

A close-up photograph of a hand holding a glowing LED light bulb. The bulb is held in front of a ceiling light fixture, which is partially visible. The background is a plain, light-colored wall. The lighting is warm, emanating from the bulb. A large white diagonal shape is overlaid on the right side of the image, containing text.

**START SAVING
TODAY!**

We're ready to bring energy and money savings directly to your business any time you are.

SIMPLE SOLUTIONS, GREAT RESULTS.

Saving energy is easy, and Xcel Energy is making it even easier for you by bringing energy-efficient items such as LED bulbs and water-saving aerators directly to your business and installing them free of charge. ENERGY STAR® LEDs last at least 12 years. Additionally, ENERGY STAR LEDs save more than \$55 in electricity costs over its lifetime. And when you replace your aerators, you'll likely reduce the amount of water you use by hundreds of gallons per year. As a result, you use less energy to heat that water. Below are all the additional items for which your building could be eligible.

To find out if your business qualifies for free installation of energy-saving equipment², and to learn how to save even more energy and money with an onsite energy analysis, contact us at **855.839.8862**.

Additional no-cost measures you may be eligible to receive:

- Pre-rinse spray valves
- Coil cleaning brush
- Pipe wrap
- Smart thermostat
