***NOTE: INSURANCE CERTIFICATES ARE NOT REQUIRED.**

In the Louisville Municipal Code Chapter 5.12, the City requires that all contractors working on construction projects obtain a City of Louisville contractor's license. LMC 5.12.090 states, "A contractor shall be responsible for all work included in his contract whether or not such work is done by him directly or by a subcontractor. A contractor shall be responsible for all funds or property received by him for prosecution, for completion of a specific contract, or for a specific purpose." It is also the responsibility of whomever is acting as the general contractor to assure the city that all subcontractors doing labor for pay on a project have current licenses with the state and the City of Louisville and follow the city and building codes. As the acting general contractor, you must accept responsibility to notify the Building Safety Department of any change in any subcontractors record and will take full responsibility for all work being done by the subcontractors. In addition, as states in the Louisville Municipal Code Chapter 5.12, "The city does not require proof of insurance. By signing the contractor's license application, the applicant is stating that they will maintain general liability insurance as will the subcontractors they hire."

To the best of my knowledge, all information given through this license application is correct and by signing and dating below, I understand and will abide by the statement above.
