to prevent insects from blowing)
- Food-soiled or greasy paper or cardboard
- Wet or waxed cardboard
- Paper napkins and paper towels
- Uncoated paper cups and plates
- Compostable bags made from plant starches
- Compostable containers, dishware and utensils made from plant starches (NO Styrofoam® or plastic)

PLANT MATERIAL

- Grass clippings, leaves, weeds, flowers
- Woody waste up to 6" in diameter

Please note: Place yard waste directly in cart. All woody waste must fit in the cart.

YES. YES. YES.

NO. NO. NO.

- No trash
- No dirt, sod, rock, brick or pavers
- No plastic of any kind
- No construction debris
- No plastic bags
- No painted or treated wood waste
- No plastic coated paper, packaging or boxes
- No lumber
- No liquids
- No frozen food containers
- No animal droppings or kitty litter
- No twist ties, nylon twine or plastic rope
- No diapers or feces

The Way to a Better Environment

Todo material para abono debe ser colocado dentro del carrito o contenedor

SI. SI. SI.

SI. SI. SI.

Favor de lavar el carrito de forma periódica o use bolsas compostable para prevenir olor y mantener animales ausentes.

RESTOS DE ALIMENTOS

- Restos de frutas y verduras
- Carne y huesos
- Café, filtros y bolsitas de té
- Productos lácteos y huevos
- Comida podrida

Favor de colocar los restos y desperdicios de alimentos dentro de las bolsas compostable (hechas de almidones de planta) para mantener su carrito limpio. Las bolsas compostable están disponibles en Western Disposal y otros comercios locales.

PAPEL

- Papel triturado mojado (para evitar que el material sopel)
- Papel o cartón manchado de grasa o comida
- Cartón mojado o encetado
- Servilletas y toallas de papel
- Vasos y platos de papel
- Bolsas desechables (hechas de almidones de planta)
- Envases, platos y utensilios desechables (hechos de almidones de planta). NO Styrofoam® o plástico

PLANTAS Y MATERIAL ORGANICO

- Césped, hojas, malahierba y flores
- Restos de madera (hasta un maximo de 6 pulgadas de diametro)

Todos los restos de madera deben caber dentro del carrito o contenedor

Favor de colocar el césped y demás material dentro del carrito o contenedor

SI. SI. SI.

NO. NO. NO.

- No basura
- No restos de construcción (cemento, mampostería, tablaroca, alfalto, etc.)
- No plástico de ningún tipo
- No restos de madera tratada o pintada
- No bolsas plásticas
- Ninguna madera
- No paquetes, papel o cajas con capa de protección plástica
- No líquidos
- No envases o papel de alimentos congelados
- No material fecal o arena absorbente para gatos (sepiolita)
- No cuerda de ningún tipo
- No pañales o excrementos
- No tierra, piedras, ladrillos o adoquines

3.4 COLLECTION CARTS

Collection carts will be provided in 32-, 64-, and 96-gallon sizes for each of the three collection materials. The cost of the carts is included in our service rates. Western Disposal will be responsible for all maintenance, repair, replacement and exchange of all carts that we supply.

Anytime there is a change of occupants in a home that we service under the terms of the contract with the City of Louisville, we will remove the carts previously used at that address and replace them with clean carts appropriate for the service the new resident has requested.

Requests for delivery, removal, cart repair, replacement, and exchange will be done on Thursdays, the day we perform collections and the day residents have their carts out for service.

Residents can make service level changes at any time during the month, and the appropriate cart exchanges will again be done on Thursdays each week, i.e., Louisville's collection day. Residents will be offered 3 free cart size changes or replacements per year for each account. Pricing for exchanges beyond the three free offered annually, please see Exhibits A and B.

Western Disposal will provide block face service to homes in alley areas not accessible by alley at a rate of \$21.15 per home.

3.5 HOURS AND DAYS OF OPERATION

Collection day

Western Disposal will perform all collection services in this response on one day per week as we do now. All collection services will remain on Thursdays.

Hours of Operation

Our collection trucks will not start collections before 7:00 a.m. and our route staffing and planning is targeted to have all routes completed by 5:00 p.m. each Thursday. Occasionally special circumstances such as weather or mechanical problems can cause routes to run later than 5 p.m.

Weather Related Collection Changes

In the event a storm occurs that is severe enough that our collection vehicles are unable to run, Western Disposal will make every attempt to provide collections on the following day, Friday, just like we would during a holiday week. We would notify the City of Louisville at the earliest possible time to enable both the City of Louisville and Western Disposal to post notices on our websites informing residents of the weather-related changes.

3.6 HOLIDAY SCHEDULES

Western Disposal observes the following six holidays: New Year's Day, Labor Day, Memorial Day, Thanksgiving Day, Independence Day and Christmas Day.

Weekday holidays push collection schedules by one day. If a holiday falls on a Monday, Tuesday, Wednesday or Thursday, the Louisville collection will occur on Friday. If a holiday occurs on a Friday, there will be no impact to the City of Louisville's collection day.

3.7 TRUCKS AND EQUIPMENT

Western Disposal utilizes 13 trucks to service the residents of the City of Louisville. All run on clean-burning natural gas and are less than 10 years old.

We are in the process of further transitioning our automated side-load residential fleet to Curratto front-loading trucks which provide additional benefits to the community including:

- Significantly fewer linear feet of hydraulic hose, reducing the occurrence of hydraulic leaks.
- Multiple containers are loaded into the hopper before lift and compaction, and containers are not shaken in order to be emptied, thus reducing overall noise during collection.
- Carts are lifted and emptied at the front of the truck which enhances visibility and safety.
- Because lift and compaction repetitions are reduced, there is less wear and tear on those mechanisms, reducing truck maintenance and downtime.
- Allows collection drivers to see materials as they empty carts to better monitor contamination issues in recycling and composting.

By Fall 2019, 6 of the 13 residential collection trucks serving Louisville will be Curratto models.

TRUCK #	TYPE	YEAR	MAKE	FUEL TYPE
818	Curratto Front Load	2018	Autocar	CNG
813	Automated Side Load	2011	Autocar	CNG
809	Automated Side Load	2011	Autocar	CNG

806	Curratto Front Load	2011	Autocar	CNG
808	Automated Side Load	2011	Autocar	CNG
821	Curratto Front Load	2018	Autocar	CNG
819	Curratto Front Load	2018	Autocar	CNG

3.7 TRUCKS AND EQUIPMENT (continued)

Maintenance

Safety and efficiency are priorities at Western Disposal. To that end we maintain a rigorous schedule of maintenance which includes:

- Daily pre- and post-trip inspections with maintenance as indicated
- Weekly maintenance of at least two hours per week, which exceeds federal standards
- Annual evaluation involving structural, engine, body, hydraulics and electronics, with service as indicated.

Customer Management Systems, Onboard Computers, GPS and Computerized Routing

On February 1, 2019 Western will be converting our customer management system to “EnCore”, one of the leaders in software solutions to the waste industry. EnCore has been working the last four months on customized upgrades to their system to allow Western to maintain the individualized services we have always delivered and bring new value with the options they had already designed into their software system.

With the conversion to the EnCore system, we will also have onboard computers and GPS in every collection vehicle. Our drivers will no longer use map book and paper manifests. Manifests, directions and work orders will be on a computer screen inside the cab for each driver. As each stop is completed and closed by the driver on his screen, the next stop will automatically load.

The new system will give us the following advantages:

- Less potential misses due to electronic manifests and maps, computer tracking, clearing and time stamping of collection stops and less reliance on driver memory.
- GPS tracking of our trucks for documentation of where trucks have been and where they are
- All trucks will be equipped with cameras that will provide documentation (pictures) of not-outs, overloaded carts, extras, etc.
- Streamlined communications with real-time reporting of equipment issues by our driver to our office. Equipment issues addressed faster and more proactively by Western.
- Real-time dispatching and route optimization to the nearest vehicle by customer location means greater safety and efficiency; fewer miles driven (less wear and tear on City streets) and decreased carbon emissions even with our natural gas-powered trucks.
- Better reporting of data through computer touch points rather than relying on our driver to scan bar codes from manifest books.

3.8 USE OF SUBCONTRACTORS

Western does not use any subcontractors in the delivery of our services.

3.9 PROMOTION AND EDUCATION

Western Disposal looks forward to the opportunity to work with the City in educating residents about diversion, waste reduction and proper recycle and compostables sorting. As we have done in the past, we will work with the City to develop and provide the 8.5" x 11" two-color, two-sided insert for communication of the service specifics and education before the start of a new contract term. The cost for the provision of this insert and subsequent inserts as required are included in the monthly service rates that Western has provided.

As noted in 3.3.6, we believe the annual flyer can be improved to be more informative and topical. We are excited to meet with City staff and/or the Sustainability Advisory Board annually prior to flyer publication to improve content or messaging that will be most relevant to achieving diversion goals.

Western Disposal can also direct mail these inserts, rather than the City including them in their resident invoicing. The cost per mailing, including insert design, production, postage and handling approximately 5,300 inserts would be \$5,000 in 2019. The price may change in subsequent years due to printing, postage and handling cost increases.

3.10 PUBLIC INFORMATION MEETINGS

Western Disposal is happy to participate with the City of Louisville staff and elected officials in all meetings necessary to introduce and inform residents of any service changes that may occur as a result of this RFP.

Western Disposal will have its Vice President of Sales and Marketing at all meetings to answer any questions residents may have about the transition, changes in service and pricing, the cart collection system, recyclable materials to be collected and any other topics that may be of importance to them.

With the help of City staff, Western Disposal will also develop informational materials that can be handed out at these meetings to further aid in the education and implementation of the new service.

We have extensive experience in developing communication pieces and in determining content for open forums to educate customers about new programs and systems for trash and recyclables collection.

3.11 CUSTOMER SERVICE

Western Disposal has been providing all customer service functions listed in the RFP to City of Louisville residents for almost a decade.

Response Protocol

Our Customer Service Representatives receive extensive training in customer service principles, Western service standards and the services we offer through our Louisville contract.

- Service change requests are processed the same day if a call is received by 3: p.m. or the next day if received after 3:00 p.m. Cart exchange work orders are entered at the same time for switch out on the next Thursday service day.
- Misses/complaints are entered into our customer management system (CMS) when received and we work to resolve the issue within 24 hours.
- Missed pickups are resolved the same day if we receive a call before 3:00 p.m. on the pickup day or the next business day if received after 3:00 p.m.
- A live local customer service representative is available Monday-Friday, 8:00 a.m. to 5:00 p.m., and customers have the option to leave a message or send us an email after normal business hours. All voice mail and emails are returned within 24 hours.

Western Disposal uses an Avaya phone system and real-time contact center management solution system (Xima Chronical™) for recording, monitoring and reporting all received calls.

Eighty-percent of our customer service calls are answered in 30 seconds.

We use Xima Chronical™ to randomly monitor all of our customer service representatives calls on a daily basis. The system gives us real time visual display of the number of calls in process, calls waiting and the status of each representative. All calls are recorded for training purposes.

We use Chronical™ to run reports daily, weekly and monthly which provides us with:

- Where the call originated
- Which representative took the call
- Number of calls per hour and per day each representative handled
- Speed of answer
- Average time on hold
- Number, if any, of dropped calls and the time on hold until call was terminated
- Average talk time

Call monitoring and the regularly run reports help to properly staff for the busiest time of day and make sure we have the optimum phone coverage and ensure a high level of customer service.

3.11 CUSTOMER SERVICE (continued)

Customer Service Standards

At Western Disposal, it's all about the customer. We have a customer service staff of six, but every employee in every department is involved in customer service. We believe that the best way to provide good customer service is to design our systems and services so that we have as few problems as possible to resolve. At Western our services and systems are built on the following underlying principles of service:

1. **Do it right the first time** - keep systems in place to make sure that everyone knows what they are supposed to do each day, delivering the quality of service the customer expects.
2. **Offer flexibility to our customers** - flexible services to meet a variety of resident needs; flexible equipment that can work in a variety of areas and take most waste that is set out for collection; and flexible systems that can accept changes based on customer needs, not our needs or limitations.
3. **Be consistent ourselves** - delivering the same high-quality services in the same manner week-in and week-out is one of the things that we know customers value.
4. **Communicate, communicate, communicate** - keep customers informed and offer them a variety of ways to get the information they need.
5. **Be responsive** - listen to customers and respond to their needs. Ask for feedback and continually improve in meeting customers' expectations and needs.

Following are the service standards that you can expect from Western Disposal:

- Recyclables outside of the recycle carts will be taken at no charge; however, we will strongly encourage homeowners to request more recycle carts if there is a pattern of recyclables being left outside of carts.
- With our change to EnCore on February 1, 2019, all records of extra charges or "not-outs" will be available in our system real-time within minutes of collection completion.
- If an oil leak occurs from one of our collection trucks, we will clean up the oil spill and, if necessary, have the spill area power washed.

Our Employees Make the Difference

Western has 150 employees who have learned that "good enough" is never that. Western employees have exceptional longevity with the Company as evidenced by average employee tenure of 10.25 years. Employees stay with us because they know they can be proud of the Company and the services we deliver.

From collection at the residence, to talking with our employees, to billing, our goal is to avoid problems before they happen which reinforces the positive image of City government in the community.

At the time of Collection - Our route drivers work independently. While we have supervisory personnel who observe them on route and correct issues when they see them, the drivers are working on their own most of the time. In order to create an incentive for our drivers to provide the highest level of customer service, we have a three-tiered pay system that rewards them for doing an outstanding job. Our drivers can earn incentives for providing excellent customer service and performing their job safely. We want to emphasize that the incentive pay is not intended to increase productivity but to reward employees for working safely and providing customer service that is a notch above the expected.

3.11 CUSTOMER SERVICE (continued)

Thorough Communication - Western communicates with our customers any time a change will occur concerning their service. Using letters, cart hangers, stickers, and other tools, we are able to reduce questions before they arise.

By Offering Options for Information Access - Residents can get their questions answered by phone, they can email us, or they can access information from our website.

When issues do occur and customers call, we are:

- **Timely** - Our systems are designed so that if a customer notifies us of a request or service problem before 3:00 p.m. on the service day we will resolve the issue that same day.
- **Responsive** - When a customer perceives there is a problem, we do not debate with them about whether there is a problem or not. If a customer thinks there is a problem, there is a problem. We take whatever action is necessary to correct the issue and then we determine what needs to be done for the future. The action required may be better education of our employees or it may be better education of the resident about how to use the systems. The first order of business, however, is to correct the immediate issue.
- **Focused** - Western has a group of six customer service representatives that are dedicated to only responding to calls from customers. They perform all of the actions necessary to start, change or cancel service for a customer. At Western we have a separate Dispatch Department responsible for dispatching trucks and handling issues requiring communication with the drivers. We find that having Customer Service employees entirely separate from Dispatch functions and only focused on the needs of customers allows us to give superior customer service.

Custom Web Page

Western Disposal will host a customer landing page for residents of Louisville which will list service options and rates, post timely communications about service delays or changes, contain information about recycling and composting, and link to calendars, guidelines and our blog.

Western is honored to provide the community of Louisville with trash, recycle and composting collection. We will continue to strive to exceed your expectations with excellent collection and customer service, every day. Your collection day is on Thursday with trash collected weekly and recycling/compost collection on alternating weeks.

RATES:

Trash Cart Size	Compost Cart Size	Cost for Recycling (any cart size)	Total Charge for Trash/Compost/Hazardous Materials/Admin Fee
32-Gallon	32-Gallon	INCLUDED	\$17.77
32-Gallon	64-Gallon	INCLUDED	\$21.59
32-Gallon	96-Gallon	INCLUDED	\$25.41
64-Gallon	32-Gallon	INCLUDED	\$26.61
64-Gallon	64-Gallon	INCLUDED	\$30.43
64-Gallon	96-Gallon	INCLUDED	\$34.25
96-Gallon	32-Gallon	INCLUDED	\$35.45
96-Gallon	64-Gallon	INCLUDED	\$39.27
96-Gallon	96-Gallon	INCLUDED	\$43.09

CART EXCHANGES AND SERVICE CHANGES

You can change your cart sizes and service levels on any scheduled pick up day (Thursday) for no additional cost. Requests for cart or service changes must be received at least 24 hours prior to your collection day.

ONE FREE LARGE ITEM PER QUARTER

Each residence is eligible for one free quarterly pickup of a single large item on your regular collection day. These items include, for example, furniture, appliances*, small equipment and lawnmowers (fluids removed), barbecue grills (no propane tanks), mattresses, bicycles, etc. Items must be one single item, not a pile of material or items (e.g., branches, construction debris, carpet, etc.) to qualify for this service.

*Freon-containing appliances are not eligible as a free item but can be collected separately for a fee.

State of Colorado regulations prohibit the collection of Freon-containing appliances and electronic waste with your regular trash. Please call our customer service department at (303) 444-2037 for rates and to schedule a pick up.

OCCASIONAL EXTRA TRASH OR COMPOST

Prepaid bag stickers are available from City Hall or the Rec Center for \$3.54 for occasional extra trash or compost

SEE WHAT OUR CUSTOMERS HAVE TO SAY!

★★★★★

38VanBuren

I have been a residential customer for 28 years and Western has never failed in their service. Every employee, from the drivers to the people at the transfer station and the office staff has been friendly, professional and efficient. Western gets all the stars!

Custom Email Blasts

Western Disposal utilizes the Constant Contact platform for email communications. With an email list provided by the City of Louisville, Western can communicate via email to residents about holiday collection schedules, inclement weather changes, or other service disruptions.

3.12 PROPOSED TERM OF CONTRACT

Western Disposal has submitted proposals for both five-and ten-year one day contract options.

As per RFP instructions, contract exceptions are listed on WD EXHIBIT E – EXCLUSIONS on Page 41 of this proposal.

4. QUALIFICATIONS OF PROPOSER

4.1: EVIDENCE OF NOT LESS THAN FIVE YEARS' EXPERIENCE

Western Disposal has been providing trash, recycle and compost collection services to Boulder and Broomfield counties since 1970. Since beginning business with just one truck, Western Disposal has grown to a company with more than 40,000 residential customers and 6,000 commercial customers.

Our qualifications have been demonstrated by our provision of the services requested in the RFP for the past nine and a half years. Other communities where we are (or have) provided these services include:

- Western Disposal was the first private hauler in the State of Colorado to offer cart-based collection.
- From 1989 through October 2001, Western Disposal provided curbside recyclables collection service for all residents of the City of Boulder and Boulder County upon the passing of their respective "pay-as-you-throw" regulations. Cart-based compost collection service was added in January 2009 after the BCRC converted to single stream processing.
- Western Disposal has been providing the three-material, three-cart collection system to Boulder County residents since November of 2008 when Boulder County passed their "pay-as-you-throw" regulation which included compostables collection.
- From 2007 – 2014, Western provided trash service with embedded recycling to more than 5,000 residents in the City of Lafayette under a single-hauler contract.
- Please see our references list for additional relevant experience

4.2: ANNUAL REVENUE IN EXCESS OF \$1,000,000

Copies of Western Disposal, Inc.'s audited balance sheet and statement of income for 2016 and 2017 is included in this proposal for your review. As a privately held company, Western Disposal does not disclose its financial results to the public. We ask that the financial information provided be treated as CONFIDENTIAL and not be distributed as public record.

Also, please be aware when reviewing our financial statements that Western Disposal is a "Sub-Chapter S" corporation for income tax purposes. For financial reporting purposes, therefore, income tax expenses and related liabilities are not reflected on our statements.

4.3: DEFAULTS/JUDGEMENTS

Western Disposal has never defaulted on a contract and has no unresolved judgments.

4.4: EVIDENCE OF GOOD STANDING

OFFICE OF THE SECRETARY OF STATE
OF THE STATE OF COLORADO

CERTIFICATE OF FACT OF GOOD STANDING

I, Wayne W. Williams, as the Secretary of State of the State of Colorado, hereby certify that, according to the records of this office.

WESTERN DISPOSAL, INC.

is a
Corporation

formed or registered on 06/18/1979 under the law of Colorado, has complied with all applicable requirements of this office, and is in good standing with this office. This entity has been assigned entity identification number 19871375708 .

This certificate reflects facts established or disclosed by documents delivered to this office on paper through 12/07/2018 that have been posted, and by documents delivered to this office electronically through 12/10/2018 @ 14:42:54 .

I have affixed hereto the Great Seal of the State of Colorado and duly generated, executed, and issued this official certificate at Denver, Colorado on 12/10/2018 @ 14:42:54 in accordance with applicable law. This certificate is assigned Confirmation Number 11269345

Secretary of State of the State of Colorado

*****End of Certificate*****

Notice: A certificate issued electronically from the Colorado Secretary of State's Web site is fully and immediately valid and effective. However, as an option, the issuance and validity of a certificate obtained electronically may be established by visiting the Validate a Certificate page of the Secretary of State's Web site, <http://www.sos.state.co.us/biz/CertificateSearchCriteria.do> entering the certificate's confirmation number displayed on the certificate, and following the instructions displayed. Confirming the issuance of a certificate is merely optional and is not necessary to the valid and effective issuance of a certificate. For more information, visit our Web site, <http://www.sos.state.co.us/> click "Businesses, trademarks, trade names" and select "Frequently Asked Questions."

4.5: FINANCIAL STATEMENTS

Copies of Western Disposal's Condensed Statements of Income and Balance Sheets for 2016 and 2017 have been provided in a separate envelope. This information is proprietary and confidential.

4.6: PRINCIPLE OFFICER AND RESPONSIBLE PARTY RESUMES

Names of principal officers and responsible parties:

Danny Souders	Owner
Bryce Isaacson	Vice President of Sales and Marketing
Mike Seader	Vice President of Operations and Maintenance

Bryce Isaacson, Vice President of Sales and Marketing, will have overall responsibility for the City of Louisville contract. His is also the person who is responsible for customer communications and customer service. The person responsible for maintenance, operations and collection services is Mike Seader.

Resumes for Mr. Isaacson and Mr. Seader follow:

Bryce Isaacson

Vice President of Sales and Marketing

A sales and marketing professional with 40 years of experience, Bryce Isaacson will be responsible for ensuring that Western's high customer service standards are met by his department's staff and all Western employees. As Vice President of Sales and Marketing, Bryce directs our residential and commercial customer service personnel and leads the company in developing and implementing our customer-related policies.

Bryce has worked for Western Disposal for 30 years. In that time, he has become an expert in sales and marketing in the waste industry and has thorough knowledge of the needs and issues of Boulder County residents, businesses and local governments. Bryce works directly with Western's largest accounts in developing comprehensive waste management solutions to meet their needs. These customers include IBM, Oracle, Boulder Valley and St. Vrain School Districts and the city and county governments of Boulder, Broomfield, Louisville, Lafayette and the Town of Superior.

Prior to joining Western, Bryce developed his sales management abilities through promotions to positions of increasing responsibility within the oil industry and working on his own as a sales management consultant. With a degree in engineering and later an MBA, Bryce's career advanced to the level of Vice President of Sales and Marketing.

Experience and Work History

Western Disposal Services, Inc.		1989 – present
	Vice President of Sales and Marketing	2000 – present
	Sales Manager	1989 – 2000
Self-employed	Sales and Marketing Consultant	1986 – 1989
Farwest Tubular Products and TRW Brandt	Regional Sales Manager	1980 – 1986
PA Incorporated	Regional Sales Manager	1978 – 1980

Education

University of Phoenix, Masters of Business Administration	1994
Montana State University, Bachelor of Science in Engineering, Major: Construction Engineering	1977

Professional Affiliations and Civic Activities

Policy Committee, Colorado Association for Recycling
 Chairman, Independent Hauler's Network
 Board Member, Boulder County Resource Conservation Advisory Board (RCAB)
 Former Co-Chair, Colorado Composting Council
 Former Board Vice President, Colorado Association for Recycling

Mike Seader
Vice President of Operations and Maintenance

Mike Seader is accountable for all route and maintenance operations involved in performing the day-to-day business at Western Disposal. In his capacity as Vice President of Operations and Maintenance, Mike directly or indirectly supervises all drivers and mechanics and other staff critical to collecting and processing trash and recyclables.

Mike has worked for Western Disposal for 40 years. His exposure to Western and the trash industry started early, when at age ten, his father joined Western to head the Maintenance Department. Through his school years, Mike worked part-time doing various jobs at Western. In the mid-1990s, Mike started a recycling center and was on the cutting edge of the recycling business at that time and was very successful in promoting and processing the collection of cans, plastics, cardboard and paper. At some point in his career, Mike has performed every route job he now oversees.

Mike left Western on two occasions to work for another company and to own and manage his own trucking business. With valuable experience gained through these experiences, Mike returned to Western in 1992 to act as General Manager of Western’s Colorado Springs Operation. There, he developed a viable hauling operation and Western’s first Recyclables Processing Facility (RPC). When Western decided to cease operating in Colorado Springs and focus on its business in Boulder County only, Mike transferred to our Boulder facility as Operations Manager. The breadth and depth of his experience in operations management, recyclables processing, transfer station and RPC management, and safety management all contributed to his taking on increasing responsibilities leading to his promotion to Vice President in 2000.

Experience and Work History

Western Disposal Services, Inc.	1992 - present

Mountain States Employers Council Management Certificate	

4.7: CORPORATE PROFILE – WHY CHOOSE WESTERN?

Western Disposal is Boulder County's only locally-owned, full-service trash, recycling and composting company. Western is 48 years old and began with one trash collection route, two employees and 1,200 customers. Dan Souders, who grew up in Boulder and still lives in Boulder County, started this business in 1970.

We attribute our longevity to our commitment to providing customers with exceptional service, borne of responsiveness and attention to detail, every day. Our average Western associate has been with us for over ten years. Personally invested in both the company and the community, they embody our “no excuses” mantra, and apply their training and talent to elevating the customer experience.

As a longtime member of the local community, we embrace the values of reducing environmental impact and adopting business practices that help our customers pave “The Way to A Better Environment”. In addition to being an active partner in helping the communities in Boulder and Broomfield Counties to become more sustainable, we minimize our own impact on the environment by powering our facilities with 100% renewable electricity and converting our collection fleet to clean-burning natural gas vehicles. To date, we have replaced forty-seven of our older diesel collection vehicles representing 78% of our fleet. For our community, this equates to 705 fewer tons of CO² in the atmosphere annually.

Finally, we believe in giving back to the communities we serve. Our primary philanthropy, Crayons to Calculators, provides students in the Boulder Valley and St. Vrain Valley public schools with the supplies they need to succeed at school. We are proud of our partnership which serves families in need, and as of 2018 have donated and raised over \$1.3 million dollars for this important cause.

Western Disposal also supports Emergency Family Assistance Association (EFFA), Boulder Community Health Foundation and Imagine! Foundation.

Doing Business Locally Matters

- Western Disposal is located in the City of Boulder and is locally owned and operated with 150 employees. Our revenues circulate in the local economy via wages, taxes and local purchase of services and supplies.
- Because we are located nearby the City of Louisville and have many vehicles locally available each day, we are highly responsive to the needs and requests of the City and its residents.
- Organics collected by Western are ground to meet Emerald Ash Borer quarantine standards before they leave the County. Ground organics are sold as mulch, not alternative daily cover (ADC) in landfills.

The Way to a Better Environment

Businesses, governments and individuals are all taking responsibility for reducing their use of natural resources. Western Disposal is a service provider that helps others reduce their impact on the environment. Through recycling, the mining and consumption of virgin materials and the energy it takes to extract them is significantly reduced. Through composting, the creation of greenhouse gases can be mitigated, especially the production of methane, an extremely potent greenhouse gas. Western Disposal is proud of the contributions we help others make in reducing their environmental impact.

We are working to reduce our own environmental impact as well and have implemented the following sustainable business practices to reduce the footprint of our operations:

1. Western Disposal has had ongoing PACE Certification, a measure of commercial environmental stewardship, for eight years.
2. In 2013, Western Disposal installed the largest solar awning array in the state of Colorado. This 194kw truck port/solar array offsets approximately 30% of our annual electrical power needs.
3. 100% of our electric service needs are met by alternative energy sources; approximately 30% by our 194kw solar array and the remaining 70% from wind power.
4. Western Disposal replaced all the light fixtures in our facilities with high efficiency units and T-8 bulbs. In addition, we installed motion detectors to turn lights in unoccupied rooms off and light harvesters to reduce lighting when ambient light was sufficient for normal working conditions.
5. Western Disposal replaced all our HVAC units with new high efficiency units and controls which reduced our electric and gas consumption for heating and cooling.
6. Western Disposal uses high post-consumer content recycled papers for all our office, restroom and kitchen supplies and composts all of that waste.
7. Western Disposal is currently recycling and composting 80% of the waste from our office and operations buildings.
8. Western Disposal constructed a \$1.8 million-dollar natural gas fueling system for our collection vehicles.
9. Western Disposal is in the process of converting our entire fleet of trucks to clean burning natural gas. To date, we have replaced forty-seven of our older diesel collection vehicles representing 78% of our fleet. For our community, this equates to 705 fewer tons of CO² in the atmosphere annually.

10. Western Disposal is transitioning to Encore software solution, to optimize and efficiently map our collection routes. This software will improve our safety, reduce our vehicle miles driven, reduce our fuel usage, and reduce our carbon footprint.
11. Western Disposal offers zero waste services to special events in the City of Boulder and Boulder County.
12. Western Disposal offers our customers three free shredding days at our facility each year.

Western Disposal is deliberate and thoughtful about the changes that we make. We are not interested in green-washing ourselves but focus on implementing legitimate, strategic changes that reduce our short- and long-term environmental impact.

SAFETY PROCEDURES, PROGRAM AND SAFETY RECORD

Safety Program

Safety is the #1 priority at Western Disposal. Because our business is not without safety risks, Western takes safety very seriously:

Our trucks are large and require specialized skills to drive. Our drivers go through extensive training to prepare them to take the wheel of one of our trucks.

Our fleet of 60 plus trucks log over one million miles a year – almost all of this in Boulder County. As you have probably noticed, Boulder County traffic is growing more congested and complicated daily by construction projects, accidents and other hazards. Given this volume of driving, we are very proud of the fact that our accident frequency and severity are very low.

Much of the driving we do is “in reverse.” We try to keep backing to a minimum, but our trucks often need to back up to dumpsters or containers to collect the trash. Again, we are proud of our record in this area and do a lot to make sure we have minimal backing accidents. We always back into alleys or driveways or other tight spots so that when we leave, we can pull forward into traffic. We train extensively on backing maneuvers; and we are using backing sensors to reduce these accidents even further.

Although automated collection trucks have reduced the need for a considerable amount of heavy lifting, our employees still lift 50-75 pounds (and occasionally more) many times a day. As with vehicle accidents, we are proud that our employee injury levels are low. Other than the safety of the public, nothing is as important as the safety of our people.

We collect trash 362 days a year whether it is hot, cold, snowy, rainy, or windy. Our employees and vehicles must be prepared to operate safely in diverse weather conditions. Western prepares its employees using an extensive safety training program (26 mandatory sessions a year) that covers topics such as Winter Driving and Alley Safety. In our shop, we have an excellent computer-managed preventative maintenance program ensuring our vehicles are safe and well maintained.

Superior Safety Record

In more than 48 years in business, Western boasts a superior safety record. We have never had an employee complaint or an incident that resulted in an OSHA investigation.

Insurance Awards

We have been insured by *The Hartford Insurance Company* for over 36 years. They normally decline to cover waste management companies, but not Western. Over the years they have awarded Western with seven Pewter Stag Safety Awards in recognition of distinguished achievement in accident control.

In September of 2016, *The Hartford* awarded Western Disposal with the 2015 Distinguished Fleet Safety Award and the 2015 Safety Milestone Award.

SAFETY (continued)

The Distinguished Fleet Safety Award recognized exceptional driving performance & operational safety. In 2015 we drove 1,321,823 miles with an accident frequency rate of 1.51 per million miles.

The Safety Milestone Award was awarded to Western Disposal's residential automated collection team who drove 365 days with no accidents or injuries.

Safety Committees

The purpose of Western's Safety Committee is to ensure maximum safety on the job and to reduce the number of accidents and injuries through prevention measures. This is accomplished by:

- Reviewing the facts surrounding all injuries and accidents to determine if/how they could have been prevented
- Analyzing trends or recurring types of accidents or injuries
- Brainstorming and evaluating ways to prevent future injuries and accidents
- Recommending changes to equipment, procedures or training to reduce the number of accidents
- Assisting in implementation of recommended changes

In addition to the Company's Safety Committee, we have a Facilities Inspection Committee assigned to inspect our office, maintenance and transfer station facilities, ensuring that our employees and visiting customers are as safe as possible.

Safety Ride-Along Evaluation Program

Western Disposal maintains a mandatory ride-along safety evaluation program where drivers are evaluated for accidents and injuries while they perform their daily activities and routes.

Each driver has six written drive-along evaluations each year. Three are performed by our safety officer and three are performed by the driver's supervisor. If any habits or behaviors are determined to need improvement, our driver is given written direction as to how they can improve their safety performance and a follow up ride-along is scheduled for re-evaluation.

Safety Incentives and Safe Drivers' Award

Our drivers earn more money when they demonstrate safe behaviors. By offering safety incentives, we show our employees that we are serious about safety and that safety pays. In most cases, incentives are effective; but when necessary, Western will use disciplinary measures to reinforce the importance of safety. We have policies about when employees need to be re-trained to perform, or even be removed from, safety sensitive positions following safety incidents. We believe this helps maintain our strong safety culture.

At the start of every year, we recognize those employees who drove for Western for all of the prior year and didn't so much as scratch their truck, another vehicle or anyone's property. For 2017, we recognized 46 drivers. Remember, these people drive large trucks in tight spaces an average of one hundred miles a day. We are proud to boast about these exceptionally safe employees.

AFFIDAVIT

I, **Bryce Isaacson, on behalf of Western Disposal, agree:**

To participate only in positive communication regarding the value we provide to the City of Louisville regarding the provision of trash, recycling and compostables collection services and will not contribute to or partake in any negative or comparison campaign towards any other proposer.

5. GENERAL TERMS

5.1: Maintenance of Records and Reporting

Western Disposal has kept the required records and submitted the reporting required in this RFP for the duration of our single-hauler contracts with Louisville. Please see Western Disposal Exhibit 2 for a sample of the monthly reporting required.

Western Disposal is also currently registered and reporting other community data through Boulder County's ReTRAC system.

5.2 – 5.8 Acknowledgments

Western Disposal acknowledges and agrees to the General terms listed under this section.

6. SELF-RELIANCE

Western Disposal shall make no claims against the City as a result of estimates or projections used in the RFP, statements or interpretation of data by City staff or its agents.

7. INFORMATION REQUESTS AND REQUIREMENTS

Western Disposal has 5 Homeowner's Association customers within the city limits of Louisville, totaling 577 households. We do not have data on the gross weight of material collected because the trucks that service these customers service other accounts as well.

Account	# of Homes	32-gallon	64-gallon	96-gallon	Total
HOA #1	77

Recycle			5	2	7
Compost			1	6	6

WD EXHIBIT E – EXCLUSIONS**Contract Exceptions**

4a. Recyclable Services: The City will retain ownership of all recyclable materials and if the materials have a positive value from the sales of the materials, the City will receive all revenue from BCRC and if the materials have a negative value, the City will pay all tip fee charges to the BCRC.

15. Annual Price Change: Annually, and effective on the anniversary of the commencement date, prices will be adjusted by the percentage change in the All Urban Consumers (CPI-U) current series, for the area of Denver-Aurora-Lakewood, CO, (formerly listed as the Denver-Boulder-Greeley Area) all items and not seasonally adjusted. The contractor shall request in writing 90 days prior to the anniversary date the calculated change in the above CPI-U change and provide updated pricing exhibits. This change shall be based on the most recent 12-month period available.

The current All Urban Consumers CPI used for national average change, does not accurately reflect the actual increases in cost to provide services in the Denver-Boulder area. It also does not fairly compensate the hauler for the actual increases in its operating costs.

The economy in the Denver-Boulder area and in Colorado is more robust than in most other parts of the United States, and due to the Denver-Boulder area continuing to have one of the lowest unemployment rates in the nation, labor cost increases are higher here than the national average.

Lafayette uses the All Urban Consumers Index for the Denver-Aurora-Lakewood area for the annual cost adjustments in their single hauler contract and has for the past 11 years. Again, we feel this CPI index area is more appropriate for this contract.

A. Treatment/Mitigation:

This establishment will ensure that all regulated articles, prior to movement outside the Quarantined area, will be treated by one of the following methods in accordance with standard operating procedures at the establishment's expense under the treatment option(s) below: (Check all applicable)

- Mulch/Chip or Compost (to <1" in two dimensions)
- Safeguarding (transport)
- Facility outside of quarantine
- Remove the bark and an additional ½ inch of wood
- Fumigation
- ISPM-15 for Ash Lumber in Wood Packing Material (WPM)
- Heat treatment
- Kiln Sterilization
- All equipment will be clean and free of non-compliant ash material prior to leaving the quarantined area.
- Transporting to a permitted facility outside the quarantine area during non-flight
- Other _____

If regulated articles are moved in violation of this agreement, they will be subject to immediate treatment or disposition under the CDA supervision using appropriate safeguards at the establishment's expense.

B. Standard Operating Procedure:

Any article under agreement must be treated in accordance with the standard operating procedures specified in Attachment A to this Compliance Agreement: "Approved Treatment and Handling of Regulated Ash Material."

C. Shipment of Regulated Articles out of Colorado:

If this establishment transports regulated articles to another state, they are subject to additional USDA, APHIS, PPQ regulations. This establishment may ship regulated ash material from a federal quarantine area ONLY after applicable treatments/mitigations are completed at the establishment's expense. Regulated articles that have undergone an approved treatment or mitigating process may be shipped throughout the year. This establishment will ensure that each shipment of regulated material moved interstate is accompanied by a completed federally issued Certificate or federally issued Limited Permit. All federal forms are accountable and will be handled according to USDA requirements. Please contact local USDA APHIS PPQ office for additional information.

305 Interlocken Parkway, Broomfield, CO 80021 P 303.869.9000
Plant Industry Division: P 303.869.9050 F 303.466.2860 www.colorado.gov/ag/dpi

D. Records:

This establishment will maintain records of all shipments and sales of regulated articles. Shipment and treatment records must be maintained for at least 36 months by this establishment. This establishment shall fulfill all document requests from CDA within 48 hours.

E. Training

All employees involved in the handling of the regulated articles must be trained.

F. Equipment

All equipment used to handle wood debris leaving the quarantine area must be cleaned to meet the requirements of this compliance agreement.

SECTION III. INSPECTION AUTHORITY

CDA retains the right to conduct unannounced inspection of regulated articles, monitor inspection procedures and examine shipment and treatment records at any time.

SECTION IV. FAILURE TO COMPLY

If this establishment fails to comply with the provisions of this Compliance Agreement and/or the Emerald Ash Borer Quarantine, this Compliance Agreement may be canceled. Any such violations are subject to civil penalties of up to \$1,000 per violation.

Any person who knowingly violates the Plant Protection Act (PPA) (7 U.S.C. 7701 et seq.) and/or the Animal Health Protection Act (AHPA) (7 U.S.C. 8301 et. seq.) may be criminally prosecuted and found guilty of a misdemeanor which can result in penalties, a one-year prison term or both. Additionally, any person violating the PPA and/or the AHPA may be assessed civil penalties of up to \$250,000 per violation or twice the gross gain or gross loss for any violation that results in the person deriving pecuniary gain or causing pecuniary loss to another, whichever is greater.

SECTION V. NOTIFICATION OF CHANGE

This establishment must notify CDA within 3 days in the event that:

1. The designated signatory individual changes;
2. The applicant/company physically relocates;
3. The company name or ownership changes
4. Any other event occurs which may affect the treatment or mitigation of the regulated article.

305 Interlocken Parkway, Broomfield, CO 80021 P 303.869.9000
Plant Industry Division: P 303.869.9050 F 303.466.2860 www.colorado.gov/ag/dpi

SECTION VI. AGREEMENT VALIDATION

This Compliance Agreement shall remain in effect until terminated by this establishment or CDA and replaces any prior Compliance Agreements previous submitted by Western Disposal Services for the handling of regulated ash articles.

Compliance Agreements are non-transferable to another location or another person.

Effective Nov.12, 2013

I, MIKE SEADER, the owner or person with authority to legally bind or control the herein named establishment, have read, understand and agree to fully comply with all of the conditions and obligations stated herein.

Date: December 6, 2018

Mr. Kurt Kowar
Director of Public Works
City of Louisville
749 Main Street
Louisville, CO 80027

RE: Billing for Services for the Month of November 2018

Dear Mr. Kowar,

Enclosed please find the following documents relating to services provided by Western Disposal Services for the City of Louisville:

- Billing for services performed
- Report of the tonnage of refuse collected in Louisville (458.32 tons) and where they were delivered.
- Report of tonnage of recyclables collected in Louisville (139.88 tons) and where they were delivered.
- Report of tonnage of yard waste collected in Louisville (199.38 tons) and where they were delivered.
- Logs of the following:
 - A combined log of complaints and resolutions for trash and recycling services and of missed collections and responses.
 - Extra charge total billed directly to residents.
 - Listing of service level counts as of November 30, 2018
 - Listing of free large item pickup counts as November 30, 2018
 - Description of vehicle accidents and infractions occurring in the City of Louisville
 - List of Addresses with multiple diversion not outs

We have separately delivered in electronic format the following reports:

- Detail of charges by address.
- Detail of addresses where services were changed during the month.
- Detail of addresses where services were cancelled during the month.
 - We are providing on a daily basis a report of cancels, starts and resumed services.

We have have not delivered electronically a copy of our most current newsletter.

We have have not included informational flyers to be provided to residents in their utility bills. (Included on December 1, 2009 and every June 1st thereafter.)

Thank you for your business.

Very truly yours,

Bryce Isaacson,
Vice President of Marketing

Executive Summary

93% of municipalities extend their current contracts with Republic Services because of our partnerships and local expertise offering Simple Solutions, Reliability and Environmental Responsibility.

Our Promise to our Customers

We'll handle it from here™, our promise is backed by the details of this proposal submittal to you. In summary, we take pride in offering you a best-value partnership that consists of Simple Solutions, which are Reliable and Environmentally Responsible.

- **Simple Solutions** – We offer a wide range of tailored products to assist the community in the responsible recycling or disposal of unique waste streams that include electronics, universal waste, or household hazardous waste. Additionally, our investments in customer-facing web- and smartphone-based apps allow simple

Republic Services is your low-risk, best value partner

- 310 employees live in the Denver Area
- 30 years continuously serving Denver Area
- Reliable - 99.9% pickup rate
- Environmental Responsibility – over 3,000 CNG trucks nationwide
- Safer – 41% fewer incidents than industry average
- Simple Solutions – Customer App, My Resource™
- Sole recycling and solid waste services company in the world to be included on the first annual Barron's 100 Most Sustainable Companies list in 2018
- Only recycling and solid waste services company in the world to be included on both the Dow Jones Sustainability World and North America indices
- Named to the 2018 World's Most Ethical Companies List® by the Ethisphere® Institute for the second year in a row

Figure 1. **Key Company Statistics.** Republic Services is an industry leader in the U.S. non-hazardous solid waste industry

interaction between customers and Republic Services, offering service details, alerts, as well as delivery schedules and billing information.

- **Reliability** – Our operations and performance metrics prove that we are your most reliable partner. Our 99.9% pickup reliability rate means that you face fewer calls from the community regarding service, and when callers reach out to us for any needs, we strive for first call resolution through our fully integrated customer resource centers. Our drivers are the safest in the industry, which means your residents are better off with our team on your streets.
- **Environmental Responsibility** – We are globally recognized as a leader in sustainability. Our investments in recycling infrastructure, compressed natural gas-powered trucks, and landfill gas-to-energy plants are all examples of how we drive to be a good neighbor in every municipality we partner with.

It is through these initiatives and recognitions that we reiterate our commitment to Louisville. On behalf of the 35,000 employees at Republic Services, we appreciate the opportunity to earn your business through this submittal, and look forward to a long and continued partnership for years to come.

Low cost providers in the industry sacrifice one or more of these elements, translating to risk for your municipality. Republic Services is your best-value partner, through our proven and demonstrated balance of these factors, while serving over 2,700 municipal contracts today.

Global Recognition

We believe that excellence means being better than competitors at everything we do. We also appreciate that our customers want peace of mind knowing they are partnering with a reliable, safe and ethical company. We are very proud of our success in these areas and work diligently to maintain our positions on these prestigious lists.

Your Colorado Team

Your leadership team is knowledgeable of local collection and post-collection processing activities and is supported by the technical expertise and financial strength of our parent company Republic Services, Inc.

Our in-house training, personnel advancement, recruitment programs, and work force development are some of the most comprehensive in the industry, which enables us to attract and retain the most highly qualified, dedicated, and experienced professionals in the business today.

Local Leadership

For 30 years, Republic Services has partnered with municipalities, residents, and businesses in Denver Metro to provide solid waste, recycling, compost and bulky item collection services.

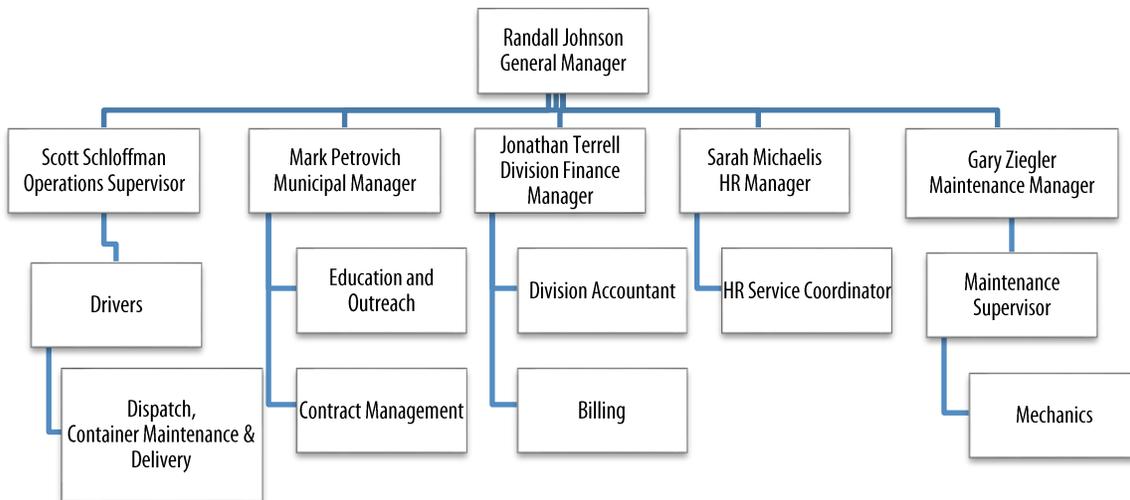

Republic Services is integrated in the community, employing approximately 310 people within the Denver Metro Area.

Our local and area management teams have extensive industry experience in operating and managing solid waste companies and have substantial experience in your region. This allows us to quickly respond and meet your needs; all the while staying in touch with your city staff, as well as local businesses and residents. Our strong area management team allows us to effectively and efficiently drive initiatives that help ensure consistency across the organization. These teams have extensive authority, responsibility and autonomy for operations within their geographic markets.

National Backing

Each of our local business operations is fully empowered and accountable for delivering on our commitments to our customers. They are also backed by the support and breadth of our area and corporate leadership teams, capable of massing expertise and corporate might to assist or respond to any challenge during the term of the contract. An example of this benefit to you is the response capabilities during times of crisis such as hurricanes, tornados, or other disasters.

Figure 3. **Personal and Powerful.** Your dedicated local support backed by Republic infrastructure

Resumes (RFP 4.6)

Gregg Brummer
Area President,
Republic Services
gbrummer@republicservices.com
(425) 646-2430

Gregg joined Republic Services in 2014 from a leadership position at BlueLinx Corporation.

He is known for his inspirational leadership style, built on trust and honesty. At Republic Services, he is in charge of business success in a six-state northwest region that includes hauling, transfer stations, recycling processing, composting, landfill and energy services.

Gregg graduated from Clemson University where he earned both his Bachelor's and Master's in Business Administration.

Randall Johnson
General Manager
Randall.johnson@republicservices.com
720-590-4361

Driving excellence in safety, service and operational execution are the core values that have highlighted Randy's career over the past three decades. He brings ten years of experience in the disposal industry and he spent 27 years in the transportation/logistics industry. Randy joined Republic Services in 2015 as a Division manager in Blaine Minnesota. In 2017 he was promoted to General Manager and relocated to Denver to manage the hauling operations. In addition to Randy's background in operations he has held positions as corporate training and development manager, quality coordinator, and human resources manager. Thus, he brings a strong operational background, a mindset striving for excellence.

Johnathan Terrell
Division Finance Mgr.
jterrell@republicservices.com
(720) 590-4330

Jonathan has 3 years' experience in the solid waste industry and is currently responsible for all accounting, statistical and administrative reporting functions for Republic Services. He ensures that financial controls and records are maintained in accordance with company policy and legal requirements. His responsibilities include providing and reviewing financial statements, variance analyses, billing and account reconciliation. In addition, Mr. Terrell is responsible for providing analytical support and assistance for the division goals, develops and coordinates the annual budget, negotiates contract rates for municipal bids as well as trains and manages the accounting department.

Mark Petrovich
Municipal Manager
mpetrovich@republicservices.com
(720) 841-3150

Mark has over 10 years' experience in the solid waste and recycle industry with Republic Services. He is responsible for growing and maintaining contracts with our municipal partners in the Denver Metro Area. A few of Republics municipal partners are Greenwood Village, Lafayette, Sheridan and Edgewater. Additional responsibilities include marketing, public education, project development, project management, governmental relations and negotiations. Mark is a graduate of Colorado State University and has called Colorado home for over 30 years.

Gary Ziegler
Fleet Maintenance Mgr.
gziegler@republicservices.com
(720) 590-8421

Gary Ziegler has been in the solid waste industry for over 41 years. He is

responsible for overseeing all aspects of our fleet maintenance program. Mr. Ziegler ensures that all repair and maintenance work is performed in a safe, efficient and timely manner; reallocating resources among sites as appropriate. He oversees coordination, planning and scheduling of all repair work to increase productivity, while effectively managing the department's overtime and budget.

Sarah Michaelis
HR Manager
smichaelis@republicservices.com
(720) 590-4413

Sarah Michaelis has 19 years of experience as a Human Resources Manager with 7 years at Republic Services. As the

Human Resources Manager, she is responsible for assessing, making recommendations, developing, implementing, and supporting human resources processes to assist in employee hiring, engagement, retention, and policy standardization.

Scott Schloffman
Residential Supervisor
sschloffman@republicservices.com
(720) 590-4242

Scott brings nine years of operational expertise with four of those years

at Republic Services. The residential line of business has 66 drivers, 20 of which report directly to Scott, along with the 2 residential dispatchers. He has been instrumental in delivering superior service to the City of Lafayette, along with other municipalities and high profile customer's. Scott has created a positive work environment through actions and employee engagement which have resulted in enhanced customer satisfaction. Other responsibilities include updating key driver performance metrics, variance reports, service commitments, safety Focus 6, OSHA Compliance reports and driver development and payroll. Scott holds a Class A CDL along with several other CDL Certifications

Facilities

Our facilities are engineered for safe, environmentally-friendly operations. In many of our facilities, we use sustainable materials that facilitate energy and water conservation, as well as design principles to enhance employee and guest safety and comfort.

Providing outstanding recycling and waste services to your community requires the existence of multiple types of facilities, which typically include:

- Hauling company
- Composting facility
- Recycling center
- Landfill
- Customer Resource Center

It is typical that our largest workforce presence exists at a hauling company, to support the complex operation that goes into serving your community with 99.9% pickup reliability rate.

In the Denver Metro Market, composting facility infrastructure allows municipalities to offer their residents recycling capabilities of organic and food waste materials. Organics make up a substantial portion of the waste stream that can be diverted from landfills.

*Figure 4. **Local Infrastructure** – Our local facilities are best located to serve your city with an eye toward sustainability.*

A landfill can be one of the most complex facilities in our portfolio due to the tremendous responsibility we hold to appropriately handle the nation's waste. All of our landfill facilities are subject to the Resource Conservation Recovery Act (RCRA) Subtitle D regulations.

The Front Range Recycling Centers are very complex facilities that are designed to receive, process, and package the various recyclable commodities that are collected in your community.

*Figure 5. **Facilities Serving Louisville** - Republic Services will serve your city with the following facilities.*

Facility Type	Address	Distance from Louisville	No. of Employees	Hours of Operation
Hauling Company	5075 E 74th Ave Commerce City, CO	18 miles	271	7:00 am to 7:00 pm MST
Transfer Station	N/A	N/A	N/A	N/A
Boulder County RC	1901 63rd St. Boulder, CO	7 miles		8:00 am to 4:30 pm MST
Landfill	8900 Hwy 93 Golden, CO	16 miles	39	7:00 am to 4:30 pm MST
Customer Resource Center	Phoenix, AZ Indianapolis, IN Charlotte, NC	Virtual	300+ 300+ 300+	7:00am (EST) - 7:00pm (PST) – M-F 5 hours on Sat

Operations

We exercise the utmost responsibility in our operations. This includes our fleet, our buildings, our landfill technology and the day-to-day activities we conduct in our communities. We are working hard to understand and measure our impact on air, land and water to minimize or eliminate any negative consequences, where possible.

Successful collection operations begin with a seasoned operations supervisor who knows the business as well as your community. Your local Republic Services operations supervisor is responsible for the day-to-day collection operations, including development and evaluation of routing (in conjunction with the general manager), training and oversight of drivers, and implementation and enforcement of safety procedures.

We ensure our operations supervisors are not overloaded, nor tied to a desk. On average, we maintain a 17:1 ratio of routes to supervisor, which means that items needing attention are dealt with immediately, and that the supervisor knows your community intimately.

In addition, our supervisors are out on the routes regularly. At least twice per week, they conduct ride-alongs with drivers on their routes. This creates great opportunities for driver mentoring, ensures quality control on the route, and keeps the supervisor directly aware and familiar with the nuances of the route and the community. Few, if any other, companies in the industry dedicate their operations staff to success in this manner.

Operations Training (RFP 3.7)

Our Operations Supervisor training programs are second to none. Every supervisor, upon starting employment at Republic Services, attends a rigorous 2-week boot camp training course. Regardless of prior industry experience, this boot camp level sets all our supervisors on *The Republic Way* of running operations, and builds a strong peer network with those who attend the training together.

After the initial training boot camp, supervisors engage in regular refresher and new training opportunities, between 2 and 4 times per year. This yields an operations supervisory team that is able to share best practices and constantly look for ways to improve on the level of service in your community.

Figure 6. Operational Excellence - Our rigorous supervisor training program yields highly skilled operations teams

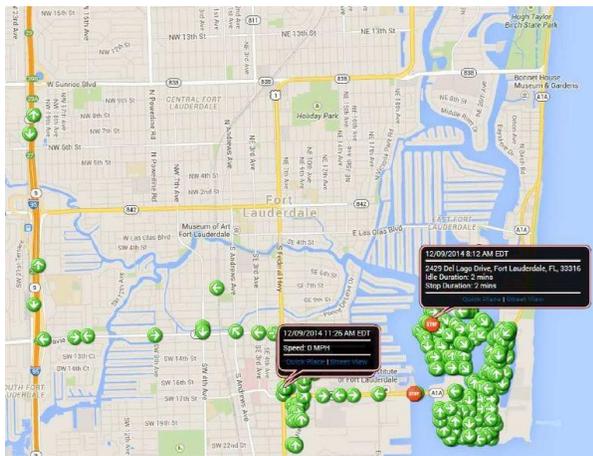

Figure 7. Leader in Operations - Our collection operations offer significant benefits to your city.

Feature	Benefits to City
Denver Fleet Maintenance – 5 Star Rated	Reliable best in class fleet
70% Residential Fleet is Automated	Safest & most efficient collection process
99.9% Accuracy Pick Up Rate	Resident satisfaction
41% Safer than Industry Average	Safer neighborhoods to Live, Work, Play

Routing (RFP 3.7)

Establishing the most optimized routes for a community has dramatic effects on the quality of service, efficiency of the collection operation through shorter routes, safety in the neighborhoods, and ultimately the wear and tear on the streets in the municipality. We conduct a proven route optimization process for your municipality, which involves a tight collaboration between the local team and our corporate route optimization team. Through several iterations, these teams collaborate together, sharing local knowledge and details, while running our optimization processes to yield the best routes possible for your community. An example of this process, we evaluate planned routes to ensure that trucks are not conducting collection on streets during times that are known for congestion or traffic

Figure 8. Route Optimization – Our optimized routes yield safer, more efficient collection for your municipality

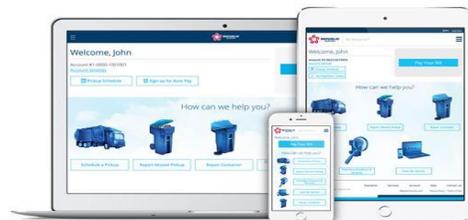

Communication with the community (RFP 3.7)

In addition to the regular collaboration between the routing teams, our Operations Team can communicate with the residents and commercial customers easily using several forms of technology. Our web and smartphone based app, called *My Resource*, enables customers to see their accounts, make service requests, or raise issues for

resolution. This app also enables our operations team to offer alerts or emails to customers regarding changes in service for holidays or inclement weather, or even holidays. We also employ a technology known as *call-em-all*, which is a phone-based capability for distributing operations updates when needed to customers on effected routes.

Figure 9. Web and Phone Based Apps – Our operations teams are in direct contact with the community through our web and phone based apps

Economy of Scale

Another benefit of Republic Services as your partner is our economy of scale. As an industry leader with a national operation, we are able to obtain trucks and equipment at a better price due to discounting, which allows us to refresh our assets more frequently than smaller companies. This applies to many of our vendors, including our uniforms, so our drivers and operations teams are better representatives of your city when out in the community.

As a national leader in recycling and environmental sustainability we can bring this experience to Louisville. We have been recognized for our environmental awareness by investors as well as local communities across the country. We look forward to bringing this experience to Louisville as we work toward meeting your sustainability goals.

Tracking (RFP 5.1)

Data will be collected on a daily basis for solid waste, recyclable materials and composting. Using on-board recording forms drivers will record the date of the collection, day of the week, route number, time on route, number of homes that did not put out containers, and non-collection tags left for residents explaining the error. At the disposal/processing site, trucks will be weighed and the drivers will receive verification of tonnage for trash, recycle and composting prior to leaving the facility. The Boulder County Recycling Center reports will provide tonnage of all recyclables and not broken down into commodity weights.

Every Republic Services driver is provided with notification tags to effectively communicate errors to residents found in their container(s). Error examples include improper placement of container, unacceptable items in the recycling or a contaminated compost container. The tags contain comments for the driver to explain to the resident why the items were not collected by the driver. Example of a tag can be found in at the end of this proposal.

Reporting (RFP 5.1)

Drivers will submit records and weight tickets to supervisors. The supervisor will approve the records and enter the information into Republic Services’ data input and reporting group. Data required by Louisville will be provided by the 10th of every month. A monthly and annual report will be provided to Louisville regarding all customer’s to whom service was provided, a log of complaints, missed collections and response, any vehicle accidents or infractions, change of service requests as well as all tonnages recorded along with destinations for solid waste, recycle and compostable.

Billing (RFP 5.2)

Republic Services currently provides billing information to our municipal customers in a variety of formats. Republic Services is committed to providing data to Louisville in a manner that is consistent and compatible with the City’s billing system and procedures. Republic’s IT professionals will work with City employees to generate information that can be fully integrated with billing software in order to streamline the process for the City.

Annually, and effective on the anniversary of the Commencement Date, service prices will be adjusted. Republic Services proposes annual rate adjustments based on the utilization of the Water/Sewer/Trash Consumer Price Index as published by the US Department of Labor, Bureau of Labor Statistics. This index more closely reflects the true costs associated with our industry. A fixed rate of 3% is an alternative option if the city prefers a set number to budget from. This section is subject to negotiations between the city of Louisville and Republic Services.

Sub-Contract Hauler (RFP 3.8)

Republic Services does not intend to use any sub contracted haulers to fulfill any portion of an award by the City of Louisville.

Figure 10. Driving diversion through data integrity

Residential Collections

Residential MSW Collection

We will service all single-family containers using an automated side loader (ASL) truck. The ASL is proven to retrieve and return containers in even some of the most hard-to-reach locations such as narrow streets, courts and alleyways, enabling the industry's most efficient, safe, and environmentally responsible curbside automated collection services.

Each collection vehicle is operated by a single driver and will be painted in a uniform manner, featuring our logo and company contact information.

We propose to use blue containers with black lids for residential trash collection. Residents will be offered the option of choosing either a 32, 64 or 96-gallon container. If a customer needs more than one collection container, we will provide an additional container for a fee to accommodate the customer's needs.

The ASL container collection methodology is fast and efficient and requires approximately 8 to 12 seconds completing the cycle (pick up container, deposit contents, place container back onto the curbside) before the driver moves to the next stop.

Figure 11 Residential cart mix with dimensions

Since workers are surveying customer contents during emptying, household hazardous waste and other unpermitted materials can be identified and intercepted, and the customer notified of proper handling of these materials

Residential Recycle Collection

We will offer all Louisville customers every other week fully automated single-stream recycling collection services. Recycling containers will be serviced with the same type of equipment and the same manner as your residential solid waste containers.

We propose to use blue containers with light blue lids for residential recycle collection. Residents will be offered the option of choosing either a 32, 64 or 96-gallon container

Residential Compost Collection

We will offer all residential customers every other week compost collection. Composting containers will be serviced with the same type of equipment and the same manner as your residential solid waste and recycle containers

We propose to use blue containers with brown lids for residential compost collection. Residents will be offered the option of choosing a 32, 64 or 96-gallon container.

Figure 12 CNG Automated Side Load Collection – Provides a cleaner, safer, more efficient residential collection

Additional Services

Bulky Waste (RFP 3.2)

As part of the base bid Republic Services will continue the current practice of a **FREE** quarterly curbside bulk item pick-up per residence. **In addition, Republic will also offer an annual curbside bulk pick up event where residents can place up to 5 bulk items out for removal. This additional service is included as part of our base bid.** Event date to be coordinated with the city. Additional bulk requests beyond the free services provided will be charged a minimal fee. (See Exhibit C)

City Facility Collection (RFP 3.2)

Republic Services has received the cities 2018 Addendum 5, Updated Exhibit D, City Bin Pricing document. Republic will provide the residential container trash, recycle and compost services at **no additional fee** to the city. A total of 16 residential containers were identified in the document. The city facilities are in varying locations, all in the 96 gallon size across different waste streams. The commercial containers will be priced separately and that pricing can be found in Exhibit D

City Special Events (RFP 3.2)

Republic Services will provide collection of trash, recycle and compostables for special events yearly as designated by the City. Pricing is listed in Exhibits A & B. In addition, Republic will provide annually a total of five **(5) complimentary 30 yard roll off** containers for the cities use. These can be used for special Public Works projects, neighborhood clean-up, storm debris clean-up etc... Additional 30 yard roll offs will be available at a flat fee of \$275.

Curbside Leaf & Branch (RFP 3.2)

Republic Services will provide a curbside leaf and branch collection two (2) times per year at **no additional charge** to the city or

Louisville residents. Historically, these events happen in the Spring and again in the Fall. Date of events to be coordinated with city leadership and staff. Branches need to be cut into 4' lengths and bundled while leaves need to be in compostable bags. The woody material will be staged and chipped prior to leave the quarantine area and compostable bags of leaves will be taken to A-1 Organics for processing.

Drive In/Roll Out Service (RFP 3.2)

Republic Services will provide front door pick-up for physically impaired residents. All containers must be accessible to our drivers without going behind fences, inside garages etc... See Exhibits A & B Additional Services.

Multi-Family MSW Collection

Republic Services will provide a combination of programs and services for multi-family customers, which can typically be a mix of residential and commercial needs. Once defined and properly sized, multi-family customers are integrated into residential or commercial routes to provide the efficiency and reliability desired.

In all cases, Republic Services will identify the correct equipment to service multi-family complexes based on individual needs. If the complex requests containerized service, Republic Services can provide solid waste, recycle and compost containers to meet their needs. (see Figure 15)

Figure 15. Multi-Family Container Options

Service Days (RFP 3.5)

All collections will be limited to the hours between 7:00 a.m. and 5:00 p.m. Tuesday through Friday, except as expressly authorized by the City. Please see route map in Appendix, Page 29

Figure 16. Service Days for your contract

Service	Days of Week	Collection Hours
MSW	Tue thru Fri	7 am – 5 pm
Recyclables	Tue thru Fri	7 am – 5 pm
Compost	Tue thru Fri	7 am – 5 pm
Bulky Items	On Call	On Call

Holiday Schedules (RFP 3.6)

Republic Services will be closed on the following observed Holidays: New Year’s Day, Memorial Day, 4th of July, Labor Day, Thanksgiving and Christmas. If your trash day falls on or after an observed Holiday, your pickup will be on a one day delay. Service will not be delayed if the Holiday falls on a Saturday or Sunday.

Inclement Weather (RFP 3.5)

In the case of an extreme weather event, service may be delayed until access is available. A robo call will alert all residents participating in the robo call program as to when the roads will be safe and passable. Republic will communicate with city leadership and the Louisville Public Works Department to coordinate access. As updates are available, we will communicate this information to the city and residents. In an extreme weather event, it may be possible to run operation on a Saturday to complete collections. If this situation arises, prior approval by the city will be coordinated.

Alley Service Accommodations (RFP 3.4)

Although Republic Services is proposing using all automated side load collection vehicles, we have assessed the Louisville alleys for collection vehicle access. A rear load collection vehicle, similar to our process in the City of Lafayette, will be utilized one day a week to collect these narrow access alleys. Residential homes serviced via alleys will be collected in the same day

Finished Compost (RFP 3.2)

Republic Services will provide Free Finished Compost to all residents of Louisville. Republic currently contracts with A-1 Organics for processing and delivery of finished compost. Republic will work with A-1 Organics to deliver the material in bulk to a City site where City staff will oversee the distribution. Based on the 2018 Addendum 1, Section 3.2, a total of 500 cubic yards of finished compost will be provided. Previous actual usage from the city of Louisville, confirms this to be an adequate amount. The Finished Compost delivery will happen annually.

HOA Customer’s (RFP 7)

Republic Services does not currently provide any solid waste, recycle or compost services to HOA’s in Louisville.

Figure17. Always Working For You – Our local team is dedicated to the success of your community.

Collection Equipment

(RFP 3.7)

At Republic Services, we take our environmental responsibilities serious and consistently strive to go beyond our partners expectations. We applaud the City for requiring CNG trucks in your bid specs and are proud to exceed City expectations by introducing you to RNG. Recently, Republic announced that we will increase our usage of renewable natural gas (RNG) by three times what we used in previous years. This expansion agreement with Clean Energy will enable Republic Services to reduce its fleet emissions by approximately 110,000 metric tons of CO₂e (carbon dioxide equivalent) over a three-year period. This national partnership with Clean Energy will equate to environmental benefits of planting 2.8 million trees or removing 23,200 vehicles from our roadways. We believe that by investing in CNG vehicles and technologies, we are creating a competitive advantage through improved air emissions and reduced operating noise.

Locally, our Commerce City division already runs with 70% of our division on CNG; 20% of these, and all of the vehicles that will be servicing Louisville will be run on RNG.

In order to service the City of Louisville, Republic Services will purchase new CNG vehicles to handle all three waste streams. The one exception will be a Rear Load collection truck that will be used to service

the Louisville alley ways. We will utilize an existing vehicle for this designated area.

All drivers when on route are equipped with GPS tracking to ensure collection quality, productivity and other key performance metrics. This system allows the driver to take pictures of challenging or unsafe stops, voice record messages, text/e-mail information back to the office and downloaded into our customer data base so that trends can be evaluated and safety can be assured .

Republic drivers are also trained in our “We’re Looking Out for You” program. This is our version of a neighborhood watch program. Drivers are trained to notice situations out of the ordinary and will call dispatch to report unusual activities.

Figure 18. Collection Vehicles - Republic Services will utilize CNG Automated Side Load

Cab/Chassis	Engine Type	Body Type	Year	Weight (lbs)	Capacity
Peterbilt Model 320	Cummins ISL-G Natural Gas	Automated Side Load McNeilus ZR	New	55,000	28 yard
Peterbilt Model 320	Cummins ISL-G Natural Gas	Rear Load McNeilus	New	55,000	20 yard
Peterbilt Model 567	Cummins ISX-12 G Natural Gas	Cable Hoist G&H	New	55,000	30 yard

Qualification of Proposer

Reference Cities (RFP 4.1)

Our experience includes providing a PAYT program for trash, recycling, and/or composting collection services in the Front Range to the Cities of Sheridan, Edgewater, and Lafayette. We also provide City wide trash and recycling services for the City of Greenwood Village, Foxfield and Morrison. We encourage you to contact the references below for additional information on Republics quality partnerships.

City of Edgewater

2401 Sheridan Blvd Edgewater, CO 80214
 HJ Stalf, City Manager 720-763-3008
hstalf@edgewaterco.com

Description: Republic Services provides a PAYT service for trash and recycling for the residents of Edgewater. Additional services include a spring and fall bulk item collection and an electronic recycling event. Republic has been providing services to the city of Edgewater since 2010.

City of Sheridan

4101 S Federal Blvd Sheridan, CO 80110
 Devin Granbery, City Mgr 303-762-2200
dgranbery@ci.sheridan.co.us

Description: Republic Services provides a PAYT service for trash and recycling for the residents of Sheridan. Additional services include a spring and fall bulk item collection and an electronic recycling event. Republic has been providing services to the city of Sheridan since 2014.

City of Greenwood Village

6060 S. Quebec St
 Greenwood Village, CO 80111
 Mayor Ron Rakowski 303-486-5741
rrakowsky@greenwoodvillage.com

Description: Republic Services provides a city wide trash and recycle carted collection system. Additional services include bulk item collection and leaf and branch removal. Republic has been providing services to the city of Greenwood Village since 2007.

City of Lafayette

1290 S. Public Road, CO 80026
 Douglas Short, Public Works Director
 303-661-1282

douglass@cityoflafayette.com

Description: Republic Services provides a PAYT service for trash, recycling, and compost for the residents of Lafayette. Additional services include a fall leaf and branch event, an annual curbside bulk pick up event and a spring free finished compost event. Republic has been providing service to Lafayette since 2014.

Figure 19. Pictured with Mayor Berg is Mark Petrovich, Municipal Services Mgr with Republic Services

Outstanding Elected Official

City of Lafayette Mayor Christine Berg recently received the Outstanding Elected Official award from the Colorado Association for Recycling (CAFR).

In July 2014, under Mayor Christine Berg's leadership, the Lafayette City Council voted unanimously to enter into a new hauling contract with Republic Services that would provide curbside composting to the 5,494 households in Lafayette that are in the city's service area. In so doing, the city of Lafayette has advanced Colorado's efforts to reduce waste by becoming only the third city, not only in Colorado, but in the Rocky Mountain West to adopt curbside composting.

"We're pleased that our partnership with Republic Services helped us to reach our Diversion Rate goal of 40%. They're a great team to work with."

Christine Berg, Lafayette Mayor

Safety

Safety is Republic Services' highest priority. We adhere to a strict policy of safety protocols with supporting infrastructure, where employees are trained to Think, Choose, Live® within a framework designed for safety.

Safety Overview

Republic Services has an industry leading safety program that has been 41% better than the industry average for the past nine years, based on OSHA data. In addition, we have been recipients of 75% of industry Driver of the Year awards for the large truck category since 2009.

Republic Services and its employees maintain strict compliance with all applicable OSHA and federal, state, and local safety requirements while performing all work-related functions. We recognize that a safe workforce is not simply a discussion with a new hire, but a dedicated plan to review, educate, and verify employee practices throughout their careers.

Republic Services has the lowest occurrence of incidents and crashes in the industry due to its company-wide emphasis on safety, extensive employee training and on-going educational development programs. Republic Services requires all operations personnel to participate in extensive in-house (off truck) training and testing as well as on road auditing and policy reinforcement.

Republic Services offers full-spectrum safety initiatives and award-winning safety training programs to all employees. We are an industry leader in safety and we are very proud of our safety track record.

Think. Choose. Live®

Every day, drivers face a multitude of challenges and are required to make decisions that can greatly impact their safety, as well as the safety of those in the communities we serve. We instituted a best-in-class driver training program that drives

Our employees are our greatest asset, and our dedication to every employee's safety is second to none

- 41% Safer than the industry average, while maintaining the 7th largest vocational fleet in the United States
- Think, Choose, Live® embodies our company culture
- Winners of 75% of industry Driver of the Year awards since 2009

continual improvement for all of our 15,000 drivers.

Our Think. Choose. Live® philosophy helps navigate these situations by encouraging employees to *Think* about their actions, *Choose* the safest approach and *Live* to go home to their families at the end of each day.

ReSOP Program

The Republic Services Observation Program (ReSOP) is paramount to decreasing safety incidents. Supervisors are required to conduct a minimum of two in-person employee observations per week.

The purpose is to improve safety, customer experience and productivity. The employee and their leader work together towards excellence.

Figure 20. Republic Services ReSOP Program has decreased safety incidents since inception

Safety Meetings & Training

Republic Services provides weekly, monthly and annual safety training for all of our employees.

Safety topics are developed based on subject matter required under OSHA regulation. Republic Services prepares well-developed tailgate sessions, provides translators to engage all employees and encourages open discussion and participation.

Meeting topics may include:

- Injury and illness prevention/safety rules
- Back injury prevention
- Emergency response/fire safety
- Exposure control plan
- Drug and alcohol program
- Personal protective equipment
- Employee right-to-know
- Hearing conservation safety
- Lock out and tag out safety
- Slips, trips, and falls
- Confined space entry

Safety Recognition Program

The Republic Services Dedicated to Safety and Dedicated to Excellence Programs are designed to identify, recognize and reward safety-sensitive employees who are dedicated to safety and excellence in their workplace. This program consists of two tiers that recognize and reward safety-sensitive employees who have excelled in key areas.

Employee safety and excellence is measured on six criteria including no preventable crashes or injuries, no unscheduled lost time and no safety warning letters. Each employee who qualifies is recognized monthly, quarterly and annually.

Focus 6

Our Focus 6 program provides employees with tips and techniques to reduce the frequency of our six most common types of serious incidents. This industry-leading program involves in-class training and practical skills course exercises that have helped to reduce crashes and injuries.

Figure 21. *Continually Improving Safety is Top Goal for Republic Services*

Figure 22. *Our Focus 6 safety program assists in tips and techniques to reduce our top 6 most common accident types*

One Fleet Maintenance

Republic Services is dedicated to operating the best running, safest and most environmentally friendly vehicles in the industry. This goal is achieved through a coordinated vehicular operation maintenance system called OneFleet.

With standardized procedures and consistent execution, the OneFleet system improves safety for the fleet, decreases repair downtime and improves customer satisfaction.

Six Pillars of OneFleet:

1. *Preventive Maintenance (PM)*
 - PMs are the hallmark of OneFleet. Republic Services prescribes six levels of PM activity (A-F) at varying truck hour markers:
 - a. Every 150 hours (full inspection, including nuts/bolts/fluids/no cracks)
 - b. Every 450 hours (A plus, full lubrication service)
 - c. Every 1,350 hours (transmission, front suspension, air-to-air, hydraulics, CNG inspection)
 - d. Every 2,700 hours (A, B, C plus drain transmission, new filters and fluids; crank ventilation filters; exhaust system inspection/service, cleaning, catalyst inspection/service)
 - e. Every 5,400 hours (A, B, C, D plus differential fluids, DPF system, overhead valve adjustment, fuel systems inspection/service)
 - f. Every Year—Annual Federal Safety Inspection

2. *Planning and Scheduling*

Standardized scheduling maintenance leads to increased shop capacity and fleet “up” time. By planning preventive maintenance,

we have parts in stock, mechanics scheduled during off-route hours and our shop keeps proactive and prepared. We prioritize ticket items to adequately meet operational needs—we make sure the fleet is ready at route time.

Fig 23. One Fleet Pillar

3. *Workplace Organization*

A clean and organized workplace provides a safer and more efficient environment. We manage the Five S's: **Sort, straighten, sanitize, standardize, and sustain.**

4. *Repair Quality and Training*

Republic's OneFleet initiatives are only as strong as the training we give our technicians. Quality tech training is our mantra—from on-the-job training to formal classroom programs.

Our team of tenured mechanics each takes a minimum of 80 hours of formalized training a year to make sure our technicians are the best in the industry, ensuring the safest trucks on the road.

5. *Driver Practices*

Joint accountability and proper communication between maintenance crews and operations personnel (drivers and supervisors) foster fewer unscheduled repairs and breakdowns.

Each day, drivers perform:

- Pre-/post-trip driver quality control inspection.
- Ensure that any issues drivers identify are accurately communicated to the shop.
- Driver Service Management (check-in and check-out).
- Supervisor on duty as drivers check in and out.
- Customer & route expectations communicated in morning meetings.

6. *Parts Management*

The right part at the right time is critical to proper fleet maintenance. Parts are on hand for all scheduled repairs, which decreases truck and labor down or delay time. Integral to the parts maintenance program is cleanliness and organization throughout our

site. With proper scheduling, parts are staged on carts in advance of a technician's arrival.

The bottom-line benefit of OneFleet is the positive impact to our customers. We begin the day (everyday) with a reliable fleet—both operationally and environmentally

*Figure 247. **The industry's best fleet** means that drivers are the first line of offense: they perform a structured walk-around, complete with checklist, both before and after their collection responsibilities*

Customer Service

Customer Service (RFP 3.11)

We recognize that when customers have questions regarding scheduled service, or would like to order additional services, a speedy response is expected. We strive for first call resolution—from call, email, mobile app, website or in-person request.

Republic Services of Denver intends to provide a dedicated phone line and a local customer service team to handle all inquiries from Louisville residents.

Our Hauling Facility, located at 5075 E 74th Ave in Commerce City will deliver call support for 9 hours per day (8:00am to 5:00pm) Monday through Friday. A voice message system will be in place for after hours and weekend calls. All phone and email messages left after hours will be addressed promptly the next business day.

In addition to the customer service hours, customers also have the ability to reach us 24/7 via our website, RepublicServices.com, or our app, known as MyResource™.

Website

Republic Services will build a dedicated landing page website for the city and residents of Louisville. A similar website was built for the residents of Lafayette and

you can view this webpage at the following URL: www.republicservices.com/lafayette
 The cost to build and maintain the Louisville website is included in the service rates proposed on Exhibits A and B

RepublicServices.com/Louisville will provide in-depth content specific to a Resources page, Events and Services, Current Rates, Customer Support and more. The design process for Louisville’s page will be done in partnership with Louisville city leadership and staff. The website will also contain numerous links to recycle and compost education and informational videos. A few examples of these educational links are: <https://recyclingsimplified.com/>

https://recyclingsimplified.com/tip_category/video/

MyResource™

MyResource™ is an application for mobile devices that can be used to schedule a pick-up, report a missed pick-up, receive service notifications and much more. This app can be easily downloaded from the App Store for Apple or Google Play for Android.

Figure 25. Republic’s Website - RepublicServices.com is a one-stop resource.

Figure 26. Mobile App – My Resource™

Sustainability

Sustainability contributes to a cleaner world, while also providing opportunities to improve brand awareness, increase customer loyalty, grow our business, motivate our employees and differentiate Republic Services from our competitors.

We believe we have a responsibility to regenerate our planet with the materials we are entrusted to handle every day by driving increased recycling and composting, generating renewable energy, and helping our customers be more resourceful.

Additionally, we must lead by example, working diligently to improve our relationship with the environment and society through decreased vehicle emissions, innovative landfill technologies, use of renewable energy, community engagement and employee growth opportunities.

Our industry-leading sustainability platform is focused on increasing recycling, decreasing vehicle emissions, generating renewable energy, and enabling our customers to be more resourceful. In 2017, Republic Services steadily built upon its sustainability achievements.

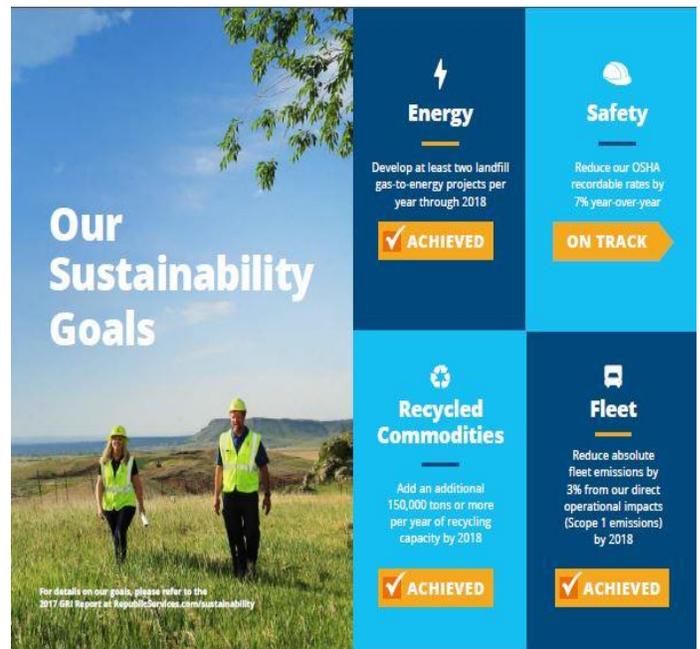

We continue to find new avenues for sustainability success. Consider our five-point sustainability platform

- Operations.** We are working to minimize the impact of our operations around our fleet and our facilities. We will continue to reduce our carbon emissions, by adding more recycling capacity, increasing our CNG fleet and opening additional alternative energy-producing facilities.
- Materials Management.** When we extract materials from the waste stream (commodities and/or energy), we reduce

greenhouse gas emissions and your community’s carbon footprint.

- Communities.** Our Empty, Clean, Dry™ recycling outreach and education program help your residents and business people recycle more and waste less.
- Safety.** We are committed to creating a safe environment for our customers, communities and employees. A recent national study found that Republic Services is the safest solid waste company – 41% safer than national average.
- People.** We employ and develop talented professionals who are committed to sustainability, our customers and each other.

Fig 27. Republic Services National Sustainability Goals

Transition Plan

We are seasoned experts in the low risk, successful transition of services from your current provider to Republic Services. Through transparent and involved collaboration with you, our seamless transition will leave the City and your residents happy with your choice of Republic Services.

Experience Matters

Republic Services successfully implements more than 75 new municipal contracts each year, and we will bring our national strength and local expertise to every one of them.

Each transition takes into consideration the unique needs of the contract and City. The key to success, regardless of project details, relies on communication:

1. We start with a transition timeline, crafted in collaboration with the City. This transition plan includes milestones, roles/responsibilities and contact information. See Figure 53 for a sample of our transition timeline for the City
2. Frequent, pro-active communication with the City to ensure no surprises along the way. Weekly in-person meetings and phone calls/emails as the situation requires. Our philosophy is sharing news

*Figure 28. **Low Risk Transition** - From contract award to service start date our teams are visible and in constant communications*

Successful transition covers many details

- Communication is key to a successful transition
- Capital asset procurement and delivery
- Driver hiring, training and route planning
- Community education and messaging

as that gives everyone a chance to prepare and respond in a timely fashion

3. Data sharing and operational field coordination with current contractor to ensure all open requests are met and service information is accurate.

Monitoring of open service notes is critical, especially when the transition date nears. The current hauler is responsible for the service note up until the current contract expires; there may be some service issues that cannot be resolved in the time allotted and will become the new haulers responsibility. Our operations teams and customer service professionals understand the need to keep a close eye on open service notes.

Cart removal and delivery also require careful coordination with field crews. Customers need same-day service from both providers, and our local teams work with the current hauler to streamline this function for a seamless transition.

4. Timely and redundant communications through a variety of channels is key to a successful transition.

5. Daily communication with the internal team to assess project status and time line benchmarks. Our operational management team meets daily with our

supervisors and maintenance team to ensure critical items are addressed.

The publicity and education team meets with the transition lead (operations manager), customer service manager and general manager to ensure customer-specific aspects of the rigorous training for customer service staff and drivers.

Dedicated phone lines, contract-specific information, route development and truck test drives combine to bring a safe and well informed team to your city

6. Regular communication with vendors supplying containers, printed material, trucks and on-board computing systems. Our experience has shown that relationships matter—when we need equipment, we get it. Our national strength and buying power is leveraged for your benefit. Nationally, we have secured relationships with key printing/mail house partners who put our needs first in a time-critical situation

Promotion & Education (RFP 3.9)

Thirty days prior to the commencement Republic Services shall mail an 8-1/2"x11" two-color notice to each City resident

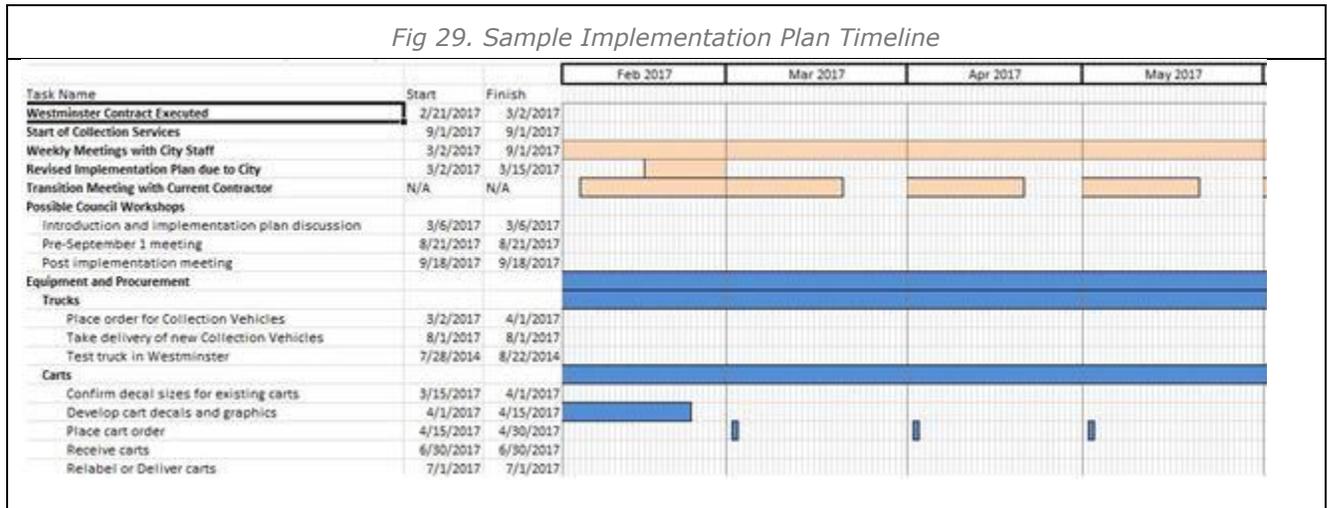

informing them of the specifics of the trash and recyclables collection program. This notice shall include upcoming special events and a complete list of fees and services offered to each customer. A collection schedule includes a listing of what materials can go into the recyclable materials bin, instructions on the proper handling of the collection bins, changing container size, and what customers are to do with overflow trash.

Republic Services agrees to provide another such notice anytime there is a rate increase or a change in the collection program. All new customers will receive a Welcome to the Program Letter to include information on the rates, fees, and service level options as well as the recycling services and collection schedule. In advance of any mailings or inserts, Republic Services will send a draft insert to the City Project Manager in digital format to get approval in writing from the City.

Public Info Meetings (RFP 3.10)

Republic Services agrees, prior to implementation to participate with City staff and Council in at least two public meetings that will describe the new service to City residents.

Fig 29. Sample Implementation Plan Timeline

Rehrig A & D Cart Processes

Rehrig Pacific Assembly & Distribution Services – Benefits to the Customer

- Our focus on accuracy coupled with the ability to modify/update delivery lists while delivering carts using a hand held scanner will provide City of Louisville with a comprehensive **route audit resulting in an accurate database from the start**. The CARTS Route Audit Software cleans up the address list during delivery to ensure the most accurate account data possible.
- Ability to have complete visibility of work/progress by the end of each delivery day through **daily automated delivery reports**
- Increased information available to customers and personnel alike reduces customer complaints and increases the effectiveness of both customer care and operational staff
- Access to custom City of Louisville C.A.R.T.S. portal for delivery/inventory information during rollout
- Less time spent on delivery with increased accuracy across the board
- **Internal Rehrig Pacific** crews to eliminate the need for sub-contractors – only proven company to provide internal managers AND crews/equipment.
- **Detailed A&D Checklist** that takes into account all prior experience regarding A&D to make sure City of Louisville is aware of all aspects of a large rollout early and often to guarantee success.
- **Expensive RFID Hand Held readers are not required** for Assembly & Distribution. Often times these types of readers can read multiple carts at once and the person delivering the cart cannot be 100% certain that the cart they thought they scanned is the actual cart that was delivered to the home. Using a bar code scanner for A&D guarantees that a specific cart is delivered to a specific home making sure that data capture for delivery is accurate.
- **GPS Capture during A&D** process. Rehrig Pacific will capture the point of collection GPS coordinates for each address during delivery. This information can be used daily to monitor cart movement based off of its initial delivery and actual collection by the RFID truck system. Rehrig Pacific has been capturing GPS coordinates as part of our standard A&D protocol for over 4 years.
- **Delivery Safeguards** in C.A.R.T.S. preserves data integrity and increases accuracy of delivery data
- Increases service revenue by adding accounts not on billing list
- Conserve container assets with exception reporting capabilities (IE: vacant homes, lots, etc)

Assembly & Distribution with RFID/Bar Code Association

Rehrig Pacific Company is the only proven cart manufacturer that performs Assembly and Distribution (A&D) services internally, utilizing company employees and company owned equipment. Rehrig made the investment years ago to integrate this portion of the business in order to maintain control over this very crucial part of any large contract. By controlling not only the production schedules but also the delivery component, Rehrig Pacific is able to guarantee a smooth, professional and efficient startup for City of Louisville. Other cart manufacturers use sub-contractors to perform these services and frequently have challenges when things do not go according to plan. They often times seek to receive more compensation, become hard to work with or leave the job uncompleted. Lastly, with the influx of technology in today's A&D world, you want to be guaranteed that you are using A&D crews that have experience with the new technology and more efficient methods in delivering carts. Rehrig Pacific's list of available references can offer more insight into not only our professionalism but also our performance.

At the staging area, cab-over trucks and trailers will be loaded with carts. The delivery trucks will deliver the containers to the residents throughout delivery area. Once a trailer has completed deliveries, the trucks will return to the staging area to be loaded again for the next set of deliveries. In addition to having a few main staging areas, crews could utilize approved dead-end streets, vacant parking lots, etc. as temporary unloading sites within the distribution areas. These sites will be free from containers at the end of the work day.

Rehrig Pacific Company will follow detailed distribution lists by route that must be provided by Republic Services at least four weeks prior to the delivery start date. **Rehrig Pacific's In-House IT team will perform and address list hygiene scrub comparing Republic Services provided addresses against the USPS database. This extra step taken by Rehrig Pacific's IT team ensures that Republic Services is once again receiving the highest level of data integrity.** Rehrig Pacific will then upload the detailed distribution lists into our Cart Asset Recovery Tracking System (C.A.R.T.S.) and download this information daily into our hand held bar code scanners for our crews to follow. It is very important to have accurate maps and distribution lists to help minimize program delays.

Bar Code scanning / serial number recording will be performed electronically by crew members and will take place on the routes as the containers are being delivered to the resident households. Each resident will have a corresponding bar code / serial number on their cart and we will associate this information with each household address. This seamless electronic process will ensure the accuracy of associating the roll out cart and RFID tag value with the individual residence which is much more accurate than manual hand written, computer entered recording of serial numbers or the RFID hand held A&D process.

By electronically delivering each cart, we are also able to track **exceptions** during the A&D process effectively providing you with an **accurate route audit**. Through the use of the hand held scanner we are able to report new houses and add them to the database "on the fly" in the field, report Vacant houses, wrong addresses, business, etc. Exception codes are completely customizable for each program. **This sophisticated method of delivery will ensure that City of Louisville is accounting for every house within the service area and potentially provide a new revenue stream by finding additional house not originally accounted for.**

It is extremely important in programs that offer various size carts and various streams (recycle/garbage) that the correct size and type of cart is correctly delivered to each resident. Rehrig Pacific will input the size and type requested by the resident or the sizes provided by City of Louisville into the C.A.R.T.S. program and create the A&D delivery schedule accordingly. Republic Services will provide Rehrig Pacific with the detailed address list and the size/type cart that is required for each resident. By inputting this data into C.A.R.T.S. and using our hand held scanners in the A&D process, we can insure that the correct size cart will be delivered to the correct address. In fact, safeguards are in place with the C.A.R.T.S. software to not allow our delivery crews to deliver a different size cart than what was requested. For example, if the address list shows that the resident was to receive a 65 gallon recycle cart and we attempt to scan in a 95 recycle cart, the hand held device will not allow the 95 gallon cart to be associated to that address. Safeguards such as these allow Rehrig Pacific to create the most accurate database possible for City of Louisville/Republic Services.

At the end of each delivery day the data that has been stored in each handheld device will be uploaded to our C.A.R.T.S. system which is then associated with our production data and delivery schedule. This information is compiled automatically to provide detailed distribution reports to Republic Services by the next morning. **Essentially, the C.A.R.T.S. system allows Republic Services and City of Louisville to follow delivery progress on a daily basis, which is extremely beneficial to help Republic Services and City of Louisville answer cart delivery questions during the rollout.** We are able to provide you with

REPUBLIC SERVICES

City of Louisville

City of Louisville

Snapshot of Assembly & Distribution Daily Detailed GPS Delivery Report:

Detailed table with columns: Delivery Date, Route, Resolution, Service #, Streets, Suf, SPOEF Name, Unit #, Serial#, RFID, Latitude, Longitude. Lists specific delivery routes and coordinates.

Creative Offerings and Solutions

In addition to meeting the base recycling and waste needs of Louisville, it is important to recognize that additional waste is generated daily in your community that the residents and commercial owners do not know how to properly dispose of, including:

- Electronic materials
- Medical/sharps
- Universal waste
- Household hazardous waste

Absent an existing program to address these important waste streams, the community will typically throw the material in their MSW container, which leads to both safety and environmental issues. Examples of these issues are batteries that can burst and cause

fires in the processing facilities, as well as employees getting needle sticks from medical needles that are disposed of in the recycling stream.

Republic Services has studied each of these waste streams, and developed offerings to allow Louisville to add these services under the contract, or as an offering that can be marketed directly to the community, and purchased directly from Republic Services.

We look forward to discussing each of these with Louisville to ensure that your questions are answered, and that you can identify the best approach to addressing these needs in your community. For each offering that Louisville selects to add, we are ready to implement the additional offering based on the time line and collection method that works best for the Louisville.

Figure 30. Other Creative Offerings – We are ready to add the additional important products that address existing and growing waste streams that should not be landfilled

PERFORMANCE BOND

Form to be Used When Bonding Specified Term
of a Multi-Year Contract

(Page 1 of 2)

Bond No.

KNOW ALL MEN BY THESE PRESENTS: That, _____
 (hereinafter called Principal) as Principal, and
 _____ a corporation duly organized
 under the laws of the _____ of _____ and duly authorized and
 licensed to do business in the _____ of _____
 (hereinafter called Surety), as Surety, are held and firmly bound unto

 (hereinafter called the Oblgee), as Oblgee, in the full and just sum of
 _____ DOLLARS,
 (\$ _____) to the payment of which sum, well and truly to be made, the said Principal
 and Surety bind themselves, their and each of their heirs, administrators, executors, successors and
 assigns, jointly and severally, firmly by these presents.

WHEREAS, the above bounden Principal has entered into a certain written contract with the above
 mentioned Oblgee dated _____ for _____

 for a period of _____ years which contract is hereby referred to and made a part
 hereof as fully and to the same extent as if copied at length herein, and

WHEREAS, the Oblgee has agreed to accept a bond guaranteeing the performance of said contract for
 the specified contract period.

NOW, THEREFORE, if Principal shall faithfully perform such contract or shall indemnify and save
 harmless the Oblgee from all cost and damage by reason of Principal's failure so to do, then this
 obligation shall be null and void; otherwise it shall remain in full force and effect.

For All the Commitments You Make®

PERFORMANCE BOND
 (Page 2 of 2)

PROVIDED, HOWEVER, that this bond is subject to the following conditions and provisions:

1. This bond is for the term beginning _____ and ending _____.
2. In the event of default by the Principal in performance of the contract during the term of this bond the Surety shall be liable only for the loss to the Oblgee for actual excess costs of performance of the contract up to the expiration of the term of this bond and in no event shall the liability of the Surety exceed the penal sum stated in this bond.
3. No claim, action, suit or proceeding, except as hereinafter set forth, shall be instituted or maintained against the Surety under this instrument unless same be brought or instituted and process served upon the Surety within one year after the expiration of the term of this bond.
4. Neither non-renewal by the Surety, nor failure, nor inability of the Principal to file a performance bond for subsequent terms under said contract shall constitute loss to the Oblgee recoverable under this bond.
5. The bond may be extended for additional terms at the option of the Surety, by continuation certificate executed by the Surety and the Principal but regardless of the number of extensions for additional terms and the number of premiums which shall be payable or paid, the liability of the Surety hereunder shall not be cumulative from year to year nor period to period.
6. No right of action shall accrue on this bond to or for the use of any person or corporation other than the Oblgee named herein or the heirs, executors, administrators or successors of the Oblgee.

Signed and sealed this _____ day of _____.

Exhibit A- 5 Year, Single Day Service

Republic Services has opted not to submit pricing for One Single Day of the Week Service. In order to complete services in one day, Republic would have to purchase several trucks to accommodate weekly trash and EOW Recycle/Compost. This capital expenditure for assets that could potentially not be utilized to their full potential the remaining 4 days of the week creates a financial model that would not bring forth suitable pricing for Louisville and Republic Services. Republic instead opted for proposing pricing for **Multiple Days of the Week.** Republic proposes four (4) days of service in the week which can be accomplished with the purchase of two (2) trash trucks and two (2) recycle/compost trucks. Republic Services felt this financial model met Louisville's goal of maintaining the high quality of services the residents are accustomed to, along with providing competitive pricing the city is seeking.

EXHIBIT A
 Price Sheet - 5 Year Contract Term (Annually Renewable)
Residential collection Services

3.1.1 BASE BID:

Schedule: Trash service on **One Single Day of the Week** with recycling and compost collected in alternating weeks on the same day as trash pickup.

Unit Pricing Base Service:

Price shall include the first bi-weekly **recycling and composting** bin of any size up to 96 gallons.

32-Gallon weekly trash with biweekly recycle and compost service \$ N/A per month

Unit Pricing Additional Individual Carts only after Base Bid Service:

Additional 32-Gallon increment for weekly trash only bin \$ N/A per month
 Additional 32-Gallon increment for bi-weekly recyclable only bin \$ N/A per month
 Additional 32-Gallon increment for bi-weekly compost only bin \$ N/A per month

Trash Prepaid sticker per 32-gallon bag \$ N/A each

100% Increment per 32 gallon unit increase per service category for 64-Gallon and 96-Gallon bins.

3.1.2 ALTERNATE BID ITEM #1:

Schedule: Trash service on **One Single Day of the Week** with recycling and compost collected in alternating weeks on the same day as trash pickup.

Unit Pricing Base Service:

Price shall include the first bi-weekly **recycling** of any size up to 96 gallons.

32-Gallon weekly trash with biweekly recycle service \$ N/A per month
 32-Gallon bi-weekly compost service \$ N/A per month

Unit Pricing Additional Individual Carts only after Base Bid Service:

Additional 32-Gallon increment for weekly trash only bin \$ N/A per month
 Additional 32-Gallon increment for bi-weekly recyclable only bin \$ N/A per month
 Additional 32-Gallon increment for bi-weekly compost only bin \$ N/A per month

Trash Prepaid sticker per 32-gallon bag \$ N/A each

100% Increment per 32 gallon unit increase per service category for 64-Gallon and 96-Gallon bins.

Exhibit A

Exhibit A- 5 Year, Multiple Days of Week Service

**If cart size mix for trash and/or compost changes by more than +/- 5%, Republic Services reserves the right to negotiate a rate adjustment with Louisville. This adjustment may be necessary to protect the city as well as Republic if unusual changes occur.

EXHIBIT A
Price Sheet - 5 Year Contract Term (Annually Renewable)
Residential Collection Services

3.1.3 ALTERNATE BID ITEM #2:

Schedule: Trash service on **Multiple Days of the Week** with recycling and compost collected in alternating weeks on the same day as trash pickup (Provide Daily Route Map).

Unit Pricing Base Service:

Price shall include the first bi-weekly **recycling** and **composting** bin of any size up to 96 gallons.

32-Gallon weekly trash with biweekly recycle and compost service \$ 12.75 per month

Unit Pricing Additional Individual Carts only after Base Bid Service:

Additional 32-Gallon increment for weekly trash only bin \$ 2.50 per month

Additional 32-Gallon increment for bi-weekly recyclable only bin \$ 2.50 per month

Additional 32-Gallon increment for bi-weekly compost only bin \$ 2.50 per month

Trash Prepaid sticker per 32-gallon bag \$ 3.50 each

100% Increment per 32 gallon unit increase per service category for 64-Gallon and 96-Gallon bins.

3.1.4 ALTERNATE BID ITEM #3:

Schedule: Trash service on **Multiple Days of the Week** with recycling and compost collected in alternating weeks on the same day as trash pickup (Provide Daily Route Map).

Unit Pricing Base Service:

Price shall include the first bi-weekly **recycling** of any size up to 96 gallons.

32-Gallon weekly trash with biweekly recycle service \$ 9.00 per month

32-Gallon bi-weekly compost service \$ 3.75 per month

Special Events

One 96-Gallon each of trash, recycle, compost \$30.00 per set
 (includes drop off and pick up)

Individual Based Subscription

The following services will be offered to Louisville customers on an individual basis. They will be added to the appropriate addresses in the billing transmitted to the city at month end.

Drive-In Service"¹ \$ 10 per month
 Roll-Out Service'¹) \$ 10 per month

¹Any residents who need this service due to a documentable handicap will receive this service at no charge.

3.4 COLLECTION CARTS:

Three free cart size changes or replacements per YES acknowledged year per account

Additional cart size changes or replacements \$15 each

Exhibit A

Exhibit B- 10 Year, Single Day Service

Republic Services has opted not to submit pricing for One Single Day of the Week Service. In order to complete services in one day, Republic would have to purchase several trucks to accommodate weekly trash and EOW Recycle/Compost. This capital expenditure for assets that could potentially not be utilized to their full potential the remaining 4 days of the week creates a financial model that would not bring forth suitable pricing for Louisville or Republic Services. Republic instead opted for proposing pricing for **Multiple Days of the Week.** Republic proposes four (4) days of service in the week which can be accomplished with the purchase of two (2) trash trucks and two (2) recycle/compost trucks. Republic Services felt this financial model met Louisville's goal of maintaining the high quality of services the residents are accustomed to, along with providing competitive pricing the city is seeking.

EXHIBIT B
 Price Sheet - 10 Year Contract Term (Annually Renewable)
Residential collection Services

3.1.1 BASE BID:

Schedule: Trash service on **One Single Day of the Week** with recycling and compost collected in alternating weeks on the same day as trash pickup.

Unit Pricing Base Service:

Price shall include the first bi-weekly **recycling and composting** bin of any size up to 96 gallons.

32-Gallon weekly trash with biweekly recycle and compost service \$ N/A per month

Unit Pricing Additional Individual Carts only after Base Bid Service:

Additional 32-Gallon increment for weekly trash only bin \$ N/A per month
 Additional 32-Gallon increment for bi-weekly recyclable only bin \$ N/A per month
 Additional 32-Gallon increment for bi-weekly compost only bin \$ N/A per month

Trash Prepaid sticker per 32-gallon bag \$ N/A each

100% Increment per 32 gallon unit increase per service category for 64-Gallon and 96-Gallon bins.

3.1.2 ALTERNATE BID ITEM #1:

Schedule: Trash service on **One Single Day of the Week** with recycling and compost collected in alternating weeks on the same day as trash pickup.

Unit Pricing Base Service:

Price shall include the first bi-weekly **recycling** of any size up to 96 gallons.

32-Gallon weekly trash with biweekly recycle service \$ N/A per month
 32-Gallon bi-weekly compost service \$ N/A per month

Unit Pricing Additional Individual Carts only after Base Bid Service:

Additional 32-Gallon increment for weekly trash only bin \$ N/A per month
 Additional 32-Gallon increment for bi-weekly recyclable only bin \$ N/A per month
 Additional 32-Gallon increment for bi-weekly compost only bin \$ N/A per month

Trash Prepaid sticker per 32-gallon bag \$ N/A each

100% Increment per 32 gallon unit increase per service category for 64-Gallon and 96-Gallon bins.

Exhibit B

Exhibit B - 10 Year, Multiple Days of Week Service

**If cart size mix for trash and/or compost changes by more than +/- 5%, Republic Services reserves the right to negotiate a rate adjustment with Louisville. This adjustment may be necessary to protect the city as well as Republic if unusual changes occur.

Exhibit E – Exclusions

The following are my comments on the RFP for Residential Solid Waste Collection for the City of Louisville, CO.

Bidding Entity: Allied Waste Transportation, Inc. d/b/a Republic Services of Denver

Bid Entity: City of Louisville, CO (the "City")

This RFP is approved by legal for submission of the proposal with the following exceptions.

The bid is due on 12/20/18 at 4:00pm. If the City issues an addendum, please send to us at your earliest convenience. We have reviewed Addendum No. 1. Please list the following exceptions:

1. Contract. Section 2.3 of the RFP includes a reservation of rights to negotiate the contract. Republic Services would like to have the same right, if awarded the bid, to negotiate a contract that is mutually acceptable to both parties.
2. Definitions. The following should be included in the final contract:
 - "Applicable Law" means any applicable law (whether statutory or common), including statutes, ordinances, regulations, rules, governmental orders, governmental decrees, judicial judgments, constitutional provisions, and requirements of any kind and nature promulgated or issued by any governmental authority claiming or having jurisdiction.
 - "Hazardous Waste" means waste defined as, or of a character or in sufficient quantity to be defined as, a "Hazardous Waste" by the Resource Conservation and Recovery Act, as amended, or any state or local laws or regulations with respect thereto, or a "toxic substance" as defined in the Toxic Substance Control Act, as amended, or any regulations with respect thereto, or any reportable quantity of a "hazardous substance" as defined by the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, or any regulations with respect thereto. The term "Hazardous Waste" also includes any waste whose storage, treatment, incineration or disposal requires a special license or permit from any federal, state or local government entity, body or agency and any substance that, after the effective date of this Agreement, is determined to be hazardous or toxic by any judicial or governmental entity, body or agency having jurisdiction to make that determination.
 - "Recyclable Material" consists of any material or substance that can be put to beneficial re-use or sold in recognized markets for purposes other than disposal, including, without limitation, uncontaminated non-hazardous corrugated cardboard, white paper, newsprint and other paper; plastics and plastic film; ferrous and non-ferrous metals; and glass.
 - "Solid Waste" is any nonhazardous solid waste generated at Customer Locations that is not excluded by the provisions of this Agreement. Solid Waste shall not include any Unacceptable Waste.
 - "Unacceptable Waste" means highly flammable substances, Hazardous Waste, liquid wastes, certain pathological and biological wastes, explosives, toxic materials, radioactive materials, material that the disposal facility is not authorized to receive and/or dispose of, and other materials deemed by state, federal or local law, or in the reasonable discretion of Contractor, to be dangerous or threatening to health or the environment, or which cannot be legally accepted at the applicable disposal facility.
 - "Waste Material" means all Solid Waste Recyclable Material that are not excluded by this Agreement. Waste Material does not include any Unacceptable Waste.
3. Recyclables. The following should be in the final contract: "Recyclable Materials shall comply with any and all specifications provided by Contractor in order to meet quality thresholds for commodity markets and be free of contamination. If market conditions develop that limit or inhibit Contractor from selling some or all of the Recyclable Materials, Contractor may (i) suspend or discontinue any or all recycling services, or (ii) dispose of the Recyclable Materials in a landfill and update the rates accordingly."

Exclusions Cont'd

4. Trucks and Equipment. Section 9 of the proposed draft contract needs to be clarified so that Contractor understands what it needs to tell the City about the trucks and equipment (as drafted "changes and evolution", it is vague).

5. Review and Audit Rights. The City's review and audit rights in Sections 13 and 14 need to include a statement that the audit and review will not include the review of any confidential information of Contractor unless the City signs a NDA and such records are not subject to any FOIA request.

6. Non-Appropriation. Section 20 of the proposed contract should be modified to state that if the City fails to appropriate funds, the agreement shall automatically terminate on the last date on which funding is provided.

7. Termination. Section 21 should include a mutual termination right for Contractor if the City defaults. Also, the termination for convenience on 180 days' notice should be removed.

8. Insurance. The following changes should be made to the contract:

- In Section 23(B), delete the words "forms and" in the fifth line.
- Section 23(B)(1) should read as follows at the end "... (\$2,000,000) each accident."
- The following words should be added after "endorsed" in the second line of Section 23(C): "via blanket-form endorsement".
- The word "terminated" should be deleted from the fifth line of Section 23(D). Republic's insurers will only provide notice of a cancellation or material change. Also, the end of the last sentence should be modified to read: "... and receive a copy of any applicable, blanket-form endorsement".

9. Indemnity. The indemnity in Section 24 of the agreement is acceptable, but is slightly different than that set forth in the RFP. As long as the indemnity in the draft agreement remains in the final agreement, Republic has no changes to it.

10. Title to Waste. The following needs to be added to the final contract: "Contractor shall acquire title to the Waste Material when it is deposited at a facility or the working face of a disposal site owned or operated by Contractor. Notwithstanding anything to the contrary set forth in this Agreement or otherwise, title to and liability for any Unacceptable Waste shall at no time pass to Contractor."

Business Issues. I know that you are putting together a list of exceptions on the business issues, but I wanted to highlight a few for you to consider in case they are not on your list.

1. Revenue from Recyclable Materials. Section 3.3 states that the City retains all revenue from recycling.

2. Age of Vehicles. Section 3.7 states that trucks must be powered by natural gas and be 10 years or newer.

3. Subcontractors. If you plan to use any subcontractors, you must list them per Section 3.8.

4. CPI. I understand you are going to propose the WST index.

5. Liquidated Damages. The liquidated damages are listed in Section 5.4 of the RFP and Section 17 of the proposed contract.

ADDITIONAL REMARKS

THIS ADDITIONAL REMARKS FORM IS A SCHEDULE TO ACORD FORM.
FORM NUMBER: 25 FORM TITLE: CERTIFICATE OF LIABILITY INSURANCE

The following provisions apply when required by written contract. As used below, the term certificate holder also includes any person or organization that the insured has become obligated to include as a result of an executed contract or agreement.

GENERAL LIABILITY:
Certificate holder is Additional Insured when required by written contract.
Coverage is primary and non-contributory when required by written contract.
Waiver of Subrogation in favor of the certificate holder is included when required by written contract.

AUTO LIABILITY:
Certificate holder is Additional Insured when required by written contract.
Coverage is primary and non-contributory when required by written contract.
Waiver of Subrogation in favor of the certificate holder is included when required by written contract.

WORKERS COMPENSATION AND EMPLOYERS LIABILITY:
Waiver of Subrogation in favor of the certificate holder is included when required by written contract where allowed by state law.

Stop gap coverage for ND, WA and WY is covered under policy no. WLR C6522575A and stop gap coverage for OH is covered under policy no. WCU C65225670, as noted on page 1 of this certificate.

TEXAS EXCESS INDEMNITY AND EMPLOYERS LIABILITY:
Republic Services, Inc. and its subsidiaries are registered non-subscribers to the Texas Workers Compensation Act. Republic Services, Inc. has filed an approved Indemnity Plan with the Texas Department of Insurance which offers an alternative in benefits to employees rather than the traditional Workers Compensation Insurance in Texas. The excess policy (#TNS C49167295) shown on this certificate provides excess Indemnity and Employers Liability coverage for the approved Indemnity Plan.

Contractual Liability is included in the General Liability and Automobile Liability coverage forms. The General Liability and Automobile Liability policies do not contain endorsements excluding Contractual Liability.

Separation of Insured (Cross Liability) coverage is provided to the Additional Insured, when required by written contract, per the Conditions of the Commercial General Liability Coverage form and the Automobile Liability Coverage form.

Certificate of Secretary

CERTIFICATE OF SECRETARY

The undersigned, Secretary of **ALLIED WASTE TRANSPORTATION, INC.**, a Delaware corporation (the "Corporation"), does hereby certify on behalf of the Corporation, that **GREGG BRUMMER** is a duly elected Vice President of the Corporation, that in such capacity he, the President or any other Vice President of the Corporation, can exercise such power and perform such duties as usually accompanies such offices, and implicit in such power is the authority to submit a bid to provide Residential Solid Waste Collection, by and between the Company and the City of Louisville, in the State of Colorado (the "City") and to execute a contract with the City for such services should the bid be awarded to the Company, and that there is no current intention to remove him from such office.

IN WITNESS WHEREOF, the undersigned has hereunto set her hand this 26th day of November, 2018.

Eileen B. Schuler, Secretary

Louisville Addendums

Addendum 1

Request for Proposals
Residential Solid Waste Collection
City of Louisville, Colorado
Addendum #1

General

Q1: The RFP does not state, or I did not see it, how many copies of the proposal you want and if you want an electronic version on a flash drive? This varies from city to city but wanted to provide you as many copies as you wanted/needed.

A1: Respondents shall provide 3 hardcopy proposals and a PDF of the proposal on a flash drive within the sealed bids to be provided.

Q2: In the 2014 contract award process, references were a scored category used in the evaluation process. The current RFP solicitation does not ask for references. Will references be used as part of the scored evaluation process for the prospective proposers?

A2: Respondents shall provide 3 references the City may contact as part of the selection process.

Q3: Can you please provide a signed copy of the current Western Contract.

A3: Signed copy of Western Contract provided in this Addendum #1. Attachment 01.

Section 3.0

Q4: If a hauler chooses to only bid 1 day service or only bid multiple day service, will this disqualify their proposal for not bidding on all options?

A4: Haulers are encouraged to provide pricing for the Base Bid and Alternate Bid Items in order to provide the City the most complete information to make an informed selection from.

At a minimum, Haulers shall bid the Base Bid and Alternate Bid Item #1 **OR** Alternate Bid #2 and Alternate Bid Item #3.

Additionally, Haulers shall bid 3.2 Additional Services and 3.4 Collection Carts.

Section 3.2

Q5: You ask for a half of cubic yard of finished compost for every resident in Louisville. Just shy of 3,000 cubic yards. Republic does the same program for Lafayette and every year we have done this we end up with leftover compost and we only order 500 cubic yards of finished compost. Does Louisville really go through 3,000 cubic yards or is that an overstatement. Whatever the amount is, it is. Just want to make sure I account for it financially properly. Thanks.

Addendum 1.2

A5: Respondents shall plan to provide 500 cubic yards of compost.

Section 3.4

Q6: Do you have an idea of how many cart swaps for a change in size are done on a yearly basis? Do you have it broken down by waste stream? Just trying to get a handle on how many happen in a year so I can account for that expense.

A6: There are roughly 100 seasonal cart change outs in the Spring and Fall for compost totaling 200 cart change outs per year.

Q7: Does the city currently have the addresses of the approximate 13 homes that are isolated from alleys and shall be served via the street facing frontage in the alley service area?

A7: Isolated addresses have been provided in included attachment. Attachment 02.

Q8: Just want to confirm you will be sending a map of Louisville with non-participating HOA's included, plus, the address list you talked about at the pre-bid meeting.

A8: PDF Map and Excel File provided as part of this Addendum #1. Attachment 03 & 04.

Section 3.5

Q9: The RFP states the city limits the collection hours between 7:00 am and 5:00 pm. A common service window many haulers follow is 7:00 am to 7:00 pm, Mon thru Friday. This extra two hours can be helpful in times when volumes are running heavy, bulks running heavy or inclement weather slows the entire process down. Is this city open to collection hours of 7 to 7?

A9: As indicated in the RFP, the City prefers routine collection hours between 7:00 am and 5:00 pm. The City will work with the successful vendor to ensure contract language recognizes special circumstances and hours of work beyond routine collection hours when truly needed from 7:00 am – 8:00 pm as indicated in the RFP.

Exhibit D

Q10: There is a section calling out for a 30 yard container with "no pick up". However, service frequency shows "on call". Can you provide some clarity on what this container is for?

A10: An updated Exhibit D has been provided with additional information related to location and frequency. Please note, the updated Exhibit D – Addendum #1 should replace the Original Exhibit D for the bid submittal. Attachment 05.

Q11: You have 15 residential type containers in varying waste streams listed at city facilities. Is the waste in these containers just normal household type waste, recycle and compost? I am assuming it could be picked up in the normal collection vehicle and not contaminate the loads?

A11: Waste stream from City Facilities in residential type containers is normal household type of waste.

Request for Proposals
Residential Solid Waste Collection
City of Louisville, Colorado
Addendum #1

General

Q1: The RFP does not state, or I did not see it, how many copies of the proposal you want and if you want an electronic version on a flash drive? This varies from city to city but wanted to provide you as many copies as you wanted/needed.

A1: Respondents shall provide 3 hardcopy proposals and a PDF of the proposal on a flash drive within the sealed bids to be provided.

Q2: In the 2014 contract award process, references were a scored category used in the evaluation process. The current RFP solicitation does not ask for references. Will references be used as part of the scored evaluation process for the prospective proposers?

A2: Respondents shall provide 3 references the City may contact as part of the selection process.

Q3: Can you please provide a signed copy of the current Western Contract.

A3: Signed copy of Western Contract provided in this Addendum #1. Attachment 01.

Section 3.0

Q4: If a hauler chooses to only bid 1 day service or only bid multiple day service, will this disqualify their proposal for not bidding on all options?

A4: Haulers are encouraged to provide pricing for the Base Bid and Alternate Bid Items in order to provide the City the most complete information to make an informed selection from.

At a minimum, Haulers shall bid the Base Bid and Alternate Bid Item #1 **OR** Alternate Bid #2 and Alternate Bid Item #3.

Additionally, Haulers shall bid 3.2 Additional Services and 3.4 Collection Carts.

Section 3.2

Q5: You ask for a half of cubic yard of finished compost for every resident in Louisville. Just shy of 3,000 cubic yards. Republic does the same program for Lafayette and every year we have done this we end up with leftover compost and we only order 500 cubic yards of finished compost. Does Louisville really go through 3,000 cubic yards or is that an overstatement. Whatever the amount is, it is. Just want to make sure I account for it financially properly. Thanks.

A5: Respondents shall plan to provide 500 cubic yards of compost.

Section 3.4

Q6: Do you have an idea of how many cart swaps for a change in size are done on a yearly basis? Do you have it broken down by waste stream? Just trying to get a handle on how many happen in a year so I can account for that expense.

A6: There are roughly 100 seasonal cart change outs in the Spring and Fall for compost totaling 200 cart change outs per year.

Q7: Does the city currently have the addresses of the approximate 13 homes that are isolated from alleys and shall be served via the street facing frontage in the alley service area?

A7: Isolated addresses have been provided in included attachment. Attachment 02.

Q8: Just want to confirm you will be sending a map of Louisville with non-participating HOA's included, plus, the address list you talked about at the pre-bid meeting.

A8: PDF Map and Excel File provided as part of this Addendum #1. Attachment 03 & 04.

Section 3.5

Q9: The RFP states the city limits the collection hours between 7:00 am and 5:00 pm. A common service window many haulers follow is 7:00 am to 7:00 pm, Mon thru Friday. This extra two hours can be helpful in times when volumes are running heavy, bulks running heavy or inclement weather slows the entire process down. Is this city open to collection hours of 7 to 7?

A9: As indicated in the RFP, the City prefers routine collection hours between 7:00 am and 5:00 pm. The City will work with the successful vendor to ensure contract language recognizes special circumstances and hours of work beyond routine collection hours when truly needed from 7:00 am – 8:00 pm as indicated in the RFP.

Exhibit D

Q10: There is a section calling out for a 30 yard container with "no pick up". However, service frequency shows "on call". Can you provide some clarity on what this container is for?

A10: An updated Exhibit D has been provided with additional information related to location and frequency. Please note, the updated Exhibit D – Addendum #1 should replace the Original Exhibit D for the bid submittal. Attachment 05.

Q11: You have 15 residential type containers in varying waste streams listed at city facilities. Is the waste in these containers just normal household type waste, recycle and compost? I am assuming it could be picked up in the normal collection vehicle and not contaminate the loads?

A11: Waste stream from City Facilities in residential type containers is normal household type of waste.

September 29, 2014

Kerry Holle
City of Louisville
749 Main St.
Louisville, CO 80027

Dear Kerry,

Attached is the signed agreement for Solid Waste Collection Services. I only made one change and that was to the first page, as residents can choose their size of recycle cart also. I hope this change doesn't invalidate the signed contract since it is a benefit to residents as well.

I will proceed forward with purchasing the bond in the new amount required and will deliver the bond certificate to you as soon as I receive it.

Please let me know if you need anything further and thank you for your help.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bryce Isaacson", with a long horizontal flourish extending to the right.

Bryce Isaacson
Vice President of Sales and Marketing
Western Disposal Services

AGREEMENT FOR RESIDENTIAL SOLID WASTE COLLECTION SERVICES

THIS AGREEMENT is made and entered into effective the **15th day of July, 2014** by and between the CITY OF LOUISVILLE ("City"), a Colorado home-rule municipal corporation and WESTERN DISPOSAL SERVICES, a Colorado corporation ("Contractor") whose address is 5880 Butte Mill Road, P.O. Box 9100, Boulder, Colorado 80301-9100.

WHEREAS, the Contractor, in response to the City's request for proposals, submitted a written proposal to provide single-family residential trash (landfill), recycling and compostable collection services within the City and to perform such work as may be incidental thereto; and

WHEREAS, the City desires to have the Contractor perform residential trash, recycling and compostable collection services in accordance with the terms of this Agreement;

NOW THEREFORE, in consideration of the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

1. Scope of Agreement.

- A. This Agreement pertains to single-family residences except for those within Homeowner Associations that offer their residents curbside trash and single-stream recycling as of the effective date of Ordinance No. 1545.
- B. This Agreement shall not be considered an exclusive franchise for services to the residents of the City and any resident may choose to negotiate with any other trash removal service licensed to do business in the City or may choose to remove their own waste materials in accordance with the laws and regulations of the City. If a resident decides not to use the service and is not part of a Homeowner Association that provides residents trash and curbside recycling, the resident will be billed for the service by the City as though the resident was subscribing for the 32-gallon service rate.

2. Scope of Work. The Contractor will provide the following:

- A. Weekly collection of trash, every-other-week collection of single-stream recyclables, and every-other-week collection of compostables/yard waste. Trash and compostables/yard waste rates will be unit-based or as otherwise identified herein, and there shall be no additional charge by the Contractor for collection of approved recyclables.
- B. The Contractor will supply all residences served with:
 - i) a ^{32,64 or B.I.} 96-gallon, two-wheeled cart for accumulating and setting out recyclables for collection. This cart will be labeled as containing recyclables and include instructions for recycling as mutually agreed upon by the City and the Contractor. The Contractor shall have full responsibility for delivery, exchange,

- maintenance, removal and replacement of recycling carts, and there shall be no additional charge by the Contractor therefor.
- ii) a 32, 64 or 96-gallon, two-wheeled cart for accumulating and setting out compostables and yard waste for collection, depending on the level of service selected by the resident. The Contractor shall have full responsibility for delivery, exchange, maintenance, removal and replacement of carts for compostables and yard waste. Compostables and yard waste will be collected every other week alternating with the weeks recyclables are collected. The cost for compostables and yard waste collection shall be as set forth in Exhibit A.
- C. Two-wheeled carts for collection of trash will be supplied by the Contractor in 32-gallon, 64-gallon or 96-gallon sizes, depending upon the level of service selected by the resident. The Contractor shall have full responsibility for delivery, exchange, maintenance, removal or replacement of carts for trash. The cost for trash collection shall be as set forth in Exhibit A.
- D. Extra refuse (refuse in excess of the 32, 64 or 96-gallon service selected by the resident) will be collected as part of a prepaid sticker program.
- i) The Contractor will work with the City to develop a prepaid sticker for extra 32-gallon bags of trash that may be purchased by residents at locations designated by the City. Residents shall attach the prepaid stickers to each extra 32-gallon bag of trash.
 - ii) If the resident has not attached a sticker, the Contractor shall not be responsible for pickup of the extra trash.
 - iii) Prepaid stickers will be produced by the Contractor and sold to the City at the price per Exhibit "A", attached hereto and incorporated herein. The City, will sell the stickers to residents for a price established by the City. The price of prepaid bag stickers will be increased each time the price of regularly scheduled trash rates are increased under this Agreement and by the same percentage amount as the regularly scheduled rates are increased.
- E. The Contractor will collect approved bulky items (i.e. trash items that are too large to be placed in a 32-gallon refuse bag), such as furniture or appliances, and small equipment, such as lawnmowers, on any regular collection day. The Contractor shall not be responsible for collection of any bulky item unless it receives a request from the resident prior to the regularly scheduled collection day. The Contractor will maintain a list and price schedule of acceptable bulk items for pick-up.
- i) A resident's first bulky item in a calendar quarter will be taken free-of-charge (exception: Freon-containing appliances for which there is always a charge).
 - ii) Collection of any additional items in a calendar quarter shall be subject to the Special Request for Service procedures set forth in Section 7 of this Agreement.
 - iii) If the resident has not made prior arrangements with the Contractor, the bulky items will be left at the curb.

- F. The Contractor will supply a report in an electronic format acceptable to the City each month summarizing services provided, detailing the charges by address, and listing the addresses where the service level has been changed for use in adjusting the residents' utility bills.
- G. The Contractor will supply, on a subscription basis only and for an additional fee as set forth on Exhibit "A" to the resident, the following services:
 - i) Drive-In Service: Drive to homes with long driveways, etc. and empty refuse carts.
 - ii) Roll-Out Service: Roll the carts out from the resident (up to 50 feet) to the collection truck.
 - iii) E-Minders and House Calls: Using either the resident's e-mail address or home phone number to notify the resident of holiday collection schedule, storms that have slowed or stopped trucks from collection or changes to approved recyclables.
- H. During the length of this Agreement, the Contractor will supply its standard newsletter to the City via e-mail at no cost. The City may with the Contractor's prior approval amend the newsletter to address City issues and distribute the newsletter to residents in their City utility bill.
- I. Additional Services. The City and the Contractor may negotiate for cleanup and leaf collection programs, or other trash or recycling collection services not addressed herein.

3. Billing for Services.

- A. Unit-Based Rates will be charged each resident based on the rates in Exhibit "A":

Under the 96-Gallon Rate, residents may have additional 96-gallon refuse and/or compostables and yard waste containers. Residents will be charged as set forth in Exhibit "A" for each additional cart in excess of the first one.

- B. Individual Subscription Based Services, including Drive-In Service, Roll-Out Service, and E-Minders and House Calls, shall be charged as set forth in Exhibit "A".

- 4a. Recyclable Services: The Contractor will collect all of the materials that the Boulder County Recycling Center (BCRC) will accept from curbside programs and deliver them to the BCRC. All revenues from the sale of the recyclables will belong to the City and the Contractor will provide the City with a detailed monthly accounting of the material delivered to the BCRC. Materials delivered to the BCRC will be identified by the Contractor's employee as belonging to the City and the revenue from the sale of these materials will be collected by the City directly from BCRC. The recyclable materials shall be collected every other week on the same day as refuse collection, and shall be

collected in one stream. Any changes to the materials acceptable to the BCRC will be communicated to residents thru the Contractor's next regular scheduled communication as required in Section 10 of this Agreement. Except for its collection and delivery obligations, Contractor is not responsible for the contents placed in recyclables carts by residents.

- 4b. Compostable Services: The Contractor will collect all compostable and yard waste materials that are suitable for composting. The Contractor will process all compostable and yard waste materials at a facility that is approved by the City. All revenues from the sale of compostable and yard waste will belong to the Contractor. The contractor will make available at no extra cost 500 cubic yards of finished compost per year for pickup by the City to distribute from a City facility. The compostable and yard waste materials shall be collected every other week on the same day as trash collection, and shall be collected in one stream. Any changes to the materials acceptable to the Contractors processing facility will be communicated to residents thru the Contractor's next regular scheduled communication as required in Section 10 of this Agreement. Except for its collection and delivery obligations, Contractor is not responsible for the contents placed in compostable carts by residents.

5. Alley Collection: The Contractor will provide alley collection of refuse, recyclables and compostables to all areas of the City with alleys. In areas where alley service is provided, Contractor shall not be required to additionally provide curbside service. If City directs Contractor to also provide curbside service to accommodate special needs of residents in alley service area, City shall pay Contractor an additional block-face charge per month per location for that service as set forth in Exhibit "A". ("Block-face" for these purposes means one side of a street from corner to corner.)

6. Hours and Days of Operation: The Contractor will limit regular collections between the hours of 7:00 a.m. and 5:00 p.m. on Thursday. The Contractor will present its collection plan for City approval, and shall obtain City approval thereof prior to commencement of services. Any material modifications of the agreed upon collection plan shall be subject to prior approval by the City.

7. Special Request for Service: A Special Service Request is a resident's request for the Contractor to make a special trip to their residence to collect trash or bulky trash. It is not a request for regularly scheduled service. Special Services are sold directly to residents and are billed directly to the resident through their credit card. Special service requests will be completed on collection day. Any special service request called in before 3:00 p.m. on the day prior to the collection day will be accommodated the immediately following collection day. Special service requests called in after 3:00 p.m. on the day prior to the collection day will be completed on the next collection day following collection day (one week later).

8. Holiday Schedule: The Contractor will observe New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. If one of the observed holidays falls on a Monday-Thursday, collection will be on Friday. The Contractor will supply an annual calendar, at no charge, to the participating residents showing what trash, recycling or compostable materials are to be set out each week and the collection days during holiday weeks.

9. Trucks and Equipment: The Contractor will advise City on any changes and evolution of equipment and vehicles.
10. Promotion and Education:
 - A. Agreement Implementation: The Contractor will use its expertise and knowledge to assist City staff in the transition to the Contractor's services being provided under this Agreement. The Contractor will develop a list of questions and issues concerning the design, planning and implementation of the rate system and single-hauler collection and recycling program.
 - B. Communication: The contractor will work with the City to provide service-oriented information to customers and for developing and executing public education to encourage waste reduction and diversion. Specifically, 30 days prior to the commencement of service the contractor shall provide an 8-1/2" x 11" two-color insert to be included in each customer's monthly bill (approximately 5,000-6,000 inserts required). This insert will inform City residents of the specifics of the trash, recyclables and compostables collection program, including a collection schedule, a listing of what materials can go into the each waste stream, instructions on the proper handling of the collection carts, instructions on what customers are to do with trash that does not fit into the collection carts, etc. At the same time, contractor shall provide a complete list of fees and services offered to each customer. The contents of the insert will be approved by the City. Contractor should also provide a cost to allow the City the option of requiring that the inserts will be directly mailed to all customers by the contractor. The contractor shall provide another such insert anytime there is a rate increase or change in the collection program.

In addition to the above educational information, the Contractor will work with City Staff to provide and share educational information that will further improve the efficiency and waste diversion performance of the collection program.
11. Public Informational Meetings: The Contractor's management staff will participate with City staff in all meetings necessary to introduce this new service to participating residents. The Contractor will develop informational materials to handout at these meetings, with the assistance of the City.
12. Customer Service Standards: The Contractor shall be responsible for providing all customer service functions including informing residents of current services, handling resident special service requests and resolving customer complaints. The Contractor will maintain and adhere to the Customer Service Standards set forth in Exhibit "B", attached hereto and incorporated herein by reference.
13. Maintenance of Records and Reporting The Contractor shall maintain in its local office full and complete operation and customer service records that shall at all reasonable times be open for inspection and copying for any reasonable purpose by the City, at no charge to the City other than actual cost of copying. All such information shall to the extent permitted by law be deemed as confidential. Reports shall be submitted by the tenth day of each month to the City documenting the following information:

- A. All customers to whom service was provided; detail to include address, account number, size of each container and monthly fee. Included with the line item report will be a summary report detailing the number of customers with each container size combination
 - B. A log of complaints and resolutions for refuse and recycling collection services;
 - C. A log of missed collections and responses;
 - D. A description of any vehicle accidents or infractions occurring in the City;
 - E. A listing of all accounts having a change of service during the month (i.e., 32 gallon service to 64 gallon service, etc.); and
 - F. Weights in tons of trash, recyclable materials, compostables and bulky items collected by commodity and where these items were delivered.
14. Compensation Payment Schedule: The Contractor shall bill the City monthly on an aggregate basis for services provided. The Contractor will supply a billing report in an electronic format acceptable to the City each month summarizing services provided, detailing the charges by address, and listing the addresses where the service level has been changed for use in adjusting the residents' utility bills. The total of the detailed report shall equal the aggregate amount billed to the City. The City shall pay each monthly billing within 30 days of receipt of the billing from the Contractor. The City will retain full auditing rights of the Contractor's accounting records as they pertain to the City's Agreement. All such information shall to the extent permitted by law be deemed as confidential.
15. Annual Price Change: Annually, and effective on the anniversary of the Commencement Date, prices will be adjusted by the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) 1982-84=100. This change shall be based on the most recent 12-month period available.
16. Failure to Perform: The City expects high levels of customer and collection service. Performance failures will be discouraged, to the extent possible, through penalties for certain infractions and through default for more serious lapses in service provisions.
17. Penalties: Penalties will be levied if documented in an incident report presented by the City to the Contractor. Penalties will be deducted from the monthly payment made by the City to the Contractor. Disagreements will be subject to the review and resolution procedures as agreed upon by the parties.

Action or Omission	Penalties
Commencement of residential collection prior to 7:00 a.m. or continuance after 5:00 p.m. except as expressly permitted.	\$100 per incident (each truck on each route is a separate incident).

Failure to collect spilled materials that the Contractor could have reasonably prevented from spilling or that the Contractor has knowledge of or has been notified of.	Twice the cost of cleanup to the City plus \$1,000 each incident
Leakage from Contractor vehicles or vehicle contents.	\$500 each vehicle, each inspection
Failure to collect any and all refuse, recyclable materials and yard debris within one business day after notification, except in those circumstances addressed by Section 26, Force Majeure, of this Agreement. This does not include materials left because resident failed to make payment arrangements for bulky items or failed to use refuse stickers for bags of refuse outside of carts. Contractor's "Not-Out" report which is generated on route and time-stamped shall be a defense in cases of reported failures to make collections.	\$250 each incident.
Collection from residential premises on other than the day specified excluding inclement weather, holiday schedule or Force Majeure as set forth in Section 26.	\$50 per structure
Collection as refuse of properly source-separated recycling.	\$1,000 per incident
Misrepresentation by Contractor in records or reporting.	\$1,500 per incident
Failure to license collection vehicles with Boulder County	\$250 per vehicle per occurrence

The above table is not an exclusive list of the acts or omissions for which a penalty may be assessed. The City has the right to exercise any and all remedies it may have with respect to these and other violations of City codes, laws, rules and regulations and breaches of this Agreement. Any schedule of penalties shall not affect the City's ability to terminate the Agreement for breach.

18. Contract Default: The Contractor shall provide a performance bond in the amount of \$300,000 or equal to the cost of three month's service to the City, whichever is greater, to cover the City's costs in the event of a Contractor default.
19. Effective Date; Term; Commencement of Services: This Agreement shall be deemed effective on the date executed by the Mayor and City Clerk on behalf of the City, after proper execution by the Contractor. This Agreement shall continue in effect for a period of five (5) years from the Commencement Date following the Notice to Proceed, unless terminated by either party as provided herein. Notwithstanding the effective date hereof, the Contractor shall not commence services under this Agreement until the City has issued a written Notice to Proceed, which notice shall be substantially in the form set forth in Exhibit "C" attached hereto and incorporated herein by reference. The Contractor shall maintain continuity of current services after the date the City issues the

Notice to Proceed. If the Notice to Proceed is not issued by **July 18, 2014**, then this Agreement may be terminated by either party by giving 10 days written notice.

20. Non-Appropriation; Condition Precedent: The City's financial obligation under this Agreement is from year to year only, and any financial obligation shall be subject to annual appropriation in the sole and absolute discretion of the Louisville City Council. Nothing in this Agreement shall be deemed or construed as creating a multiple fiscal year obligation on the part of the City within the meaning of the Colorado Constitution, Article X, Section 20. Issuance of a Notice to Proceed under this Agreement is expressly contingent upon the adoption and final effectiveness of an ordinance establishing the City's residential trash and single-stream recycling collection services program and fees therefor. In the event such ordinance is not adopted, whether by the governing body or through any exercise of referendum, this Agreement may be terminated by either party by giving 10 days written notice and, in the event of such termination, no party shall have any further obligation to the other party, except any obligations that are stated in this Agreement to survive termination of the Agreement.

21. Termination: This Agreement may be terminated by either party by giving 180 days written notice to the other party prior to the anniversary date of the Agreement. Additionally, and notwithstanding the provisions of this section, this Agreement may be terminated if, in the sole judgment of the City Manager, service by the Contractor pursuant to this Agreement is not satisfactory. Prior to terminating this Agreement, the City Manager shall cause notice to be given to the Contractor specifying why service is considered by the City to be unsatisfactory. The Contractor shall have thirty (30) days to correct such deficiencies after which the City Manager shall again review the service being furnished under this Agreement. If the City Manager, in his sole discretion, still finds the service unsatisfactory, he may terminate this Agreement by giving the Contractor thirty (30) days written notice. This Agreement shall automatically terminate at the end of the thirty (30) day period following such second notice to the Contractor. This Agreement is also subject to termination as provided in Sections 19 and 20.

22. Independent Contractor: The Contractor, and any persons employed by the Contractor for the performance of work hereunder, shall at all times be independent contractors and not the employees or agents of the City. As independent contractors, the Contractor and its employees are not entitled to workers' compensation benefits except as maybe provided by the Contractor, nor to unemployment insurance benefits unless unemployment compensation coverage is provided by the Contractor or some other entity. The Contractor is obligated to pay all federal and state income tax, and other applicable taxes, on any moneys earned or paid pursuant to this Agreement. The Contractor shall be responsible and pay for all the following:
 - A. Services of the drivers, their assistants, and any other personnel involved in any services rendered under this Agreement; and

 - B. For assuring that each driver involved in any services rendered under this Agreement holds a valid commercial driver's license issued by the State of Colorado; and

- C. Expenses, maintenance, and operations of the trucks and any other equipment involved in any services rendered under this Agreement; and
- D. For compliance at all times with all laws, ordinances, rules, and regulations pertaining to the services rendered under this Agreement, and assuring such compliance by the drivers, their assistants, and any other personnel involved in any services under this Agreement.

23. Insurance Requirements:

A. The Contractor agrees to procure and maintain, at its own cost, the following policies of insurance. The Contractor shall not be relieved of any liability, claims, demands, or other obligations assumed pursuant to this Agreement by reason of its failure to procure or maintain insurance, or by reason of its failure to procure or maintain insurance in sufficient amounts, durations, or types.

B. The Contractor shall procure and maintain, and shall cause any subcontractor performing work pursuant to this Agreement to procure and maintain or insure the activity of the Contractor's subcontractors in the Contractor's own policy, the minimum insurance coverages listed below. Such coverages shall be procured and maintained with forms and insurers acceptable to the City. All coverages shall be continuously maintained from the date of commencement of services hereunder. In the case of any claims-made policy, the necessary retroactive dates and extended reporting periods shall be procured to maintain such continuous coverage.

(1) Worker's Compensation insurance to cover obligations imposed by the Worker's Compensation Act of Colorado and any other applicable laws for any such employee engaged in the performance of work under this Agreement, and Employers' Liability insurance with minimum, limits of TWO MILLION DOLLARS (\$2,000,000) each occurrence, and FOUR MILLION DOLLARS (\$4,000,000) aggregate.

(2) Comprehensive General Liability insurance with minimum combined single limits of TWO MILLION DOLLARS (\$2,000,000) each occurrence and TWO MILLION DOLLARS (\$2,000,000) aggregate. The policy shall be applicable to all premises and operations. The policy shall include coverage for bodily injury, broad form property damage (including completed operations), personal injury (including coverage for contractual and employee acts), blanket contractual, independent contractors, products, and completed operations. The policy shall include coverage for explosion, collapse, and underground hazards. The policy shall contain a severability of interests' provision.

(3) Comprehensive Automobile Liability insurance with minimum combined single limits for bodily injury and property damage of not less than ONE MILLION DOLLARS (\$1,000,000) each occurrence and ONE MILLION DOLLARS (\$1,000,000) aggregate with respect to each of the Contractor's owned, hired or non-owned vehicles assigned to or used in performance of the services. The policy shall contain a severability of interests' provision.

- C. The policies required above, except for the Workers' Compensation insurance and Employers' Liability insurance, shall be endorsed to include the City and its officers and employees as additional insured. Every policy required above shall be primary insurance, and any insurance carried by the City, its officers, or its employees, shall be excess and not contributory insurance to that provided by the Contractor. The additional insured endorsement for the Comprehensive General Liability insurance required above shall not contain any exclusion for bodily injury or property damage arising from completed operations. The Contractor shall be solely responsible for any deductible losses under each of the policies required above.
 - D. Certificates of insurance shall be completed by the Contractor's insurance agent as evidence that policies providing the required coverages, conditions, and minimum limits are in full force and effect, and shall be subject to review and approval by the City. Each certificate shall provide that the coverages afforded under the policies shall not be canceled, terminated or materially changed until at least 30 days prior written notice has been given to the City. If the words "endeavor to" appear in the portion of the certificate addressing cancellations, those words shall be stricken from the certificate by the agent(s) completing the certificate. The City reserves the right to request and receive a certified copy of any policy and any endorsement thereto.
 - E. Failure on the part of the Contractor to procure or maintain policies providing the required coverages, conditions, and minimum limits shall constitute a material breach of this Agreement for which the City may immediately terminate the Agreement, or at its discretion may procure or renew any such policy or any extended reporting period thereto and may pay any and all premiums in connections therewith, and all monies so paid by the City shall be repaid by the Contractor to the City upon demand, or the City may offset the cost of the premiums against any monies due the Contractor from the City.
 - F. The parties hereto understand and agree that the City is relying on, and does not waive or intend to waive by any provision of this Agreement, the monetary limitations (presently \$150,000 per person and \$600,000 per occurrence) or any other rights, immunities, and protections afforded it by the Colorado Governmental Immunity Act, C.R.S. § 24-10-101, et seq., as from time to time amended, or otherwise available at law and applicable to the City, its officers, or its employees.
24. Indemnification: The Contractor agrees to indemnify and hold harmless the City, and its officers, officials and its employees, from and against all liability, claims demands, and expenses, including court costs and reasonable attorney fees, on account of any injury, loss, or damage, which arise out of or are in any manner connected with the work to be performed under this Agreement, if such injury, loss, or damage is caused by, or is claimed to be caused by, the negligent act or omission, error, professional error, mistake, accident, or other fault of the Contractor, any subcontractor of the Contractor, or any officer, employee, or agent of the Contractor, or any other person for whom the Contractor is responsible. The obligations of this section shall not apply to damages which the City shall become liable by final judgment to pay to a third party as a result of the negligent act or omission, error, professional error, mistake, accident, or other fault of the City.

25. Notice: Any notice or communication between the Contractor and the City which may be required, or which may be given, under the terms of this Agreement shall be in writing, and shall be deemed to have been sufficiently given when directly presented or sent pre-paid, first class United States Mail, addressed as follows:

City of Louisville
749 Main Street
Louisville, CO 80027
Attn: Director of Public Works

Western Disposal Services
5880 Butte Mill Road
P.O. Box 9100
Boulder, CO 80301-9100
Attn: Bryce Isaacson

26. Force Majeure: Neither party shall be liable to the other for any delay in, or failure of, performance where performance is prevented or delayed by acts of God, fire, explosion, accident, flood, earthquake, epidemic, war, riot, strikes, lockouts, rebellion, restraints or injunctions, or other legal processes from which a party affected cannot reasonably relieve itself by security or otherwise. In cases of inclement weather, The Contractor and the City's Public Works Director shall agree for what period of time and upon what conditions collection service shall be suspended and such suspension shall be considered a force majeure event.
27. Compliance with Law: The work and services to be performed by the Contractor hereunder shall be done in compliance with all applicable federal, state, county and city laws, ordinances, rules and regulations.
28. Venue: This Agreement shall be governed by the laws of the State of Colorado, and any legal action concerning the provisions hereof shall be brought in the County of Boulder, State of Colorado.
29. No Waiver: Delays in enforcement or the waiver of any one or more defaults or breaches of this Agreement by the City shall not constitute a waiver of any of the other terms or obligations of this Agreement.
30. Assignment: This Agreement shall be binding upon the parties hereto, their successors or assigns. The Contractor shall not assign this Agreement, in whole in part, or assign any rights to payment hereunder, without prior written consent of the City.
31. Default Attorney Fees: In the event that suit is brought regarding this Agreement, the prevailing party shall be entitled to its reasonable attorney fees and related court costs. Colorado law shall apply to the construction and enforcement of this Agreement.
32. Entire Agreement: This Agreement represents the entire Agreement between the parties and there are no oral or collateral agreements or understandings, This Agreement may be amended only by an instrument in writing signed by the parties.
31. Authority to Execute Agreement: The signatory of the Contractor represents and warrants that he has been duly authorized by the Contractor to enter into this Agreement and has full power and authority to bind the Contractor to the terms and conditions of this Agreement.

32. Immigration Status Obligations:

Prohibition Against Employing Illegal Aliens. The Contractor shall not knowingly employ or contract with an illegal alien to perform work under this contract. The Contractor shall not enter into a contract with a subcontractor that fails to certify to the Contractor that the subcontractor shall not knowingly employ or contract with an illegal alien to perform work under this contract.

The Contractor will participate in either the E-verify program or the Department program, as defined in C.R.S. § § 8-17.5-101(3.3) and 8-17.5-101(3.7), respectively, in order to confirm the employment eligibility of all employees who are newly hired for employment to perform work under the public contract for services. The Contractor is prohibited from using the E-verify program or the Department program procedures to undertake pre-employment screening of job applicants while this contract is being performed.

If the Contractor obtains actual knowledge that a subcontractor performing work under this contract for services knowingly employs or contracts with an illegal alien, the Contractor shall:

- a. Notify the subcontractor and the City within three days that the Contractor has actual knowledge that the subcontractor is employing or contracting with an illegal alien; and
- b. Terminate the subcontract with the subcontractor if within three days of receiving the notice required pursuant to this paragraph the subcontractor does not stop employing or contracting with the illegal alien; except that the Contractor shall not terminate the contract with the subcontractor if during such three days the subcontractor provides information to establish that the subcontractor has not knowingly employed or contracted with an illegal alien.

Contractor shall comply with any reasonable request by the Department of Labor and Employment made in the course of an investigation that the Department is undertaking pursuant to the authority established in C.R.S. § 8-17.5-102(5).

If Contractor violates a provision of this Contract required pursuant to C.R.S. § 8-17.5-102, the City may terminate the contract for breach of contract. If the contract is so terminated, the Contractor shall be liable for actual and consequential damages to the City.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands and seals the day and year first written above.

EXHIBIT A – PRICING – RESIDENTIAL SOLID WASTE COLLECTION

Pricing in Exhibit A uses the same unit based pricing formula that the city of Louisville chose when it started its first PAYT program in the initial contract with Western Disposal. The incremental charge for each unit of trash above the first 32-gallon unit is 80% of the 32-gallon rate.

32-gallon trash service: \$10.45/month
 80% of \$10.45 is \$8.35 for each additional 32-gallon unit of trash

64-gallon trash service: \$18.80/month
 (\$10.45 + \$8.35)

96-gallon trash service: \$27.15/month
 (\$10.45 + (2x) \$8.35)

Unit Based Rates

32-Gallon weekly trash service	<u>\$10.45</u> per month
64-Gallon weekly trash service	<u>\$18.80</u> per month
96-Gallon weekly trash service	<u>\$27.15</u> per month
Additional carts any size – trash, recyclables or compostables ⁽¹⁾	<u>\$2.50</u> each
Prepaid sticker per 32-gallon bag	<u>\$3.35</u> each
32-Gallon bi-weekly compostables and yard waste collection	<u>\$3.62</u> per month
64-Gallon bi-weekly compostables and yard waste collection	<u>\$7.24</u> per month
96-Gallon bi-weekly compostables and yard waste collection	<u>\$10.86</u> per month

⁽¹⁾ Provided a customer has paid for 96 gallons of weekly trash service or 96 gallons bi-weekly compostables/yard waste service.

Services Priced as Individual Subscriptions

The following services will be offered to Louisville customers on an individual basis. They will be added to the appropriate addresses in the billing transmitted to the City at month end.

Drive-In Service ⁽³⁾	<u>\$15.00</u> per month
Roll-Out Service ⁽³⁾	<u>\$10.00</u> per month
Enhanced Customer Communications Package	<u>\$.65</u> month/account

(Includes Web Site Support & Information, E-Minders & House Calls, and providing quarterly newsletter for distribution by City.)

⁽³⁾ Any residents

Block Face Charge (provide service in alley and street in same block) \$20.00 each
 Western currently charges for 10 Block Faces

Service Changes – start, stop or cart size changes: No Charge/Each

Bulky items such as furniture or appliances, and small equipment such as lawnmowers, on any regular collection day:

- 1) If the city of Louisville awards Western Disposal waste collection services (trash, recycle and compost) for City facilities at the prices on Exhibit A-2 price sheet, Western Disposal will provide each resident one free bulky item per calendar quarter.

A bulky item is one singular item, not a pile, multiple rolls, bags or boxes, etc. and does not include Freon containing appliances or electronic waste as regulated by the state of Colorado. No hazardous or toxic waste is allowed as defined by local, state and federal laws and regulations. All fluids, i.e. oil and gasoline, must be removed from items such as lawnmowers. Additional bulky items will be charged at Western Disposal's calendar year prices for extra items and materials.

One free bulky item per calendar quarter will be provided to residents in the program as long as Western Disposal provides trash, recycle and compost collection services to city of Louisville facilities.

- 2) If the city of Louisville does not award Western Disposal the waste collection services (trash, recycle and compost) for City facilities, Western will not provide one free bulky item per calendar quarter. Resident can order and will be charged Western Disposal's calendar year prices for extra items and materials.

Additional services Western Disposal will provide to the city of Louisville under the contract to provide residential trash, recycling and compost collection services:

- 1) Western will provide up to 500 cubic yards of free finished compost for each contract year. City of Louisville trucks can pick up the material at Western Disposal's compost facility.
- 2) Western will provide free zero waste services to the city of Louisville's annual Street Faire. Western will provide free collection of trash, recycling and compost for the nine-week event. Free services are for materials generated at the Street Faire and do not include collection of materials from other venues such as the Farmer's Market which run concurrent with the Street Faire.
- 3) Western Disposal will partner with the city of Louisville to develop an educational and social marketing program. The cost of program development is included in our quoted unit-based rates.
 - i. Western will work with the City to develop and implement an online survey for residents which will determine behavioral barriers that may exist to further increasing recycling and composting diversion rates.
 - ii. Western will compile and analyze the survey responses.
 - iii. Western will collect not-out (set-out) information for Louisville residents to also utilize in developing social marketing messaging.
 - iv. Western will work with Louisville staff and the Sustainability Advisory Board using the online survey and set-out results, to design (4) social marketing pieces each contract year. Printing and mailing costs (inserting into utility billing) would be the responsibility of the city of Louisville.

This program is valued at \$3,000.00.

If the city of Louisville chooses not to utilize the social marketing program in any contract year, the City may use the value of the program, \$3,000.00, to apply towards other services that Western is providing to the city of Louisville. This would include trash, recycle and compost services to city of Louisville facilities or autumn leaf and yard waste collection in roll-off containers. A credit for the \$3,000.00 value of the program would be applied against the cost of the other services that Western provides.

The \$3,000.00 credit cannot be applied to offset the cost of residential collection services or to adjust the unit-based residential collection pricing.

EXHIBIT A-2 – PRICE SHEET

Waste Collection Services for City of Louisville Facilities

Trash Disposal Rate Structure

EXHIBIT "B"

CUSTOMER SERVICE PRINCIPLES

The following principles will apply to the Contract and will be adhered to:

1. Do it right the first time - Keep systems in place to make sure that everyone knows what they are supposed to do each day, delivering the quality of service the customer expects.
2. Offer flexibility to the customer - Flexible services to meet a variety of resident needs, flexible equipment that can work in a variety of areas and take most waste that is set out for collection; and flexible systems that can accept changes based on customer needs, not contractor needs or limitations.
3. Be consistent - Deliver the same high quality service in the same manner week-in and week-out is one of the things customers expect and value.
4. Communication - Keep customers informed and offer them a variety of ways to get the information they need.
5. Be responsive - Listen to the customer and respond to their needs. Ask for feedback and continually improve in meeting their expectations and needs.

CUSTOMER SERVICE STANDARDS

The following are service standards that can be expected by the City of Louisville:

1. Routes will not start before 7:00 a.m. and will be completed by 5:00 p.m.
2. If carts are improperly set out for collection, they will still be collected and a cart hanger will be left explaining how and where the cart must be placed in the future.
3. Extra material outside of the carts will not be collected at the time of collection, unless the material is bagged and labeled in accordance with the prepaid sticker option. For materials not collected, a cart hanger will be left explaining that all waste must be in a cart or prepaid bag and that there are options for larger and/or additional containers..
4. Bulky items, such as furniture, appliances, etc., will be collected on the normal collection day. Extra charges will apply as per Exhibit A.
5. All records of extra charges or trash or recyclables "not-out" will be available in contractor's system at 9:00 a.m. the day after collection.
6. Cart exchanges or repairs should be performed within 72 hours of being notified. However, doing this on a normal collection day works best.
7. If an oil leak occurs from one of the collection trucks, the oil spill shall be cleaned up in compliance with applicable regulations.

EXHIBIT "C"
Form of Notice to Proceed

DATED: July 15, 2014

To: Western Disposal Services
5880 Butte Mill Road
P.O. Box 9100
Boulder, CO 80301-9100

Re: Notice to Proceed with Commencement of Residential Trash
Single-Stream Recycling and Compostables Collection Services

Contractor:

This shall service as your notice to proceed with commencement of residential refuse, single-stream recycling and compostables collection services for the City of Louisville pursuant to that certain Agreement for Residential Trash and Recycling Collection Services Agreement entered into effective July 15, 2014.

As required by Section 19 of the Agreement, you are to maintain continuity of services as of the date of this Notice to Proceed.

You are to execute and return two signed originals of this Notice to Proceed to evidence your receipt of same and to indicate the Commencement Date.

Request for Proposals Residential Solid Waste Collection City of Louisville, Colorado

1. Introduction

The City of Louisville (City) is soliciting proposals from qualified contractors for the collection of single-family residential trash (landfill waste), single stream recyclables and compostables. Household participation in the city-wide waste collection program is mandatory with a few exceptions. The one exception to this is those homeowner associations (HOAs) that currently offer their residents curbside waste collection services. Those HOAs may receive an “exemption from participation” and their residents would thus be exempt from the City collection fee. Residents may also opt out of the service, with the City still collecting fees. In this case the contractor will not be compensated for these accounts. Collection fees will be assessed through the City's utility billing system based on account information provided by the contractor, except for those selecting to “opt-out” of service.

The City may award a contract as a result of this RFP process. Key dates as part of this process are as follows:

1. Monday November 6, 2018 – Proposal Advertised
2. Monday, November 26, 2018, 10:00 am - A pre proposal meeting will be held in City Hall located at 749 Main Street, Louisville, Colorado 80027.
3. Thursday, November 29, 5:00 pm – Deadline for Questions. Questions should be referred to Kurt Kowar at kurtk@louisvilleco.gov.
4. Monday, December 3, 5:00pm - Addendum Issued as Necessary
5. **Thursday, December 20, 4:00pm** – Proposal Submittal Deadline.
6. Week of September 2nd, **2019** – Initial Service Begins per agreed upon schedule.

Proposals shall be sent to the City of Louisville, Department of Public Works, 749 Main Street, Louisville, CO 80027 in a sealed envelope marked “City of Louisville Waste Collection Proposal” and shall be received by **4:00 p.m. on Thursday, December 20, 2018**.

2. General Information

2.1 Demographics

The City has an estimated population of 19,200 people residing in an approximately 7.8 square mile area.

2017 solid waste collection data (future numbers subject to change):

- Number of households receiving service: 5,290
- Annual total landfill tonnage: 4,038
- Annual total Single Stream Recyclables tonnage: 1,794
- Annual total Compostables tonnage: 1,366

Commercial, multifamily and industrial complexes are not part of this request for proposals. The City reserves the right to partner with Boulder Valley School District or the Boulder County Housing Authority for services of those facilities within the City at any point during the contract term.

2.2 City Goals and Objectives

The City intends to provide curbside pick-up for trash, single stream recyclables and compostables for all single-family residences within the City, and to bill this service as part of the monthly utility bill. The City believes in maintaining a high level commitment to quality customer service. In procuring the services described in this RFP, the City seeks to provide high quality public services that are convenient for the residents. In addition, the City seeks to provide services that help citizens decrease the amount of solid waste sent to landfills, increase waste reduction and recycling practices, reduce the individual household cost to dispose of waste and reduce the volume, noise and emissions of heavy truck traffic on the City's residential streets.

Proposal should describe programs and incentives that Contactor has implemented for other customers and may be willing to implement for the City of Louisville to increase the diversion rates above historical numbers.

2.3 Reservation of Rights

This request for proposals is a solicitation and not an offer to contract. The City reserves the right to reject any and all proposals. The City retains the right to abandon or terminate the RFP process at its discretion at any time. The City further reserves the right to issue clarifications and other directives concerning this request for proposals; to require clarification or further information with respect to any proposal, and to determine the final terms of any contract. Interviews will be required by the City with selected contractors to clarify contractor proposals and to allow for contract negotiations. Acceptance of any proposal will be based upon factors including, but not limited to: costs for service; completeness of proposal; thoroughness of information provided; customer service standards; value added service; and prior successful contractor performance with waste collection systems similar to a scale described herein.

3. Basis of Proposal

Proposals submitted will be for the contractor to provide non-exclusive collection services for trash, recyclables, and compostable within the City limits. Proposals must include, by paragraph numbers, basic information addressing the following:

3.1 Unit-Based Pricing

The contractor shall provide a proposal indicating charges for weekly trash removal and removal of recyclables and compostables no less than bi-weekly. The price structure shall be unit-based to encourage customers' reduction in trash removal, while maximizing the amount of recyclables and compostables processed. Trash, recycle and compostable containers shall be available in sizes of 96, 64, and 32 gallons.

Unit-Based Pricing shall be provided for a Base Bid Schedule and Alternate Bid Schedules #1 - #3 for a 5 year term ("Exhibit A") and a 10 year term ("Exhibit B").

3.1.1 Unit-Based Pricing Base Bid

Contractor shall provide Base Bid Unit Pricing that assumes:

- Trash service on one single day of the week with recycling and compost collected in alternating weeks on the same day as trash pickup:
- 100% increment for each 32 gallon increase in trash bin size. The first recycling and composting bin of any size shall be included in this unit cost.
- Additional trash bins shall be provided at a 100% increment for each 32 gallon increase in trash bin size at the unit cost of trash only.
- One recycling bin of any size is included for free. Any recycling cost should be incorporated into the trash bin size costing.
- Additional recycling bins shall be provided at a 100% increment for each 32 gallon increase in recycling bin size at the unit cost of recycling only.
- One compost bin of any size is included for free. Any composting cost should be incorporated into the trash bin size costing.
- Additional compost bins shall be provided at a 100% increment for each 32 gallon increase in compost bin size at the unit cost of compost only.

3.1.2 Unit-Based Pricing Alternate Bid Item #1

Contractor shall provide Bid Alternate Unit Pricing that assumes:

- Trash service on one single day of the week with recycling and compost collected in alternating weeks on the same day as trash pickup:
- 100% increment for each 32 gallon increase in trash bin size.
- Additional trash bins shall be provided at a 100% increment for each 32 gallon increase in trash bin size at the unit cost of trash only.
- Any size recycling bin is included for free. Any recycling cost should be incorporated into the trash bin size costing.
- 100% increment for each 32 gallon increase in compost bin size.

3.1.3 Unit-Based Pricing Alternate Bid Item #2

Contractor shall provide Bid Alternate Unit Pricing that assumes:

- Trash service on any day of the week with recycling and compost collected in alternating weeks on the same day as trash pickup.
- Same pricing as 3.1.1, Base Bid.
- A Route Map shall be provided to illustrate the days of the week various areas in the City would be served.

3.1.4 Unit-Based Pricing Alternate Bid Item #3

Contractor shall provide Bid Alternate Unit Pricing that assumes:

- Trash service on any day of the week with recycling and compost collected in alternating weeks on the same day as trash pickup.

- Same pricing as 3.1.2, Alternate Bid Item #1.
- A Route Map shall be provided to illustrate the days of the week various areas in the City would be served.

3.2 Additional Services

The contractor shall provide a list of additional services, together with a price list for such services. The City may or may not choose to utilize these services in the selection of the successful bidder. These services may include but are not limited to:

- 1 Bulky item pick-up per quarter (excludes Freon containing appliances). Bulk item pick-up should clearly list any size limitations and provide pricing for bulk items on a unit cost basis for pickups that are in addition to the quarterly service. Please provide this information in “Exhibit C”.
- Pricing for the collection of trash, recyclables and compostables from City Facilities as provided in “Exhibit D”.
- Collection of trash, recyclables and compostables for special events per year as designated by the City. Pricing shall be a unit cost per each 96-Gallon set of trash, recycling, and compost bins.
- The contractor will make a minimum of one-half cubic yard of finished compost available to each household at no cost. The Contractor may either distribute the finished compost from its own site or deliver the bulk material to a City site where City staff will oversee its distribution.
- Front door pick-up for physically impaired residents.
- Any additional services the Proposer feels will contribute towards the Sustainability and Diversion goals of the City.

3.3 Recyclable and Compostable Material

Recyclable material shall be delivered to the Boulder County Recycling Center (BCRC), or other facilities that may be designated by City Council. Recyclables shall be collected in material streams acceptable to the BCRC, commingled according to what is mutually acceptable to the City, the contractor and the BCRC. The contractor shall base the proposal on every other week collection of recyclables. The recyclables will be composed of cardboard, newspaper, glass bottles, plastic containers and similar items generated by typical single family homes. The recyclable materials will remain the property of the City. Consequently, all revenues received from or costs due to the Boulder County Recycling Center for the City’s recyclable materials, shall be the City’s. By household, recyclables are to be collected on the same day of the week as trash.

Compostable material shall be delivered and processed in a facility designated and approved by the City. Proposers should provide the information related to how and where compost will be transferred upon collection in accordance with all applicable laws and regulations.

Compostables shall be collected in material streams acceptable for composting according to what is mutually acceptable to the City, the contractor and the compostable recycling facility. The contractor shall base their proposal on every other week collection of compostables. The compostables will consist of yard waste, food scraps, paper towels and similar items generated by typical single family homes. The compostable materials shall become the property of the Contractor. By household, compostables are to be collected on the same day of the week as trash.

3.4 Collection Carts

TRASH/RECYCLING/COMPOST carts – Contractor will provide all carts. Contractor shall provide information to the City about what types and sizes of carts will be provided to the customers, how requests for cart repair and replacement will be handled and how changes in cart size will be accommodated. Contractor shall incorporate 3 free cart size changes or replacements per year for each account.

August 2018 cart mix (mix is subject to change based on time of year and customer preferences):

Type/cart size	96	64	32
Trash	10%	43%	45%
Recyclables	58%	26%	12%
Compostables	10%	41%	45%

Old town Louisville has many alleys, and the contractor should be prepared for the special needs and accommodations that will be required for alley collection. Additionally, approximately 13 homes are isolated from alleys and shall be served via the street facing frontage in the alley service area. The proposal shall include a statement of willingness by the contractor to provide alley service, and a description of special accommodations that will be made to accomplish this.

3.5 Hours and Days of Operation

- Regular collections shall be limited to the hours between 7:00 a.m. and 5:00 p.m., Monday through Friday.
- In special circumstances, approved in advance by the Director of Public Works, collections may be expanded to the hours between 7:00 a.m. and 8:00 p.m., Monday through Friday.
- Saturday and Sunday collections are not permitted unless expressly authorized by the Director of Public Works or as permitted in Section 3.7 below.
- The City will work with the selected contractor to develop a collection schedule for all City areas.
- The City prefers a schedule that provides for collection services on one single day of the week. Traditionally, the City has received trash service on Thursdays. Recyclables and compostables shall be collected on the same day that trash collection is done. Bid Alternates provide for consideration of service on days of the week other than Thursdays or service spanning multiple days of the week.
- The proposal should include a proposed schedule that meets this framework and that accommodates changes due to inclement weather and holidays.

3.6 Holiday Schedules

Holidays shall be New Year's Day, Memorial Day, 4th of July, Labor Day, Thanksgiving Day, and Christmas Day. If the holiday falls on a weekday, then the Saturday following the holiday may be authorized as a catch-up collection day.

3.7 Trucks and Equipment

Trucks utilized to service the City shall be powered by Natural Gas and be 10 years or newer in age. The contractor shall provide information about the size and types of trucks and automation that it proposes to use, as well as other equipment necessary for the job such as communication,

RFID devices, GPS systems and others. Performance standards should be described as they relate to the service proposed. The City reserves the right to visit the facilities of all interested contractors and observe the equipment used and the operational methods. These site visits will be coordinated with the appropriate representative(s) from each of the interested contractors. Any contract entered into by the City may contain provisions regarding equipment weight, leak proofing, and similar performance standards.

3.8 Use of Subcontractors

The contractor shall indicate in the proposal whether or not it intends to use subcontractors for any part of the service being provided, together with a list of all said subcontractors. Subcontractors may not be used for more than 20% of the work.

3.9 Promotion and Education

The contractor will work with the City to provide service-oriented information to customers and for developing and executing public education to encourage waste reduction and diversion. Specifically, 30 days prior to the commencement of service the contractor shall provide an 8-1/2" x 11" two-color insert to be included in each customer's monthly bill (approximately 6,000 – 6,500 inserts required). This insert will inform City residents of the specifics of the trash, recyclables and compostables collection program, including a collection schedule, a listing of what materials can go into the each waste stream, instructions on the proper handling of the collection carts, instructions on what customers are to do with trash that does not fit into the collection carts, etc. At the same time, contractor shall provide a complete list of fees and services offered to each customer. Contractor should also provide a cost to allow the City the option of requiring that the inserts will be directly mailed to all customers by the contractor. The contractor shall provide another such insert anytime there is a rate increase or change in the collection program.

In addition to the above educational information, the Contractor will work with City Staff to provide and share educational information that will further improve the efficiency and waste diversion performance of the collection program.

3.10 Public Informational Meetings

Upon selection but prior to implementation of the trash collections service, the selected contractor will be required to participate with City staff and Council in one or more public meetings which will describe the proposed service to City residents/customers.

3.11 Customer Service

The contractor shall be responsible for providing all customer service functions including informing customers of current services, handling customer requests, and resolving customer complaints. The proposal shall include information addressing the contractor's proposals for methods and a time frame for communicating with the customers and responding to their questions and complaints. The contractor shall also include, with the proposal, a copy of their customer service standards.

The contractor shall provide a web site/page exclusively for information pertaining to operations in the City.

The contractor shall provide the ability to provide email blast communications to customers to communicate holidays, inclement weather changes, or other schedule/service disruptions.

3.12 Proposed Term of Contract

The contractor shall provide proposals for a five-year contract (“Exhibit A”) and ten-year contract (“Exhibit B”), including any provisions for yearly cost escalation beyond the cost of living adjustment as described in section 5.2. Alternative terms may be presented for consideration if the Proposer can justify it provides the best value. In this scenario, the Proposer may submit an “Exhibit B1” to illustrate the alternative price structure. Any multi-year contract entered into the City is subject to annual appropriation. Example Contract Language is provided in “Exhibit E” for review. Any exclusions to the provided example contract language should be submitted as part of the bid as “Exhibit E – Exclusions”.

4. Qualifications of Proposer

The City requires the submission of the following certified supporting data regarding the qualifications of the contractor in order to determine whether it is qualified and responsible.

1. Satisfactory evidence that the contractor possesses not less than five years of experience providing trash and recycling collection services in the Front Range.
2. Annual revenue in excess of \$1,000,000.
3. No default or unresolved judgments.
4. Evidence that the contractor is in good standing in the State of Colorado.
5. A copy of the latest available financial statements of the contractor (or, if the contractor is a subsidiary or division, then a financial statement of the parent corporation).
6. The names and resumes of the principal officers, partners, and/or officials. The name(s) and resume(s) of the individual(s) who will be responsible for the City contract.
7. Such additional information as will satisfy the City that the contractor is adequately prepared to fulfill all of the terms of the contract.
8. An Affidavit from the Proposer indicating they will only participate in positive communication regarding the value they can provide to the City based upon their services and will not contribute to or partake in any negative or comparison campaign towards any other proposer. Proposers that do not provide an affidavit or furthermore participate in any negative communications towards other proposers will be disqualified from the bidding process.

5. General Terms

The contract with the City shall include, but not be limited to, general terms that are substantially as follows.

5.1 Maintenance of Records and Reporting

The contractor shall maintain in its local office full and complete operation and customer service records that shall at all reasonable times be open for inspection and copying for any reasonable purpose by the City. Reports shall be submitted by the tenth day of each month to the City documenting the following information:

1. All customers to whom service was provided; detail to include address, account number, size of each container and monthly fee. Included with the line item report will be a summary report detailing the number of customers with each container size combination.
2. A log of complaints and resolutions for trash and recycling collection services
3. A log of missed collections and responses
4. A description of any vehicle accidents or infractions
5. A listing of all accounts having a change of service during the month (i.e., 32-gallon service to 64 gallon service, etc.)
6. Weights in tons of all trash materials collected and landfill destination(s)
7. Weights in tons of recyclable materials collected and destination(s)
8. Weights in tons of compostable materials collected and destination(s)
9. Number of pickups and weights in tons of special wastes (curbside) collected and destination(s)

In addition, reporting shall be submitted by the last day of January annually to Boulder County through the Boulder County ReTRAC reporting system. This shall require some form of registration and licensing in accordance with Louisville and/or Boulder County Ordinances.

5.2 Compensation Payment Schedule

The contractor shall bill the City monthly on a per account basis for services provided. Within 60 days of the start of the Contract, the contractor shall coordinate with the City’s Finance Department to establish mutually acceptable billing forms and formats for data transfer. The City will retain full auditing rights of the contractor’s accounting records as they pertain to the City’s contract.

Annually, and effective on the anniversary of the Commencement Date, prices will be adjusted by the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) 1982-84=100. This change shall be based on the most recent 12-month period available.

5.3 Failure to Perform, Remedies, Termination

The City expects high levels of customer service and collection service provisions. Performance failures will be discouraged, to the extent possible, through penalties for certain infractions and through contract default for more serious lapses in service provisions. Section 5.5 details default provisions and procedures.

5.4 Penalties

Penalties may be levied if documented in an incident report presented by the City to the contractor. Penalties will be deducted from the monthly payment made by the City to the contractor. Disagreements will be subject to the review and resolution procedures provided in the contract.

Action or Omission

Commencement of residential collection prior to 7:00 a.m. or continuance after 7:00 p.m. except as expressly permitted.

Penalties

\$100.00 per incident (each truck on each route is a separate incident).

Failure to collect spilled materials.

Twice the cost of cleanup to the City plus

	\$1,000 each incident
Leakage from contractor vehicles or vehicle contents.	\$500 each vehicle, each inspection.
Failure to collect any and all garbage, recyclable materials, and compostables within one business day after notification.	\$250.00 each incident.
Collection from residential premises other than the day specified excluding inclement weather or holiday schedule.	\$50.00 per structure.
Collection as garbage of source-separated recycling.	\$1,000.00 per incident.
Misrepresentation by contractor in records or reporting.	\$1,500 per incident.
Failure to make required reports on time.	\$500.00 per incident.
Failure to maintain clean and sanitary vehicles.	\$250.00 per vehicle per occurrence.

The above table is not an exclusive list of the acts or omissions for which a penalty may be assessed. Also, the contract shall include provisions detailing those acts and omissions of the contractor which shall be considered violations or breaches of the contract. The contract will reserve to the City the right to exercise any and all remedies it may have with respect to these and other violations and breaches. Any schedule of penalties shall not affect the City's ability to terminate the contract for breach.

5.5 Contract Default

The contractor shall provide a Performance Bond in the amount of \$400,000 or equal to the cost of three months' service to the City, whichever is greater, to cover the City's costs in the event of contractor default. The contract for the services will include a number of provisions protecting City interests in case of contractor default. These provisions may include requirements for surety interest in the contractor's equipment. The contract will also include provisions for successive levels of dispute resolution prior to litigation.

5.6 Force Majeure

The contract will provide that neither party shall be liable to the other for any delay in, or failure of, performance where performance is prevented or delayed by acts of God, fire, explosion, accident, flood, earthquake, epidemic, war, riot, rebellion, restraints or injunctions, or other legal processes from which a party affected cannot reasonably relieve itself by security or otherwise.

5.7 Indemnification and Insurance

The contractor shall be required to indemnify and hold harmless the City, its officers and its employees, from and against all liability, claims, and demands, on account of any injury, loss, or damage, which arise out of or are connected with the contractor's performance of the contract, if such injury, loss, or damage, or any portion thereof, is caused by, or claimed to be caused by, the act, omission, or other fault of the contractor or any subcontractor of the contractor, or any officer, employee, or agent of the contractor or subcontractor, or any other person for whom the contractor is responsible. The contract shall include provisions for the contractor to defend against such claims.

The contractor and any subcontractor of the contractor shall be required to carry at their own expense workers' compensation insurance, comprehensive general liability used in performance of the contract. The worker's liability insurance shall have limits of not less than \$2,000,000 each occurrence and \$4,000,000 aggregate. The vehicle liability insurance shall have limits of not less than \$150,000 each occurrence and \$1,000,000 aggregate. The City, its officers and employees, shall be named additional insured as respect to required coverage for particular operations, subrogation, production of certificates, cancellation, and insurer ratings.

5.8 Compliance with Laws and Miscellaneous

The contractor shall be responsible at its expense for obtaining and complying with all necessary permits, ordinances, and laws. The contract shall also include provisions concerning independent contractor status, equal employment opportunity, non-assignment, disclosure of information and records, applicable law, and such other terms and conditions as the City may require.

Please note that the City of Louisville currently resides in a Colorado Department of Agriculture quarantine zone for Emerald Ash Borer. Contractor shall manage waste in accordance with applicable laws and requirements when hauling materials beyond the quarantine boundaries. Further information can be found at www.eabcolorado.com.

6. Self-Reliance

The City makes no guarantee on any of the estimates contained in the RFP and provides this data for informational purposes only. Contractors are expected to conduct their own investigations and research of relevant information used to develop their proposals, including but not limited to the estimated number and type of housing units, anticipated participation, diversion, container weights and all conditions related to the services provided.

The contractor shall make no claims against the City as a result of estimates or projections used herein, statements, or interpretation of data by City staff or its agents.

7. Information Requests and Requirements

Contractors are to indicate the number of residences in Louisville currently being served including the number of accounts served through homeowner associations. Information on container size, the number of containers, number of accounts recycling, composting, and

utilization of special services are to be provided. Contractors should also provide available information on the gross weight of recyclables and compostables being collected from accounts in Louisville.

SAMPLE CONTRACT
Residential Collection Services

**SAMPLE AGREEMENT FOR RESIDENTIAL SOLID WASTE
COLLECTION SERVICES**

Subject to change based on submitted proposal and negotiations

THIS AGREEMENT is made and entered into effective the **Xth day of XXX, 2019** by and between the CITY OF LOUISVILLE ("City"), a Colorado home-rule municipal corporation and (INSERT CONTRACTOR NAME), a Colorado corporation ("Contractor") whose address is (INSERT ADDRESS).

WHEREAS, the Contractor, in response to the City's request for proposals, submitted a written proposal to provide single-family residential trash (landfill), recycling and compostable collection services within the City and to perform such work as may be incidental thereto; and

WHEREAS, the City desires to have the Contractor perform residential trash, recycling and compostable collection services in accordance with the terms of this Agreement;

NOW THEREFORE, in consideration of the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

1. Scope of Agreement.

- A. This Agreement pertains to single-family residences except for those within Homeowner Associations that offer their residents curbside trash and single-stream recycling as of the effective date of Ordinance No. 1545.
- B. This Agreement shall not be considered an exclusive franchise for services to the residents of the City and any resident may choose to negotiate with any other trash removal service licensed to do business in the City or may choose to remove their own waste materials in accordance with the laws and regulations of the City. If a resident decides not to use the service and is not part of a Homeowner Association that provides residents trash and curbside recycling, the resident will be billed for the service by the City as though the resident was subscribing for the 32-gallon service rate.

2. Scope of Work. The Contractor will provide the following:

- A. Weekly collection of trash, every-other-week collection of single-stream recyclables, and every-other-week collection of compostables/yard waste. **[Description of selected bid schedule to inserted for further detail]**
- B. The Contractor will supply all residences served with:

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

- i) Two-wheeled carts for collection of trash will be supplied by the Contractor in 32-gallon, 64-gallon or 96-gallon sizes, depending upon the level of service selected by the resident. The Contractor shall have full responsibility for delivery, exchange, maintenance, removal or replacement of carts for trash. The cost for trash collection shall be as set forth in Exhibit "A".
 - ii) a 32, 64 or 96-gallon, two-wheeled cart for accumulating and setting out recyclables for collection. This cart will be labeled as containing recyclables and include instructions for recycling as mutually agreed upon by the City and the Contractor. The Contractor shall have full responsibility for delivery, exchange, maintenance, removal and replacement of recycling carts. Recyclables will be collected every other week alternating with the weeks compostables and yard waste are collected. The cost for recyclables collection shall be as set forth in Exhibit "A".
 - iii) a 32, 64 or 96-gallon, two-wheeled cart for accumulating and setting out compostables and yard waste for collection, depending on the level of service selected by the resident. This cart will be labeled as containing compostables and include instructions for composting as mutually agreed upon by the City and the Contractor. The Contractor shall have full responsibility for delivery, exchange, maintenance, removal and replacement of carts for compostables and yard waste. Compostables and yard waste will be collected every other week alternating with the weeks recyclables are collected. The cost for compostables and yard waste collection shall be as set forth in Exhibit "A".
- C. Extra refuse (refuse in excess of the 32, 64 or 96-gallon service selected by the resident) will be collected as part of a prepaid sticker program.
- i) The Contractor will work with the City to develop a prepaid sticker for extra 32-gallon bags of trash that may be purchased by residents at locations designated by the City. Residents shall attach the prepaid stickers to each extra 32-gallon bag of trash.
 - ii) If the resident has not attached a sticker, the Contractor shall not be responsible for pickup of the extra trash.
 - iii) Prepaid stickers will be produced by the Contractor and sold to the City at the price per Exhibit "A", attached hereto and incorporated herein. The City, will sell the stickers to residents for a price established by the City. The price of prepaid bag stickers will be increased each time the price of regularly scheduled trash rates are increased under this Agreement and by the same percentage amount as the regularly scheduled rates are increased.
- D. The Contractor will collect approved bulky items (i.e. trash items that are too large to be placed in a 32-gallon refuse bag), such as furniture or appliances, and small

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

- equipment, such as lawnmowers, on any regular collection day. The Contractor shall not be responsible for collection of any bulky item unless it receives a request from the resident prior to the regularly scheduled collection day. The Contractor will maintain a list and price schedule of acceptable bulk items for pick-up. The cost for bulk item collection shall be as set forth in Exhibit "B".
- i) A resident's first bulky item in a calendar quarter will be taken free-of-charge (exception: Freon-containing appliances for which there is always a charge).
 - ii) Collection of any additional items in a calendar quarter shall be subject to the Special Request for Service procedures set forth in Section 7 of this Agreement.
 - iii) If the resident has not made prior arrangements with the Contractor, the bulky items will be left at the curb.
- E. The Contractor will supply a report in an electronic format acceptable to the City each month summarizing services provided, detailing the charges by address, and listing the addresses where the service level has been changed for use in adjusting the residents' utility bills.
- F. The Contractor will supply, on a subscription basis only and for an additional fee as set forth on Exhibit "A" to the resident, the following services:
- i) Drive-In Service: Drive to homes with long driveways, etc. and empty refuse carts.
 - ii) Roll-Out Service: Roll the carts out from the resident (up to 50 feet) to the collection truck.
- G. During the length of this Agreement, the Contractor will supply its standard newsletter to the City via e-mail at no cost. The City may with the Contractor's prior approval amend the newsletter to address City issues and distribute the newsletter to residents in their City utility bill.
- H. Additional Services. The City and the Contractor may negotiate for cleanup and leaf collection programs, or other trash or recycling collection services not addressed herein.

3. Billing for Services.

- A. Unit-Based Rates will be charged each resident based on the rates in Exhibit "A":

Under the 96-Gallon Rate, residents may have additional 32-gallon, 64-gallon, and 96-gallon refuse, recycling, and/or compostables and yard waste containers. Residents will be charged as set forth in Exhibit "A" for each additional cart in excess of the first one.

EXHIBIT E
SAMPLE CONTRACT
Residential Collection Services

- B. Individual Subscription Based Services, including Drive-In Service, and Roll-Out Service shall be charged as set forth in Exhibit “A”.
- 4a. Recyclable Services: The Contractor will collect all of the materials that the Boulder County Recycling Center (BCRC) will accept from curbside programs and deliver them to the BCRC. All revenues from the sale of the recyclables will belong to the City and the Contractor will provide the City with a detailed monthly accounting of the material delivered to the BCRC. Materials delivered to the BCRC will be identified by the Contractor's employee as belonging to the City and the revenue from the sale of these materials will be collected by the City directly from BCRC. The recyclable materials shall be collected every other week on the same day as refuse collection, and shall be collected in one stream. Any changes to the materials acceptable to the BCRC will be communicated to residents thru the Contractor's next regular scheduled communication as required in Section 10 of this Agreement. Except for its collection and delivery obligations, Contractor is not responsible for the contents placed in recyclables carts by residents.
- 4b. Compostable Services: The Contractor will collect all compostable and yard waste materials that are suitable for composting. The Contractor will process all compostable and yard waste materials at a facility that is approved by the City. All revenues from the sale of compostable and yard waste will belong to the Contractor. The contractor will make available at no extra cost one-half cubic yard of finished compost per household per year. The compostable and yard waste materials shall be collected every other week on the same day as trash collection, and shall be collected in one stream. Any changes to the materials acceptable to the Contractors processing facility will be communicated to residents thru the Contractor's next regular scheduled communication as required in Section 10 of this Agreement. Except for its collection and delivery obligations, Contractor is not responsible for the contents placed in compostable carts by residents.
5. Alley Collection: The Contractor will provide alley collection of refuse, recyclables and compostables to all areas of the City with alleys. In areas where alley service is provided, Contractor shall not be required to additionally provide curbside service except in such circumstance where homes are isolated from alleys.
6. Hours and Days of Operation: The Contractor will limit regular collections between the hours of 7:00 a.m. and 5:00 p.m. on [**Specific Day or Specified Multiple Days**]. The Contractor will present its collection plan for City approval, and shall obtain City approval thereof prior to commencement of services. Any material modifications of the agreed upon collection plan shall be subject to prior approval by the City.
7. Special Request for Service: A Special Service Request is a resident's request for the Contractor to make a special trip to their residence to collect trash or bulky trash. It is not a request for regularly scheduled service. Special Services are sold directly to residents and are billed directly to the resident through their credit card. Special service requests will be completed on collection day. Any special service request called in

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

before 3:00 p.m. on the day prior to the collection day will be accommodated the immediately following collection day. Special service requests called in after 3:00 p.m. on the day prior to the collection day will be completed on the next collection day following collection day (one week later).

8. Holiday Schedule: The Contractor will observe New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. If one of the observed holidays falls on a Monday-Thursday, collection will be on Friday. The Contractor will supply an annual calendar, at no charge, to the participating residents showing what trash, recycling or compostable materials are to be set out each week and the collection days during holiday weeks.
9. Trucks and Equipment: The Contractor will advise City on any changes and evolution of equipment and vehicles.
10. Promotion and Education:
 - A. Agreement Implementation: The Contractor will use its expertise and knowledge to assist City staff in the transition to the Contractor's services being provided under this Agreement. The Contractor will develop a list of questions and issues concerning the design, planning and implementation of the rate system and single-hauler collection and recycling program.
 - B. Communication: The contractor will work with the City to provide service-oriented information to customers and for developing and executing public education to encourage waste reduction and diversion. Specifically, 30 days prior to the commencement of service the contractor shall provide an 8-1/2" x 11" two-color insert to be included in each customer's monthly bill (approximately 6,000 – 6,500 inserts required). This insert will inform City residents of the specifics of the trash, recyclables and compostables collection program, including a collection schedule, a listing of what materials can go into the each waste stream, instructions on the proper handling of the collection carts, instructions on what customers are to do with trash that does not fit into the collection carts, etc. At the same time, contractor shall provide a complete list of fees and services offered to each customer. The contents of the insert will be approved by the City. Contractor should also provide a cost to allow the City the option of requiring that the inserts will be directly mailed to all customers by the contractor. The contractor shall provide another such insert anytime there is a rate increase or change in the collection program.

In addition to the above educational information, the Contractor will work with City Staff to provide and share educational information that will further improve the efficiency and waste diversion performance of the collection program.
11. Public Informational Meetings: The Contractor's management staff will participate with City staff in all meetings necessary to introduce this new service to participating

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

residents. The Contractor will develop informational materials to handout at these meetings, with the assistance of the City.

12. Customer Service Standards: The Contractor shall be responsible for providing all customer service functions including informing residents of current services, handling resident special service requests and resolving customer complaints. The Contractor will maintain and adhere to the Customer Service Standards set forth in Exhibit "C", attached hereto and incorporated herein by reference.

13. Maintenance of Records and Reporting The Contractor shall maintain in its local office full and complete operation and customer service records that shall at all reasonable times be open for inspection and copying for any reasonable purpose by the City, at no charge to the City other than actual cost of copying. All such information shall to the extent permitted by law be deemed as confidential. Reports shall be submitted by the tenth day of each month to the City documenting the following information:
 - A. All customers to whom service was provided; detail to include address, account number, size of each container and monthly fee. Included with the line item report will be a summary report detailing the number of customers with each container size combination

 - B. A log of complaints and resolutions for refuse and recycling collection services;

 - C. A log of missed collections and responses;

 - D. A description of any vehicle accidents or infractions occurring in the City;

 - E. A listing of all accounts having a change of service during the month (i.e., 32 gallon service to 64 gallon service, etc.); and

 - F. Weights in tons of trash, recyclable materials, compostables and bulky items collected by commodity and where these items were delivered.

14. Compensation Payment Schedule: The Contractor shall bill the City monthly on an aggregate basis for services provided. The Contractor will supply a billing report in an electronic format acceptable to the City each month summarizing services provided, detailing the charges by address, and listing the addresses where the service level has been changed for use in adjusting the residents' utility bills. The total of the detailed report shall equal the aggregate amount billed to the City. The City shall pay each monthly billing within 30 days of receipt of the billing from the Contractor. The City will retain full auditing rights of the Contractor's accounting records as they pertain to the City's Agreement. All such information shall to the extent permitted by law be deemed as confidential.

15. Annual Price Change: Annually, and effective on the anniversary of the Commencement Date, prices will be adjusted by the percentage change in the

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

Consumer Price Index for All Urban Consumers (CPI-U) 1982-84=100. The Contractor shall request in writing 90 days prior to the anniversary date the calculated CPI-U change and updated pricing exhibits. This change shall be based on the most recent 12-month period available.

16. Failure to Perform: The City expects high levels of customer and collection service. Performance failures will be discouraged, to the extent possible, through penalties for certain infractions and through default for more serious lapses in service provisions.
17. Penalties: Penalties will be levied if documented in an incident report presented by the City to the Contractor. Penalties will be deducted from the monthly payment made by the City to the Contractor. Disagreements will be subject to the review and resolution procedures as agreed upon by the parties.

Action or Omission	Penalties
Commencement of residential collection prior to 7:00 a.m. or continuance after 5:00 p.m. except as expressly permitted.	\$100 per incident (each truck on each route is a separate incident).
Failure to collect spilled materials that the Contractor could have reasonably prevented from spilling or that the Contractor has knowledge of or has been notified of.	Twice the cost of cleanup to the City plus \$1,000 each incident
Leakage from Contractor vehicles or vehicle contents.	\$500 each vehicle, each inspection
Failure to collect any and all refuse, recyclable materials and yard debris within one business day after notification, except in those circumstances addressed by Section 26, Force Majeure, of this Agreement. This does not include materials left because resident failed to make payment arrangements for bulky items or failed to use refuse stickers for bags of refuse outside of carts. Contractor's "Not-Out" report which is generated on route and time-stamped shall be a defense in cases of reported failures to make collections.	\$250 each incident.
Collection from residential premises on other than the day specified excluding inclement weather, holiday schedule or Force Majeure as set forth in Section 26.	\$50 per structure
Collection as refuse of properly source-separated recycling.	\$1,000 per incident
Misrepresentation by Contractor in records or reporting.	\$1,500 per incident
Failure to license collection vehicles with Boulder County	\$250 per vehicle per occurrence

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

The above table is not an exclusive list of the acts or omissions for which a penalty may be assessed. The City has the right to exercise any and all remedies it may have with respect to these and other violations of City codes, laws, rules and regulations and breaches of this Agreement. Any schedule of penalties shall not affect the City's ability to terminate the Agreement for breach.

18. Contract Default: The Contractor shall provide a performance bond in the amount of \$400,000 or equal to the cost of three month's service to the City, whichever is greater, to cover the City's costs in the event of a Contractor default.

19. Effective Date; Term; Commencement of Services: This Agreement shall be deemed effective on the date executed by the Mayor and City Clerk on behalf of the City, after proper execution by the Contractor. This Agreement shall continue in effect for a period of **[five (5) years or ten (10) years]** from the Commencement Date following the Notice to Proceed, unless terminated by either party as provided herein. Notwithstanding the effective date hereof, the Contractor shall not commence services under this Agreement until the City has issued a written Notice to Proceed, which notice shall be substantially in the form set forth in Exhibit "D", attached hereto and incorporated herein by reference. The Contractor shall begin implementation towards services within 30 days after the date the City issues the Notice to Proceed, and the Contractor shall within 60 days after the date of the Notice to Proceed identify in writing to the City specific key milestone dates to achieve services commencing on the week of September 2nd, 2019, which specific date shall be the Commencement Date.

20. Non-Appropriation; Condition Precedent: The City's financial obligation under this Agreement is from year to year only, and any financial obligation shall be subject to annual appropriation in the sole and absolute discretion of the Louisville City Council. Nothing in this Agreement shall be deemed or construed as creating a multiple fiscal year obligation on the part of the City within the meaning of the Colorado Constitution, Article X, Section 20.

21. Termination: This Agreement may be terminated by either party by giving 180 days written notice to the other party prior to the anniversary date of the Agreement. Additionally, and notwithstanding the provisions of this section, this Agreement may be terminated if, in the sole judgment of the City Manager, service by the Contractor pursuant to this Agreement is not satisfactory. Prior to terminating this Agreement, the City Manager shall cause notice to be given to the Contractor specifying why service is considered by the City to be unsatisfactory. The Contractor shall have thirty (30) days to correct such deficiencies after which the City Manager shall again review the service being furnished under this Agreement. If the City Manager, in his sole discretion, still finds the service unsatisfactory, he may terminate this Agreement by giving the Contractor thirty (30) days written notice. This Agreement shall automatically terminate at the end of the thirty (30) day period following such second notice to the Contractor. This Agreement is also subject to termination as provided in Sections 19 and 20.

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

22. Independent Contractor: The Contractor, and any persons employed by the Contractor for the performance of work hereunder, shall at all times be independent contractors and not the employees or agents of the City. As independent contractors, the Contractor and its employees are not entitled to workers' compensation benefits except as maybe provided by the Contractor, nor to unemployment insurance benefits unless unemployment compensation coverage is provided by the Contractor or some other entity. The Contractor is obligated to pay all federal and state income tax, and other applicable taxes, on any moneys earned or paid pursuant to this Agreement. The Contractor shall be responsible and pay for all the following:
- A. Services of the drivers, their assistants, and any other personnel involved in any services rendered under this Agreement; and
 - B. For assuring that each driver involved in any services rendered under this Agreement holds a valid commercial driver's license issued by the State of Colorado; and
 - C. Expenses, maintenance, and operations of the trucks and any other equipment involved in any services rendered under this Agreement; and
 - D. For compliance at all times with all laws, ordinances, rules, and regulations pertaining to the services rendered under this Agreement, and assuring such compliance by the drivers, their assistants, and any other personnel involved in any services under this Agreement.
23. Insurance Requirements:
- A. The Contractor agrees to procure and maintain, at its own cost, the following policies of insurance. The Contractor shall not be relieved of any liability, claims, demands, or other obligations assumed pursuant to this Agreement by reason of its failure to procure or maintain insurance, or by reason of its failure to procure or maintain insurance in sufficient amounts, durations, or types.
 - B. The Contractor shall procure and maintain, and shall cause any subcontractor performing work pursuant to this Agreement to procure and maintain or insure the activity of the Contractor's subcontractors in the Contractor's own policy, the minimum insurance coverages listed below. Such coverages shall be procured and maintained with forms and insurers acceptable to the City. All coverages shall be continuously maintained from the date of commencement of services hereunder. In the case of any claims-made policy, the necessary retroactive dates and extended reporting periods shall be procured to maintain such continuous coverage.
 - (1) Worker's Compensation insurance to cover obligations imposed by the Worker's Compensation Act of Colorado and any other applicable laws for any such employee engaged in the performance of work under this Agreement, and Employers' Liability insurance with minimum, limits of TWO MILLION DOLLARS

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

(\$2,000,000) each occurrence, and FOUR MILLION DOLLARS (\$4,000,000) aggregate.

(2) Comprehensive General Liability insurance with minimum combined single limits of TWO MILLION DOLLARS (\$2,000,000) each occurrence and TWO MILLION DOLLARS (\$2,000,000) aggregate. The policy shall be applicable to all premises and operations. The policy shall include coverage for bodily injury, broad form property damage (including completed operations), personal injury (including coverage for contractual and employee acts), blanket contractual, independent contractors, products, and completed operations. The policy shall include coverage for explosion, collapse, and underground hazards. The policy shall contain a severability of interests' provision.

(3) Comprehensive Automobile Liability insurance with minimum combined single limits for bodily injury and property damage of not less than ONE MILLION DOLLARS (\$1,000,000) each occurrence and ONE MILLION DOLLARS (\$1,000,000) aggregate with respect to each of the Contractor's owned, hired or non-owned vehicles assigned to or used in performance of the services. The policy shall contain a severability of interests' provision.

- C. The policies required above, except for the Workers' Compensation insurance and Employers' Liability insurance, shall be endorsed to include the City and its officers and employees as additional insured. Every policy required above shall be primary insurance, and any insurance carried by the City, its officers, or its employees, shall be excess and not contributory insurance to that provided by the Contractor. The additional insured endorsement for the Comprehensive General Liability insurance required above shall not contain any exclusion for bodily injury or property damage arising from completed operations. The Contractor shall be solely responsible for any deductible losses under each of the policies required above.
- D. Certificates of insurance shall be completed by the Contractor's insurance agent as evidence that policies providing the required coverages, conditions, and minimum limits are in full force and effect, and shall be subject to review and approval by the City. Each certificate shall provide that the coverages afforded under the policies shall not be canceled, terminated or materially changed until at least 30 days prior written notice has been given to the City. If the words "endeavor to" appear in the portion of the certificate addressing cancellations, those words shall be stricken from the certificate by the agent(s) completing the certificate. The City reserves the right to request and receive a certified copy of any policy and any endorsement thereto.
- E. Failure on the part of the Contractor to procure or maintain policies providing the required coverages, conditions, and minimum limits shall constitute a material breach of this Agreement for which the City may immediately terminate the Agreement, or at its discretion may procure or renew any such policy or any extended reporting period thereto and may pay any and all premiums in connections

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

therewith, and all monies so paid by the City shall be repaid by the Contractor to the City upon demand, or the City may offset the cost of the premiums against any monies due the Contractor from the City.

- F. The parties hereto understand and agree that the City is relying on, and does not waive or intend to waive by any provision of this Agreement, the monetary limitations (presently \$150,000 per person and \$600,000 per occurrence) or any other rights, immunities, and protections afforded it by the Colorado Governmental Immunity Act, C.R.S. § 24-10-101, et seq., as from time to time amended, or otherwise available at law and applicable to the City, its officers, or its employees.
24. Indemnification: The Contractor agrees to indemnify and hold harmless the City, and its officers, officials and its employees, from and against all liability, claims demands, and expenses, including court costs and reasonable attorney fees, on account of any injury, loss, or damage, which arise out of or are in any manner connected with the work to be performed under this Agreement, if such injury, loss, or damage is caused by, or is claimed to be caused by, the negligent act or omission, error, professional error, mistake, accident, or other fault of the Contractor, any subcontractor of the Contractor, or any officer, employee, or agent of the Contractor, or any other person for whom the Contractor is responsible. The obligations of this section shall not apply to damages which the City shall become liable by final judgment to pay to a third party as a result of the negligent act or omission, error, professional error, mistake, accident, or other fault of the City.
25. Notice: Any notice or communication between the Contractor and the City which may be required, or which may be given, under the terms of this Agreement shall be in writing, and shall be deemed to have been sufficiently given when directly presented or sent pre-paid, first class United States Mail, addressed as follows:
- | | |
|---|-------------------------------|
| <p>City of Louisville
749 Main Street
Louisville, CO 80027
Attn: Director of Public Works</p> | <p>Contractor Information</p> |
|---|-------------------------------|
26. Force Majeure: Neither party shall be liable to the other for any delay in, or failure of, performance where performance is prevented or delayed by acts of God, fire, explosion, accident, flood, earthquake, epidemic, war, riot, strikes, lockouts, rebellion, restraints or injunctions, or other legal processes from which a party affected cannot reasonably relieve itself by security or otherwise. In cases of inclement weather, The Contractor and the City's Public Works Director shall agree for what period of time and upon what conditions collection service shall be suspended and such suspension shall be considered a force majeure event.

27. Compliance with Law: The work and services to be performed by the Contractor hereunder shall be done in compliance with all applicable federal, state, county and city laws, ordinances, rules and regulations.
28. Venue: This Agreement shall be governed by the laws of the State of Colorado, and any legal action concerning the provisions hereof shall be brought in the County of Boulder, State of Colorado.
29. No Waiver: Delays in enforcement or the waiver of any one or more defaults or breaches of this Agreement by the City shall not constitute a waiver of any of the other terms or obligations of this Agreement.
30. Assignment: This Agreement shall be binding upon the parties hereto, their successors or assigns. The Contractor shall not assign this Agreement, in whole in part, or assign any rights to payment hereunder, without prior written consent of the City.
31. Default Attorney Fees: In the event that suit is brought regarding this Agreement, the prevailing party shall be entitled to its reasonable attorney fees and related court costs. Colorado law shall apply to the construction and enforcement of this Agreement.
32. Entire Agreement: This Agreement represents the entire Agreement between the parties and there are no oral or collateral agreements or understandings, This Agreement may be amended only by an instrument in writing signed by the parties.
31. Authority to Execute Agreement: The signatory of the Contractor represents and warrants that he has been duly authorized by the Contractor to enter into this Agreement and has full power and authority to bind the Contractor to the terms and conditions of this Agreement.
32. Immigration Status Obligations:

Prohibition Against Employing Illegal Aliens. The Contractor shall not knowingly employ or contract with an illegal alien to perform work under this contract. The Contractor shall not enter into a contract with a subcontractor that fails to certify to the Contractor that the subcontractor shall not knowingly employ or contract with an illegal alien to perform work under this contract.

The Contractor will participate in either the E-verify program or the Department program, as defined in C.R.S. § § 8-17.5-101(3.3) and 8-17.5-101(3.7), respectively, in order to confirm the employment eligibility of all employees who are newly hired for employment to perform work under the public contract for services. The Contractor is prohibited from using the E-verify program or the Department program procedures to undertake pre-employment screening of job applicants while this contract is being performed.

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

If the Contractor obtains actual knowledge that a subcontractor performing work under this contract for services knowingly employs or contracts with an illegal alien, the Contractor shall:

- a. Notify the subcontractor and the City within three days that the Contractor has actual knowledge that the subcontractor is employing or contracting with an illegal alien; and
- b. Terminate the subcontract with the subcontractor if within three days of receiving the notice required pursuant to this paragraph the subcontractor does not stop employing or contracting with the illegal alien; except that the Contractor shall not terminate the contract with the subcontractor if during such three days the subcontractor provides information to establish that the subcontractor has not knowingly employed or contracted with an illegal alien.

Contractor shall comply with any reasonable request by the Department of Labor and Employment made in the course of an investigation that the Department is undertaking pursuant to the authority established in C.R.S. § 8-17.5-102(5).

If Contractor violates a provision of this Contract required pursuant to C.R.S. § 8-17.5-102, the City may terminate the contract for breach of contract. If the contract is so terminated, the Contractor shall be liable for actual and consequential damages to the City.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands and seals the day and year first written above.

CUSTOMER SERVICE PRINCIPLES

The following principles will apply to the Contract and will be adhered to:

1. Do it right the first time - Keep systems in place to make sure that everyone knows what they are supposed to do each day, delivering the quality of service the customer expects.
2. Offer flexibility to the customer - Flexible services to meet a variety of resident needs, flexible equipment that can work in a variety of areas and take most waste that is set out for collection; and flexible systems that can accept changes based on customer needs, not contractor needs or limitations.
3. Be consistent - Deliver the same high quality service in the same manner week-in and week-out is one of the things customers expect and value.
4. Communication - Keep customers informed and offer them a variety of ways to get the information they need.
5. Be responsive - Listen to the customer and respond to their needs. Ask for feedback and continually improve in meeting their expectations and needs.

CUSTOMER SERVICE STANDARDS

The following are service standards that can be expected by the City of Louisville:

1. Routes will not start before 7:00 a.m. and will be completed by 5:00 p.m.
2. If carts are improperly set out for collection, they will still be collected and a cart hanger will be left explaining how and where the cart must be placed in the future.
3. Extra material outside of the carts will not be collected at the time of collection, unless the material is bagged and labeled in accordance with the prepaid sticker option. For materials not collected, a cart hanger will be left explaining that all waste must be in a cart or prepaid bag and that there are options for larger and/or additional containers..
4. Bulky items, such as furniture, appliances, etc., will be collected on the normal collection day. Extra charges will apply as per Exhibit A.
5. All records of extra charges or trash or recyclables "not-out" will be available in contractor's system at 9:00 a.m. the day after collection.

EXHIBIT E
SAMPLE CONTRACT

Residential Collection Services

6. Cart exchanges or repairs should be performed within 72 hours of being notified. However, doing this on a normal collection day works best.
7. If an oil leak occurs from one of the collection trucks, the oil spill shall be cleaned up in compliance with applicable regulations.

SUBJECT: DISCUSSION/DIRECTION – LOUISVILLE SPORTS COMPLEX

DATE: FEBRUARY 12, 2019

**PRESENTED BY: MEGAN DAVIS, DEPUTY CITY MANAGER
NATHAN MOSLEY, DIRECTOR OF PARKS, RECREATION AND
OPEN SPACE**

SUMMARY:

The City of Louisville has been approached by the City of Lafayette and the Rough Riders Sports Club (The Club) regarding the potential for a public-private partnership for the development, management and use of the ball fields located on the Harney-Lastoka property (South Boulder Road Open Space). Staff is seeking Council direction on this concept, and if/how to move forward with this proposal.

BACKGROUND:

In May 2018 the City was approached by a representative from the Rough Riders Sports Club (The Club), an affiliate of the Sports Stable in Superior, regarding the potential development of the City of Lafayette’s ball fields located at the Harney-Lastoka property in Louisville. The Club expressed interest in working with Lafayette to develop their 24 acre portion of the property dedicated to ball fields, and in collaborating with Louisville to manage both portions of the ball fields on the site. The Club had not yet met with Lafayette, or Boulder County (both parties to the IGA regarding the purchase and use of the South Boulder Road Open Space, or Harney-Lastoka), and City staff recommended those conversations take place prior to any City consideration or involvement.

The Club met with Boulder County and the City of Lafayette. Lafayette Council gave staff approval to continue to explore a public-private partnership with The Club, including initiating discussion with the City of Louisville. In October, City staff met with Lafayette and The Club to discuss the concept further. Since that time, staff from Louisville and Lafayette have met to address outstanding questions regarding the proposal.

The information presented at that time included a proposal (Attachment 1) for The Club to build out Lafayette’s unbuilt 24-acre portion of the existing open space, and a transition plan utilizing the existing fields in the Louisville Sports Complex as a part of a joint agreement. The Club would update the existing Louisville fields to include turf in the infield, which they state would further reduce water usage. The proposal is to “manage and incorporate all existing needs in the community so existing sports can still be accommodated.”

The proposal states that The Club is interested in growing their programming and revenues through the expansion of outdoor fields. Specifically the proposal requests to “Discuss a transition plan utilizing the existing fields in the Louisville Sports Complex (LSC) as part of a joint agreement.”

The proposal projects that the expansion and use of the fields under The Club would draw approximately 184,790 individual participants and coaches on an annual basis, and generate significant revenue for the City of Louisville. The revenue estimates are based on camps, clinics, showcases, tournaments and weekday practices and training, and suggest that \$14.5 million in new gross direct spending would occur in the area on hotel, food and retail spending associated with the activities on-site at the newly expanded Sports Complex. The plan includes the use of the existing Sports Complex Field as well as Miner’s Field, and it is not clear if the revenue estimates contemplate the current use of the fields by the City of Louisville for our own recreational programming.

Current Sports Complex Utilization:

The City’s fields are all currently utilized at maximum capacity. The majority of this use is for City of Louisville recreational baseball, which according to 2018 figures serves 461 kids in baseball (co-sponsored) and 45 adults in softball each season. The sports complex is utilized for practices only during the off season which is classified as the months of February and March. At the end of March it becomes a game/tournament only facility. The City partners with two co-sponsoring organizations, Monarch Little League and Louisville Youth Baseball Association, and in 2018 there were 45 teams that practiced twice a week at the complex through March. This resulted in about 90 practices Monday through Saturday and an occasional Sunday.

Between the two co-sponsoring groups there are approximately 200 baseball games at the complex per season. Depending on rain outs this number could be more. This also does not include days that have more than one game on that field (double headers) which would also increase the numbers. There are three senior softball teams that play one game and practice once a week at the Sports Complex mid-March to the end of July. These are City sponsored teams that have approximately 120 games and practices. The City has 11 baseball and softball tournaments that utilize the Sports Complex and Miner’s Field from the beginning of April to the end of July. These tournaments occupy all 4 fields at the Sports Complex and Miner’s Field and typically run Saturday and Sunday, with a small number running from Friday to Sunday and one big softball tournament that runs Tuesday to Saturday.

In the fall, the City hosts more rental groups and the City of Louisville flag football league (approximately 130 participants) on Monday through Friday.

The City rents out the entire complex at a rate of \$575 - \$1080 per hour for resident rental and \$720 - \$1,350 for non-resident rental. Individual fields can also be rented at a

rate of \$30 for resident and \$40 for non-resident. A complete list of Sports Complex rental rates is provided in Attachment 2. Eleven entities other than the City of Louisville rented the fields in 2018, and the revenue generated from the rentals at the Sports Complex and Miner's Field was \$74,657.

These uses currently maximize all the available seasonal play time at the Sports Complex. The available play time must also factor in field crew maintenance and optimal use time to ensure the fields are kept in safe and healthy condition.

The Club's proposal states that "The Sport[s] Stable needs outdoor field space near our indoor complex to complete it's [sic] facility offerings and accommodate our existing user groups, the majority of which come from this local area. Additional fields would allow us to host regional and national tournaments in this area, something we are not able to do at this time." Staff are concerned that given our current full utilization, and lack of capacity to host additional teams, it would not be possible to meet the needs of the City and that of a private partner. However, the City of Lafayette may intend to dedicate any capacity of newly developed fields to a private partner.

Staff estimates approximately 31,000 people use the Sports Complex (including players, coaches, spectators, etc.) during the season (April – October) for regular games, practices and tournaments. This excludes any one-off rentals.

Program Information:

The Rough Riders Sports Club has a number of affiliate organizations with whom The Club partners, including Trebol Soccer Club and several hockey clubs. They offer a full range of programming that includes teams, training, facilities (Sports Stable), uniforms, and tournaments. As with any sports team or club, the Club has its own brand, mission and values, and philosophy. They have expressed interest in connecting youth in sports with their full range of programming.

Likewise, the City of Louisville has established a mature brand for City recreation programming, and has a good reputation within the community for providing quality programs to residents and non-residents alike. With the opening of the new Louisville Recreation and Senior Center, the taxpayers have invested even more in the City's recreation facilities and programming, demonstrating a strong community interest in growing these services.

According to the Rough Riders website, the cost of participation in Rough Riders Youth Baseball for the 2019 season (January – July) is \$2,800. This includes two practices per week, 12 tournaments, and eight 30 minute lessons with a professional instructor, and uniform.

The cost of participation in the City of Louisville partnership program with MLL or LYBA ranges from \$75 - \$300 per season, and depending on participation in tournaments and

SUBJECT: LOUISVILLE SPORTS COMPLEX

DATE: FEBRUARY 12, 2019

PAGE 4 OF 6

camps could reach \$600 - \$1000 at the highest-end. The cost for adult softball is \$500 per team/per season (10 week session) for coed recreational softball, and \$63 resident/\$78 non-resident for Senior Recreational participation.

Facilities, Operations and Management:

Currently, the City of Louisville Parks department manages all the maintenance and operations of the ball fields, while the Recreation staff oversees the programming and scheduling, including rental agreements. In conversations with The Club they indicated that they would manage the programming and field use (scheduling), but do not have firm ideas about who would maintain the fields or how they would be maintained.

The proposed improvements to the Louisville Sports Complex include modernizing the existing infrastructure, such as restrooms, updating the irrigation system, updating the existing fields to turf on the infield, and adding anti-spill lighting. There has been no discussion about costs for improvements, or specific details on operations or maintenance.

Legal Considerations:

When the South Boulder Road open space property (Lastoka property) was purchased in 1993 (Attachment 3) , the City, Boulder County and the City of Lafayette entered into an IGA that included the ability for the Cities of Louisville and Lafayette to develop ball field facilities, with 24 acres made available to each on the western side of the property.

In 2012, the Cities amended the IGA to reflect additional detail regarding the development of the ball fields, adding provisions about access, scheduling, and management and maintenance costs. The amended IGA is specific to the roles of the Cities of Louisville and Lafayette, and does not contemplate a third party or private party interest. The Cities would likely have to revise the amended IGA to address the roles of a third party interest in the property.

RECOMMENDATION:

This proposal is very preliminary, and there are many unknown elements. Staff would need additional details on the facilities that would be built, any improvements to existing facilities, the proposed structure for management and maintenance, as well as the intent of a private partnership for programming on site.

Without all this information available, staff is not able to make an informed recommendation to Council regarding whether or not to proceed. However, at this juncture, staff would find it beneficial to have Council direction on whether or not there is interest in continuing the conversation to pursue this potential public/private partnership further. If Council is interested in moving this conversation forward, staff would like direction on any parameters or principles that the City should carry forward for a potential public private partnership. Such information would help staff outline what might be considered should a more formal proposal come forward.

The following are some principles that staff has identified that could help address concerns that have been raised in conversations with The Club and the City of Lafayette:

- The partnership would be limited to development, management, operations and use of the City's existing ball fields located at the Sports Complex, and not include other City facilities such as Miner's Field, the Louisville Recreation and Senior Center or surrounding fields. If the City identified interest in developing future fields in other locations around the City, a separate agreement could be considered for the development and management of new fields.
- The current level of public benefit of the fields must be retained. The City would retain its ability to program recreational sports use at the current level, and with the currently-anticipated level of growth for the use of fields. This could include spreading out the use across any newly developed fields, or within the existing City-owned fields at the Sports Complex.
- There would be no additional cost (beyond inflationary costs) for the City to utilize, maintain or manage the fields. The City would not be charged rent for the use of its fields.
- Consistent with current practice, the City would generate revenue from the non-public use of its publicly owned facilities.
- Consistent with current policy/practice, assure maintaining program pricing that supports equity in recreational opportunities for broad socio-economic group participation.
- Consistent with current policy/practice, assure program offerings that encourage all ages and abilities have access to Louisville fields, such as maintaining learn-to and non-tryout based teams.
- The City of Louisville would continue to brand, administer and operate its programs and recreational sports.
- A traffic study should be completed to determine impacts on SH 42, and a plan for addressing impacts would need to be developed.
- Honor the current IGA adopted by the existing communities.
- Balance the need for local access to fields with the desire to attract tournaments drawing visitors to the community.

FISCAL IMPACT:

This is a conceptual proposal and fiscal impact cannot be assessed at this time. Staff has considered some of the potential financial impacts associated with a public-private partnership, but given the conceptual nature of the proposal actual impacts are not known. Unknown factors include:

- Rent/usage fees– would the City charge rent to a private partner for use of the fields? Would the private partner charge the City rental fees for our programs? Would the city charge the same rental fees it currently does to other users, and would that revenue come to the City?

SUBJECT: LOUISVILLE SPORTS COMPLEX

DATE: FEBRUARY 12, 2019

PAGE 6 OF 6

- Operating costs – would operating costs increase or decrease?
- In-City water costs – the agreement with Lafayette requires Louisville to provide water and wastewater services at in-city rates. Would this extend to a third party partner?
- Sales taxes – would the City realize more sales tax due to increased use at the fields?
- Impact to residents – would the participation costs to residents increase or decrease?

PROGRAM/SUB-PROGRAM IMPACT:

This conceptual proposal would impact the Recreation program area.

RECOMMENDATION:

Staff recommends that City Council provide direction on whether or not to continue conversations with the City of Lafayette and the Club regarding a public-private partnership at the Sports Complex. Staff recommends that the Council identify any key guiding principles for a public private partnership, should they wish to continue to discuss this opportunity.

GBIRK@RIDERTOWNUSA.COM

Alignment Discussion

Sport Stable and the RoughRiders Sports Club (RRSC) would like to propose the following discussion points for alignment:

- Discuss land in relation to financing for the capital required to build additional fields
- Discuss management & maintenance of the existing fields
- Discuss a transition plan utilizing the existing fields in Louisville Sports Complex (LSC) as part of a joint agreement

RRSC Contribution:

- Create an environmentally friendly turf complex to compliment open space and help complete the existing services offered by the Cities of Lafayette & Louisville
- RRSC will drive revenue and taxes related to it, estimated at \$14.5 annually after stabilization
- Spend the required \$6-10 mm to build out the parcel into a field complex
- Update the existing fields in LSC to turf on the infield, further reducing water usage
- Manage and incorporate all existing needs in the community so existing sports can still be accommodated
- Create additional Lafayette resident specific sports programs

We understand that there are many issues to overcome. At this stage, we are looking for a high level understanding as to direction in order to continue spending the time and money on those items that would be required to see this project to completion.

Why Boulder County?

I believe that as a resident and business owner, there are some major benefits to the area if this proposal becomes a reality. The Sport Stable needs outdoor field space near our indoor complex to complete its facility offerings and accommodate our existing user groups, the majority of which come from this local area. Additional fields would allow us to host regional and national tournaments in this area, something we are not able to do at this time.

- Additional outdoor fields would generate additional revenue for the local municipalities through increased user visits and over time, can become a valuable municipal revenue source.
- We would minimize the construction of any additional structures on the site and maximize the use of existing buildings to preserve the largest amount of open space possible.
- We would utilize and modernize the existing infrastructure so that restrooms and other services such as irrigation systems are brought up to current standards.
- We would use "Anti-Spill" lighting that would minimize light pollution that could affect nearby residents.
- The majority of the usage on the site would be by youth groups, which typically do not run late into the evening.
- Turf would be used to reduce water usage in the complex.
- Maintenance could be handled by the City or handled by the Sport Stable, depending on preference.
- Revenues to hotels, local restaurants and existing businesses would increase with the additional visitors and out of town tournaments that would come to the area as a result of a complex that had the capacity to handle regional sized tournaments.

Full Set of Capabilities

The primary outdoor tournament season for our Sports runs from early March through late October, spanning approximately 36 weeks per year. While the facility incorporates artificial turf to minimize the impact of rain on the ability to play games on schedule, early and late season snows can negatively impact the ability to host games, driving potential fluctuations in revenues.

Part of the strategy is to expand existing programs onto outdoor fields, allowing the RoughRider Sports Club to grow Tournament revenue streams and bring Regional Tournaments to the area.

Field Complex Options	Acres (approx)	Baseball / Softball Fields	Soccer / Football Fields	Lacrosse Field
	32-64	5	5	1

Revenue For Boulder County Businesses

PRELIMINARY

	Total Participants / Coaches (a)	Spectators per Participant (b)	Total Spectators / Families (c)	Total Visitors	Average Length of Stay (d)	Total Visitor Days (e)
Camps/Clinics	1,000	0.50	500	1,500	2	3,000
Showcases	300	0.50	150	450	2	900
Youth Baseball/Soft Ball Tournaments						
Weekday	7,500	0.50	3,750	11,250	0	0
Weekend	15,750	1.00	15,750	31,500	3	94,500
Lacrosse Tournaments	4,000	1.00	4,000	8,000	2	16,000
Adult Softball Tournaments	2,250	0.00	0	2,250	2	4,500
Soccer Tournaments	15,750	1.00	15,750	31,500	2	63,000
Weekday (Local) Non-Tournament	<u>138,240</u>	0.50	<u>69,120</u>	<u>207,360</u>	0	<u>0</u>
Totals	184,790		109,020	293,810		181,900

As shown, it is estimated that the facility will draw approximately 184,790 individual participants and coaches on an annual basis. Assuming an average number of spectators and visitors that will accompany each participant results in a total of approximately 293,810 individuals per year at the complex.

Tournaments typically bring in outside money into the area, these families will require places to stay, food and will often spend on local retail. We have used very conservative numbers, however these numbers show that the field complex will remain utilized for the entire 36 week period based on the fields being turfed.

(a) Reflects total participants and coaches for each event type, based on estimates based on feedback from other tournament directors.

(b) Represents estimated spectators per each participant / coach; typically includes parents, siblings and other relatives.

(c) Reflects the total visitors that participate in each event.

(d) Reflects the average days each visitor is assumed to stay in Boulder County **670**

(e) Reflects the estimated total non-local, overnight visitor days generated by the complex each year. Local visitors are not included

Boulder County Revenue as a Result of Complex Operations

PRELIMINARY

	Hotel Nights Spend (f)	Food Spend (g)	Retail Spend (h)	Total Spend
Camps/Clinics	\$150,000	\$45,000	\$30,000	\$225,000
Showcases	\$45,000	\$13,500	\$9,000	\$67,500
Youth Baseball/Soft Ball Tournaments				
Weekday	\$0	\$168,750	\$11,250	\$180,000
Weekend	\$3,543,750	\$1,417,500	\$945,000	\$5,906,250
Lacrosse Tournaments	\$600,000	\$240,000	\$160,000	\$1,000,000
Adult Softball Tournaments	\$0	\$67,500	\$45,000	\$112,500
Soccer Tournaments	\$2,362,500	\$945,000	\$630,000	\$3,937,500
Weekday (Local) Non-Tournament	\$0	\$1,555,200	\$1,555,200	\$3,110,400
Totals	\$6,701,250	\$4,452,450	\$3,385,450	\$14,539,150

It is estimated that the Sports Field Complex will generate approximately **\$14.5 million** in new gross direct spending in the Boulder County area. However, it is likely that at least a portion of this spending would take place outside the Boulder County limits.

(f) Represents total direct spending by families staying over night (\$100 per Night), this number assumes all families travelling will stay, however the number of participants have been reduced to 75% to give a more realistic number.

(g) Reflects percentage of direct spending captured by entities within Boulder County based on a conservative \$15 / head food expenditure per day. Local Traffic is estimated at 50% of Visitors.

(h) Represents estimated Net New Retail Spending impacting Boulder County at \$10 / head per day. Local Visitors are estimated at \$5 / head per day.

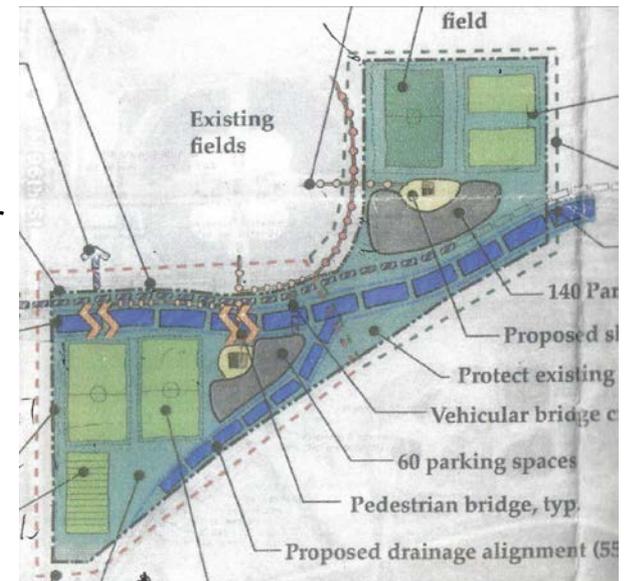

Louisville Fields

There are 5 fields that already exist within walking distance.

This land is relatively flat and ready for construction.

5 High School Equivalent Baseball Fields, 4 Full Size Soccer Fields (or 6 youth Fields) - 1 Football / Lacrosse Field.

Multi Use Fields

RoughRiders Sports Club®:

RIDE TOGETHER - A collective commitment to contribute to the greater good of the RoughRider Family and our surrounding communities. A Classy and Humble organization whose focus centers around shaping, developing and mentoring the character and athletic development of all the young student athletes who play for the RoughRiders.

Core Values:

RESPECT - A feeling of deep admiration for someone or something elicited by their abilities, qualities, or achievements.

Honor – Regard – High Opinion - Esteem

INTEGRITY - The quality of being honest and having strong moral principles; moral uprightness.

Good Character – Ethics – Fairness - Trustworthiness

DESIRE - A strong feeling of wanting to have something or wishing for something to happen.

Crave – Covet – Aspire - Want

EXCELLENCE - The quality of being outstanding or extremely good.

Skill – Accomplishment – Brilliance - Merit

RELENTLESS - Oppressively constant; incessant.

Persistent – Continuous – Endless - Tenacious

SUPPORT - Bear all or part of the weight of; hold up.

Reinforce – Prop Up – Brace – Carry

#01287280 04/29/93 12:16 PM REAL ESTATE RECORDS
F1817 CHARLOTTE HOUSTON BOULDER CNTY CO RECORDER

INTERGOVERNMENTAL AGREEMENT
South Boulder Road Open Space Purchase

This Intergovernmental Agreement by, between and among the City of Lafayette, a Colorado home rule municipal corporation ("Lafayette"), the City of Louisville, a Colorado statutory city ("Louisville"), and the County of Boulder, a body politic and corporate of the State of Colorado ("Boulder County"), (collectively the "Parties") is made to be effective on April 29, 1993.

W I T N E S S E T H:

WHEREAS, the Parties entered into an Intergovernmental Agreement in 1984, which included, among others, property located southeast of the intersection of Colorado State Highway 42 and South Boulder Road, commonly known as the Lastoka property (the "Property"); and

WHEREAS, the Parties, collectively as Purchasers, have entered into a Purchase Agreement, Option to Purchase and Lease with the Sellers, providing for purchase of the Property (the "Purchase Agreement"); and

WHEREAS, the Parties believe that, if provided for subject to the terms and limitations set forth herein, the acquisition of the Property by the Parties would be in the best interest of the citizens of the respective entities entering into this Agreement; and

WHEREAS, Section 29-20-101, et seq., C.R.S., as amended, enables the Parties to enter into intergovernmental agreements to plan for and regulate land uses, in order to minimize the negative impacts on the surrounding areas and protect the environment, and specifically authorizes local governments to cooperate and contract with each other for the purpose of planning and regulating the development of land by means of a "comprehensive development plan"; and

WHEREAS, the Parties find that designating certain property to remain as open space for the purpose of preserving a community buffer serves the economic and civic interest of their citizens and meets the goals of the Boulder County Comprehensive Plan; and

WHEREAS, the functions described in this Agreement are lawfully authorized to each of the Parties which perform such functions hereunder, as provided by applicable law; and

LASTOKA OPEN SPACE

8

WHEREAS, Section 29-1-201, et seq., C.R.S., as amended, authorizes the Parties to cooperate and contract with one another with respect to functions lawfully authorized to each of the Parties and the people of the state of Colorado have encouraged such cooperation and contracting through the adoption of Colorado Constitution, Article XIV, Section 18(2); and

WHEREAS, the Parties have each held hearings after proper public notice for the consideration of entering into this Agreement and the adoption of a comprehensive development plan for the Property as contained in this Agreement.

NOW, THEREFORE, in consideration of the above and the mutual covenants and commitments made herein, the Parties agree as follows:

1. Lastoka Property Comprehensive Development Plan. This Agreement, including any exhibits attached hereto, is adopted by the Parties as the Lastoka Property Comprehensive Development Plan and shall govern the acquisition, use and development of the Property.

2. Acquisition and Partitioning of the Property. The Parties agree to acquire a portion of the Property and to acquire options to purchase the balance of the Property as a joint and cooperative acquisition, subject to the terms and conditions of the Purchase Agreement, and the following additional terms and conditions:

(a) Payment in Shares of Purchase Price: In the event that the Parties exercise all three options set out in the Purchase Agreement, the Parties agree that the total purchase price of the Property, excluding any property purchased by Louisville pursuant to Paragraph 3(c), will be shared proportionately among them as follows: Boulder County shall contribute 50 percent of the purchase price. Lafayette and Louisville shall each contribute 25 percent of the purchase price.

(b) Schedule of Purchase: The Purchase Agreement sets out a schedule of purchase whereby the Parties shall have the right to acquire the Property over a four-year period, commencing in 1993, with acquisitions to be approximately twelve months apart. Notwithstanding the Parties' foregoing percentage contributions to the purchase price, the Parties agree that their participation in the four scheduled purchases shall be as follows, subject to each Party's actual appropriation of said amounts:

<u>Year</u>	<u>Parcel No.</u>		<u>Purchase Price</u>	<u>Option Payment</u>	<u>Total</u>
1993	1	Lafayette	162,896.25	11,056.41	173,952.66
		Louisville	381,595.50	- 0 -	381,595.50
		Boulder County	<u>162,896.25</u>	<u>29,893.29</u>	<u>192,789.54</u>
		Total	707,388.00	40,949.70	748,337.70
1994	2	Lafayette	- 0 -	10,919.92	10,919.92
		Boulder County	<u>272,998.00</u>	<u>16,379.88</u>	<u>289,377.88</u>
		Total	272,998.00	27,299.80	300,297.80
1995	3	Lafayette	- 0 -	10,919.92	10,919.92
		Boulder County	<u>272,998.00</u>	<u>2,729.98</u>	<u>275,727.98</u>
		Total	272,998.00	13,649.90	286,647.90
1996	4	Lafayette	218,699.25	- 0 -	218,699.25
		Boulder County	<u>54,298.75</u>	<u>- 0 -</u>	<u>54,298.75</u>
		Total	272,998.00	- 0 -	272,998.00

In 1994, 1995 and 1996, Boulder County shall give notice to Lafayette and Louisville of its intention to exercise or not to exercise the 1994, 1995 and 1996 options by February 1 of each year. In 1996, Lafayette shall notify Louisville, and Boulder County of its intention to exercise or not to exercise its portion of the 1996 option, by February 1, 1996. Any of the Parties shall have the right to exercise any or all of any other Party's options for 1994, 1995 and 1996, should any Party choose not to proceed with exercising those options to acquire Parcels 2, 3 and 4.

(c) Parcelization: Parcels 1, 2, 3 and 4 shall be as set out in Exhibit A, or as otherwise agreed by the Parties.

(d) Closing Costs: Except as otherwise provided herein, the Parties agree to share proportionately all costs associated with the purchase of the Property, such as costs of a survey, title policy, environmental audit, and other similar closing costs. Boulder County shall bear 50%, and Lafayette and Louisville shall each bear 25%, of such costs.

(e) Title: Except as otherwise provided herein, title to the Property shall initially be held jointly among the Parties as tenants in common, in proportion to each Party's total financial contribution through purchase of the most recent parcel purchased by the Parties, or any of them. Louisville and Lafayette may take separate title to their respective ball field areas described in Paragraph 3(b) at any

time, and Louisville may take separate title to the area described in Paragraph 3(c) at any time after exercising its option to purchase that area. Provided, however, that if any Party takes separate title to any portion of the Property as permitted by Paragraph 3(b) hereof, that Party's proportionate share of the balance of the Property shall be proportionately reduced. (By way of illustration, assume that Parties A, B and C have collectively purchased ninety acres, each Party contributing one-third of the purchase price, and each Party therefore owning an undivided one-third interest in the ninety acres. Party A takes sole title to twenty acres. Party A's interest in the balance of the Property (seventy acres) is proportionately reduced to a one-seventh undivided interest. Parties B and C will each hold a three-sevenths undivided interest in the balance of the Property.) Each of the Parties agrees to execute any quit claim deeds to the other Parties which may be required to adjust the proportionate shares of the Parties, as additional parcels are acquired or as an individual Party takes sole title to a portion of the Property.

After exercise or termination of all of the options to acquire Parcels 2, 3 and 4, the Parties agree to partition the balance of the Property still held as tenants in common. If Louisville has not already done so, it shall then take title to the acreage described in Paragraph 3(c), and that acreage shall be excluded from calculation of the Parties' proportionate interests. The balance of the Property shall be partitioned among the Parties, in proportion to each Party's total financial contribution to the total purchase. In any partition of the Property, Louisville's share will include that portion of the Property utilized or to be utilized for ball fields, as described in Paragraph 3(b), Lafayette may choose any other location for its partitioned share, and Boulder County's share will be the remainder. Should any partitioned parcel be landlocked, the owner of said landlocked portion shall be entitled to an access easement across adjacent parcels, to the nearest public right of way. The Parties agree to execute any necessary documents to create any such access easement. Notwithstanding the foregoing, Lafayette and Boulder County may agree to retain some or all of their respective shares of the Property in joint ownership.

(f) Conservation Easements: While some or all of the Property is held jointly among the Parties as tenants in common, each Party agrees to grant to the other two Parties a conservation easement upon each Party's respective undivided interest in the Property, providing for restrictions on development and use in accordance with the terms of this Agreement. These conservation easements will expire upon the

recording of permanent conservation easements over the Property. Upon any partitioning of the Property, each Party agrees to grant to the other two Parties a permanent conservation easement upon each parcel to which the Party takes title, providing for restrictions on development and use in accordance with the terms of this Agreement, together with the right of ingress and egress for recreational uses by the citizens of the Parties over and across any portion of the Property which has been acquired solely by one of the Parties. All conservation easements shall be in the form attached as Exhibit B.

(g) Subdivision: The Boulder County Parks Department agrees to apply for such subdivision exemptions as may be necessary to effect the agreement of the Parties as stated herein, and Boulder County agrees to take all legally permitted actions necessary to effect the agreement of the Parties as stated herein. Lafayette and Louisville agree to cooperate as co-applicants, if necessary, and to execute any necessary documents.

(h) Water Rights: The purchase shall include all surface and subsurface water rights attached or appurtenant to or used in connection with the Property; these rights shall include, but are not limited to, 66.5 shares of the Davidson Ditch and Reservoir Company, and 66.5 shares of the Davidson Highline Lateral Ditch Company. Title to the surface water rights shall initially be held jointly among the Parties in the same manner as title to the Property. Upon partition of the Property, the surface water rights will be divided among the Parties in proportion to the financial participation in the acquisition of each of the Parties. Subsurface water will be owned congruently with ownership of the overlying land. The Parties agree that the surface water rights will be used first to irrigate the Property; only after such irrigation needs are fully met, may each party use any remaining water for other properly permitted or adjudicated municipal purposes.

(i) Mineral Rights: The purchase of the Property shall include any interest in any mineral rights owned by the seller of the subject property. The Parties agree that no mineral rights, if any, may be severed from surface ownership of the Property in the future. The Parties agree to restrict, to the extent legally possible or practicable, any mineral exploration or mineral development on the property.

Each Party shall immediately notify the other Parties by telephone or facsimile transmission and provide copies of any notices received relating in any manner

to oil and gas development or drilling on the property. Each Party shall promptly notify the other Parties of any information received relating in any manner to oil and gas development or drilling on the Property.

(j) Lease During Term of Purchase: Boulder County has agreed with the seller of the Property to lease from the Seller those parcels for which options remain to be exercised, said lease to remain in effect so long as Boulder County continues to exercise each option as provided in the contract for purchase. During the term of the lease, the costs of the lease at \$1.00 per acre per annum, plus the annual real property taxes and water carriage assessments due on the leased portions, shall be borne by Boulder County. In the event that Boulder County does not exercise its 1994 and 1995 options, any other Party which chooses to exercise Boulder County's option shall also assume Boulder County's obligations set out in this paragraph.

(k) Existing Easements: The Parties agree that all easements currently in existence on the Property will be recognized, but that no new utility or similar easements may be granted by any Party without the consent of the other two Parties.

(l) Drainage: The Parties, as owners of interests in the Property, hereby express their desire to avoid to the extent practicable construction of major new drainage facilities on the Property, particularly on the northwest portion of the Property, which would adversely affect its open space nature.

(m) Louisville Option: Upon partitioning of the Property after complete acquisition thereof, and in accordance with the terms and conditions herein contained, Boulder County and Lafayette hereby grant to Louisville an option to purchase their interests in the remainder of the land located south of the south line of the adjacent Santilly property extended, until December 31, 1996. The purchase price pursuant to such option shall be the purchase price paid by Boulder County and the City of Lafayette for the Property actually acquired by Louisville, to be divided between Boulder County and Lafayette, according to their respective contributions thereto. Exercise of such option by Louisville shall, nevertheless, be subject to the requirement of a permanent conservation easement as set forth in paragraph 2(f) hereof.

3. Use and Development of the Property. The intent of the Parties in acquiring the Property is to establish an open space buffer between Louisville and Lafayette. Except as

provided in subparagraphs 3(b) and 3(c), the Property shall be used solely for agriculture and passive recreational uses. For purposes of this Agreement, passive recreational uses shall include hiking and photography or other nature studies. The construction of trails approved by the management board shall be permitted. Where determined to be appropriate by the unanimous approval of the management board, bicycling, horseback riding, fishing and picnicking, and other uses as allowed under the Open Space provisions of the Boulder County Comprehensive Plan may be permitted upon the Property or portions thereof. Any use of the Property other than for passive recreational uses shall be subject to the unanimous approval of all of the Parties. In no event shall any portion of the Property lying within 350 feet of the center line of South Boulder Road be devoted to uses other than agricultural or passive recreational uses.

(a) Agricultural Lease: The Parties agree that the existing agricultural lease, or a new agricultural lease, on the Property should be continued or implemented until other plans for use of the Property are developed and implemented in accordance with this Agreement. Notwithstanding any continued agricultural use of the Property, it is the Parties' intent that public access to and across that portion of the Property which has been purchased by the Parties be permitted and maintained.

(b) Ball fields: The Parties agree that Louisville may utilize a maximum of twenty-four (24) acres in the western area of Parcel 1 of the Property as described in Exhibit A, for the development of ball fields and necessary appurtenances such as access to the facility from Highway 42, a parking lot, scoreboard, rest rooms and concession stand. The ball fields may be lighted, but any such lighting shall be designed so as to minimize light pollution on adjacent properties. Louisville shall bear the costs associated with surveying the Property to identify the exact location of the proposed ball field development, and all ball field development costs.

The Parties also agree that Lafayette may have the right to utilize an equal amount of the Property for similar development should Lafayette determine to do so in the future.

Prior to development, any Party proposing development shall hold a public hearing on the proposal, and shall give reasonable notice to the other Parties of such public hearing. Any Party which develops a portion of the Property for such uses shall take sole title to that portion,

subject to adjustment of its share as a tenant in common of the balance of the Property. No Party may develop any property fronting on South Boulder Road for these purposes.

(c) Louisville Maintenance Facilities and Wastewater Treatment Plant: The Parties recognize that Louisville maintains existing city maintenance facilities and a wastewater treatment plant south of the Property. Lafayette and Boulder County hereby grant to Louisville an option to purchase a maximum of 7 acres adjacent to the Louisville maintenance facility/treatment plant for expansion thereof, if Louisville determines, in its sole discretion, that such expansion is necessary. Such expansion shall be adjacent to the southern boundary of the Property. So long as Louisville exercises its option by December 31, 1996, the purchase price pursuant to such option shall be the purchase price paid by Boulder County and the City of Lafayette for the property actually acquired by Louisville, to be divided between Boulder County and Lafayette, according to their respective contributions thereto. Upon purchase by Louisville, this parcel shall be released from any conservation easement by Lafayette and Boulder County.

(d) Annexation: Lafayette and Louisville may, in their sole discretion and in compliance with state law, annex any portion of the Property for the purpose of facilitating or enabling the provision of municipal services such as police and fire protection. If any portion of the Property is annexed to either city, Lafayette and Louisville agree that the restrictions on use and development of the Property as set forth in this Agreement shall control and supersede local regulations of the respective city to the extent they conflict. The Parties agree that they will not allow any use or development of the Property which does not comply with this Agreement without first obtaining an amendment to this Agreement as set forth herein.

*Annexation
to ball
fields?
for PD
services?*

4. Management of the Property. There shall be established a management board made up of one representative from each of the three Parties for the purpose of managing the Property. Each party shall have an equal voice in the management of the Property, and unanimous consent shall be required for any decision of the board.

(a) Baseline Data: In order to establish a complete inventory of the present conditions of the Property and its agricultural resources and open space values so as to be able properly to monitor future uses of the Property and assure compliance with the terms hereof, the management board shall prepare or cause to be prepared an inventory of the

Property's relevant features and conditions (the "Baseline Data"). The Baseline Data may include, but need not be limited to, aerial photographs, topographical maps, maps indicating the extent of agricultural uses, and botanical and wildlife photographs and reports.

(b) Approval of Additional Uses: The approval of any uses of the Property other than those specifically set forth in this Agreement shall be by unanimous consent of all of the Parties, as evidenced by resolutions adopted by the Board of County Commissioners and the respective City Councils.

(c) Primary User: The day-to-day management of any portion of the Property which is developed by a single entity shall be the responsibility of the primary user.

(d) Undeveloped Portions: The management board may prepare a Soil and Water Conservation Plan, with the assistance of the Boulder Valley Soil Conservation District, to guide its management of the undeveloped portions of the Property. Boulder County will coordinate the management of all undeveloped portions of the Property under the direction of the management board.

(e) Management Costs: Each of the Parties will be responsible for all management costs associated with any developed portion of the Property under its control. All costs associated with the management of the undeveloped portion of the property must be approved by the unanimous consent of the Parties. Subject to the annual agreement of the Parties, costs associated with the management of the undeveloped portion of the Property will be shared proportionately by the Parties. It is the expectation of the Parties that Boulder County shall bear 50%, and Lafayette and Louisville shall each bear 25%, of such costs.

(f) Liability and Insurance: During such time as any portion of the Property is owned jointly by the Parties as tenants in common or leased by any party, Lafayette agrees to list the jointly owned and the leased portions of the Property on its property inventory filed with the Colorado Intergovernmental Risk Sharing Agency and name Boulder County and Louisville as additional insureds. Lafayette's obligation to include the Property on its property inventory is contingent upon Boulder County's agreement to contribute 50%, and Louisville's agreement to contribute 25%, of any additional premium charged to Lafayette resulting from its inclusion of the Property in its property inventory. After partition of the Property, the management board shall

determine, subject to the unanimous consent of the Parties, how the undeveloped portion of the Property will be insured and the Parties' respective liabilities and indemnification responsibilities with respect thereto.

(g) Underground Gasoline Tank: The Parties acknowledge that there exists on the Property an underground gasoline storage tank. The Parties agree to remove the tank as soon as practicable, and to share in the cost of such removal as follows: Boulder County 50%, Lafayette and Louisville 25%, respectively.

5. Enforcement. The Parties each agree to undertake all steps to adopt procedures, plans, policies and ordinances or other regulations as may be necessary to implement and enforce the provisions of this Agreement. Any Party adopting such procedures, plans, policies, ordinances or regulations shall give each of the other Parties sufficient advance notice of such action as will enable such Parties, if they so desire, to comment upon the planned actions of that Party.

Any dispute between the Parties as to the meaning or application of this Agreement shall be submitted, prior to the initiation of any litigation, to a seven (7) member review committee composed of persons selected in the following manner: Each Party shall select two members, one of whom shall be an elected official of that Party, and one of whom shall be an administrative official of that Party. The three elected officials shall then, by unanimous consent, appoint the seventh member.

Any one or more of the Parties may enforce this Agreement by any legal or equitable means including specific performance, declaratory and injunctive relief. No other person or entity shall have any right to enforce the provisions of this Agreement.

6. Conflict Between Agreements. As among the Parties, in the event of any conflict among this Agreement, the Purchase Agreement, or the Conservation Easement attached as Exhibit B, this Intergovernmental Agreement shall control.

7. Amendments. This Agreement contains the entire agreement between the Parties. Amendment of the Agreement shall take place only upon approval by resolution or ordinance adopted by the governing body of each of the Parties, after notice and hearing as may be required by law.

8. Severability. If any provision of this Agreement or the application thereof to any person or circumstance is found to be invalid, the remainder of the provisions of this Agreement and the application of such provisions to persons or circumstances other than those as to which it is found to be invalid, shall not be affected thereby.

9. Beneficiaries. The Parties, in their corporate and representative governmental capacities, are the only entities intended to be the beneficiaries of the Plan, and no other person or entity is so intended.

10. Governing Law and Venue. This Agreement shall be governed by the laws of the State of Colorado and venue shall lie in the County of Boulder.

11. Previous Agreement. This Agreement shall supersede the Parties' previous Agreement dated November 27, 1984, and recorded in Boulder County on December 10, 1984, at Reception No. 661331, as to this Property only, and shall not otherwise affect such previous Agreement.

12. Term and Effective Date. This Agreement shall become effective upon signature of an authorized representative of each of the governing bodies of the Parties. Except as provided herein, this Agreement shall remain in effect in perpetuity unless terminated by written agreement of all of the Parties.

13. Counterparts. This Agreement may be executed in one or more counterparts, each of which when so executed shall be deemed an original, and such counterparts together shall constitute one and the same instrument.

**AMENDMENT TO SOUTH BOULDER ROAD OPEN SPACE PURCHASE
INTERGOVERNMENTAL AGREEMENT**

THIS AMENDMENT to the South Boulder Road Open Space Purchase Intergovernmental Agreement with an original effective date of April 29, 1993 ("IGA"), by and between the City of Lafayette, Colorado, a home-rule municipal corporation ("Lafayette"), the City of Louisville, a home-rule municipal corporation ("Louisville"), and the County of Boulder, a body politic and corporate of the State of Colorado ("Boulder County") (collectively, "the Parties"), is entered into and made to be effective on the latest date as set out on the signature page of this Amendment.

RECITALS

WHEREAS, in April 1993, the Parties entered into the IGA, pursuant to Sections 29-20-101, et seq., C.R.S., to purchase certain land described therein (the "Property"), which the Parties designated to remain as open space for the purpose of preserving a community buffer in the economic and civic interest of their citizens and which land meets the goals of the Boulder County Comprehensive Plan; and

WHEREAS, the IGA was adopted by the Parties as the "South Boulder Road Open Space Purchase" which governs the acquisition, use and development of the Property; and

WHEREAS, Paragraph 3(b) of the IGA provides that Louisville and Lafayette may each utilize a maximum of twenty-four (24) acres on the Property for the development of athletic fields and similar development, and the necessary appurtenances thereto; and

WHEREAS, Louisville has constructed four (4) softball fields, a parking lot, scoreboard, and restrooms on a portion of Parcel 1 of the Property ("Louisville Ball Fields"); and

WHEREAS, Lafayette desires to exercise its right in Paragraph 3(b) of the IGA to develop the land in order to construct athletic fields and additional parking; and

WHEREAS, the Parties desire to amend the IGA to address the details associated with the exercise of Lafayette's option per Subparagraph 3(b); and

WHEREAS, the Parties have each held hearings after proper public notice for the consideration of entering into this Amendment as may be required by law.

NOW THEREFORE, in consideration of the above and mutual covenants made herein, the Parties agree as follows:

1. Paragraph 2(1), Drainage, is amended by adding a sentence to the existing paragraph as follows:

BOCC

(l) Drainage: The Parties, as owners of interests in the Property, hereby express their desire to avoid to the extent practicable construction of major new drainage facilities on the Property, particularly on the northwest portion of the property, which would adversely affect its open space nature. Notwithstanding this desire, the Parties agree that Lafayette is responsible for and permitted to construct or reconstruct drainage facilities as part of the development of the Lafayette Athletic Fields anticipated in paragraph 3(b), but only to the extent that such drainage facilities are necessitated by reason of the development of the Lafayette Athletic Fields.

2. Paragraph 3(b), Ball Fields, is amended to add the following paragraphs:

24 ac.

6 Fields

The Parties also agree that Lafayette may utilize a maximum of twenty-four (24) acres generally located to the south and to the east of the Louisville Ball Fields for the development of no more than six (6) athletic fields and appurtenant structures to accommodate football, soccer, lacrosse, and similar sports, as well as expansion of parking facilities with no greater size of parking area than is depicted in the sketch plan attached hereto as Exhibit C ("Harney Lastoka Athletic Fields Final Master Plan"). The Lafayette Athletic Fields may, but need not, be lighted, but any such lighting shall be designed so as to minimize light pollution on adjacent properties. In order to minimize the water resources required for the Lafayette Athletic Fields, the fields shall be designed and constructed so that water is not required to maintain the playing surface. Lafayette shall bear the costs associated with surveying the Property to identify the exact location of the proposed athletic field development. All Lafayette Athletic Fields development costs will be the responsibility of Lafayette, including the cost to relocate any trails in existence as of the date of this Amendment, and except that Louisville agrees that it will make available water and wastewater services for purposes other than irrigating the playing surface of the Lafayette Athletic Fields, and that fees associated with water and wastewater services required for development will be charged by Louisville at "in-city rates".

In-City
Water rates

Sole Title

Upon designation of the Lafayette Athletic Fields site, Lafayette shall take sole title to that portion of the Property, subject to adjustment of its share as a tenant in common on the balance of the Property and subject to a conservation easement limiting the use of the property to the above-mentioned Lafayette Athletic Fields. The Parties shall execute all documents to convey title to Lafayette. No Party may develop any property fronting on South Boulder Road for any purposes.

The Parties also agree that (i) in addition to providing parking for the ball fields Louisville and Lafayette may use the parking area contained within their respective areas of the Property designated for ball fields and athletic fields as shared parking facilities to support other activities and functions, including activities and functions located off the ball fields site, provided that such shared parking is managed to account for scheduled activities related to the Athletic

Fields, and (ii) Louisville may redevelop the existing parking area as necessary, provided it does not expand the boundaries of the existing parking area, at its expense and subject to the written approval of Lafayette with respect to any increases in cost associated with maintenance and capital costs covered by paragraphs 4(h)(iii) and 4(h)(iv), to enhance its use as shared parking.

3. A new paragraph 3(e), addressing maintenance access to the property, shall read:

(e) Maintenance Access. Subject to unanimous approval by the Parties, construction and maintenance of a future secondary entry to South Boulder Road from the east side of the Property, for the purpose of maintenance access only, shall be a permissible use under this Agreement.

Secondary
Maint.
Access

4. A new paragraph 4(h), addressing the joint use and management of the Louisville Ball Fields and Lafayette Athletic Fields, shall read:

(h) Management, Maintenance, Control and Use of Louisville Ball Fields and Lafayette Athletic Fields. Upon completion of the development of the Lafayette Athletic Fields, the following shall govern the use, maintenance, and management of both the Louisville Ball Fields and the Lafayette Athletic Fields:

Mutual Use / Access

(i) Mutual Right to Access and Use Developed Areas: Lafayette and Louisville each agree to allow each other mutual use of, and access to, the Louisville Ball Fields and the Lafayette Athletic Fields, and all appurtenances thereto, including the ball fields, athletic fields, rest rooms, concession stand (if constructed), scoreboards, parking lots, rights-of-way and access to the facilities from Highway 42. It is the intent that the Ball Fields and Athletic Fields be jointly administered for the equal benefit of the citizens of both Cities.

Scheduling

(ii) Scheduling of Use: The City Managers for Louisville and Lafayette, or their designees, shall agree on a method to schedule use of the ball fields, athletic fields, and the appurtenant facilities by the Cities and their citizens. The Managers shall consider requests from Louisville and Lafayette and outside users, and shall agree to a schedule of use of the ball fields, athletic fields, and the appurtenant facilities in an equitable manner. There shall be no veto power in any one of the Parties with respect to setting the schedule of use.

Maintenance
Split

(iii) Management and Maintenance Costs: Lafayette and Louisville shall be equally responsible for the aggregate management costs and maintenance costs associated with the Louisville Ball Fields and the Lafayette Athletic Fields, and all appurtenances thereto. Lafayette and Louisville shall address actual maintenance responsibilities, and payment of the respective party's share of such costs, by separate agreement.

1st
Separate
Agreement

Maintenance costs shall include the provision of water and wastewater services, which Louisville agrees to provide at "in-city rates".

(iv) Capital Replacement Costs: Louisville and Lafayette agree to each bear 50% of capital replacement costs related to the ball fields and athletic fields, and all appurtenances thereto, including capital replacement costs for the rest rooms, concession stand (if constructed), scoreboards, parking lots, rights-of-way and access to the facilities from Highway 42. Louisville and Lafayette will enter into a separate agreement addressing a mechanism to assure capital replacement.

Split Capital Replacement

2nd
Separate Agreement

5. A new paragraph 4(i), addressing phases of construction and use, shall read as follows:

(i) Phases of Construction and Terms of Control and Use of Louisville Ball Fields and Lafayette Athletic Fields. Lafayette may, in its sole discretion, construct the Lafayette Athletic Fields in two phases. The first phase shall be complete when the construction of three (3) of the six (6) athletic fields is completed. The second phase of construction shall be complete when the last three (3) of the (6) athletic fields are completed. Upon completion of the first phase of construction of the athletic fields by Lafayette, Lafayette shall be entitled to joint use of, and access to, two (2) of the Louisville Ball Fields (or a comparable joint use of all four (4) of the ball fields) and appurtenant facilities, and Louisville shall be entitled to joint use of the first three (3) completed Lafayette Athletic Fields. The provisions of paragraphs 4(h)(i), (ii) and (iii) shall otherwise apply to all such use after the first phase is completed, and before completion of the second phase, except that Louisville shall be responsible for sixty-six percent (66%) of management and maintenance costs.

2 Phase Potential

Phase One
Louis = 66%

6. A new paragraph 14, addressing appropriations, shall read as follows:

14. No Multi-Year Fiscal Obligation. Nothing herein shall constitute a multiple fiscal year obligation pursuant to Colorado Constitution Article X, Section 20. Notwithstanding any other provision of this Agreement, the obligations under this Agreement are subject to annual appropriation by the City Councils of the Cities of Lafayette and Louisville. Notice shall be given promptly to the other Parties of any failure to appropriate such adequate monies.

7. Lafayette relinquishes its right to annex any portion of the Property that may exist under paragraph 3(d) of the IGA.

8. All other provisions of the IGA, including Exhibits A and B to the IGA, shall remain in full force and effect, except as expressly amended, or superceded, by this Amendment.

9. This Amendment may be executed in one or more counterparts, each of which when so executed shall be deemed an original, and such counterparts together shall constitute one and the same instrument.

LAF -
No Annexation

THIS AMENDMENT is made and entered into to be effective on the latter of the dates of approval by the CITY OF LAFAYETTE, the CITY OF LOUISVILLE, and the COUNTY OF BOULDER, (the "Effective Date").
