Subject:

FW: June 25 Packet Supplement No. 1 - Redtail Ridge GDP/Comp Plan Amendments

Chair Brauneis and Members of the Commission:

We received a commissioner question on if the City has recent traffic count information related to the Retail Ridge GDP and Comp Plan Amendments. In addition to the information included in the traffic study submitted with the application materials, staff notes the following public agency websites have interactive maps with recent traffic count data. The City participates in providing information to these databases. I am also checking with Public Works to see if there is more current information not yet uploaded to these maps and will follow up if additional information is available. Please reply directly to staff (not reply all) if you have any questions or additional information requests before the hearing.

The City has made the decision to close all facilities in an effort to protect public health and prevent the spread of COVID-19. We continue to provide essential services and are conducting non-essential services remotely if possible. I appreciate your patience and understanding if you experience a longer response time than usual.
