
MEMORANDUM

FROM: Michael O'Keefe: Engineering Technician II for City of Louisville Public Works

DATE: Monday, March 30, 2026

RE: Road Closure: 600-800 Blocks of Main St. (Elm St. to Walnut St.)

The City of Louisville Public Works Operations crew will be installing temporary outdoor dining patios within Main St. right-of-way. The current schedule for work is from Monday, April 20 to Friday, April 24, but it is anticipated that setup will take less time.

Alternate routes of Lafarge Ave. and Front St. are advised. Vehicle traffic on both Spruce St. and Pine St. will be allowed to pass through their respective intersections with Main St. The traffic control plan can be seen on the following page. Please feel free to reach out to me with any comments or questions.

Thank you.

Traffic Control

Key

"Road Closed Ahead" sign and barrier

Road closed to vehicular traffic

**"Road Closed Ahead" signs
should be placed on Main St.**

**Detour to either Lafarge Ave.
or Front St.**
